A man by the name of CLAPP hasengaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, ect. This Townsend is no doctor, and never wast but was formerly a worker on railroads, canols, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the John to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr.s. likeness, his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassas st., New York City.

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE Genuine Townsend Barsaparilia.
Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHER and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being been been been passed on the AUTHER and DISCOVERER OF the GENUINE OR SARSAPARILLA." goor, he was compelled to than use unaufacture, by which means of has been kept out of market, and the sales circum-cribed to those only who had proved its worth, and known its value. That

eached the ears of many, nevertheless, as those persons who had een healed of sore diseases, and saved from death, proclaime Its excellence and wonderful.

HEALING POWER.

Knowing, many years ago, that he had, by his skift, science and experience, decised an article which would be of incalcuble advantage to makind when the means would be turnshed to bring it into universal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are supplied; this

it into miniversal folice, when its enestimate virtues would be plied; this and appreciated. This time has come, the means are supplied; this and appreciated. This time has come, the means are supplied; this are supplied; this are supplied; the supplied of the land, especially as it is found incapable of degeneration of decreatation.

Unlike young S. P. Townsemes, it improves with ege, and nexter changes, that for the tritter; because it is prepared an setterlife principles by a scientific principles, and to not properties which are inert or uscless, and others, which if retrined in preparing it for use, produce fermentation and oriel, which is injurious to the system.—Some of the properties of Sarsaparilla are so odd the, that they entirely exaporate and are lest in the preparation, if they are not preserved by a scentific process, known only to those experienced in its manufacture. Moreover, these to datile principles, which is voil in v.p. r. or as an exhabition, under heat, are the very essential to the preparation of the properties of the root, which give to it all its value. Any person can boil or stew the root fill they get a dark colored lighted, which is more from the coloring matter in the root than from any thing else; they can then strain this insighil or vapid lightly, which is more from the coloring matter in the root than from any thing else; they can then strain this insighil or vapid lightly. SARSAPAR.

DETERIORATION, and NEVER SPOILS,

NEVER SPOILS,

Review fermenting, and blowing the butbecause of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and

NEVER SPOILS,
while the other DOES souring, fermenting, and blowing the bottles consiming it into fragments; the sour, acid Inquid exploding, and dimaging other goods! Must not this borrible compound be poisonopisto the system!—What! put acid into a system arrady diseased with acid! What causes Dyspepsia but acid! Do we not all know that when food sours in our stomachs, what mischiefs it produces? Hattlence, heartburn, palpitation of the heart, in creomplaint, diarrhen, dyspitery, colie, and corruption of the bloot! What is Scrotial but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Heart, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which inclinates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acis? So of nervious diseases, or impairly of the blood, or deranged circulations, and maning the delicate tissues upon which the acis? So of nervious diseases, or impairly of the blood, or deranged circulations, and mearly all the inhaents which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this.

SUURING, FERMENTING, ACID "COMPOUND"

and yet he would fain have it understood that Old Dr. Jacob Townsend's Genume Original Sarrapavalla, is an IMITATION of his inferior prepriation!!

Heaven fortaid that we should deal in an article which would bear the most distant reremblance to S. P. Townsend's article; and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Acents who have soid, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND.

We wish it understool, because it is the absolute truth, that B. P. Townsend's Sarsapar

P. Townsend's affice and Old Dr. Jacob Townsend's Satsaparila are heaven-cide apart, and infinitely describing that they are unlike in every patticular, having not one single thing in comon. As S. P. Townsend is no doctor, and never was, is no chemist ARS, F. Dissection obeoff and the desired of disease that any other common, unscientific, unprofessional man, what grant a disease in the public have that they are receiving a genuine scient. a dec can the public have that they are receiving a genuine sclen-title medicine, containing all the virtues of the articles used in preparing it, and which are in expaths of changes which might render them the AGENTS of Disease instead of health. But what else should be expected from one who knows nothing comparatively of medicine or disease. It requires a person of some experience to cook and servestip even a common decent need. How much more important is it that the persons who man-utacture needleine, designed for "Work Stonach's and Enfoeblod Systems, should know we'll the needle properties of plants, the best man-

Work Stormachs and Zhvochlod Bystomis, should know vellike nedical properous of plants, the best manner of segmang and concentrating their healing virines, also an extensive nowledge of the various elegans which affect the linear space, and how to adapt remedies to these diseases!

It is no arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle heige in the desparing besom, to restorehealth and bloom, and vizor into the crushed and broken, and to banish materials that OLD R. JACOB TOWNSEND has SOUGHT and POUND the opportunity and means to bring his Grand Universal Concontrated Remedy within the teach, and to the knowledge of all who need it, that

they may learn and know, by joyint experience, its

NOTICE TO THE PUBLIC RASCALITY AND DECEPTION.

RASCALITY AND DECEPTION.

LET EYERY ONE READ THIS CAREFULLY.

THERE is a Saraparilla for sale called old Dr. Jacob Townstands Assenged and Saraparilla. It is advertised as the original, &c. This is a notorious falschood. Dr. Townsend has expensed over \$300,000 the last eight years in advertising his Saraparilla, which has obtained a character and reputation throughout the United States and a greater part of the world—the sale being ecomonous.

This excited the cupidity of certain unprincipled men, and an old man who was engaged in peddling cheap publications about the streets of New York, for a number of years. This man's name is Jacob Townsend. He applied to a number of men to get employment, or to sell the use of his name, to put up Dr. Townsend's Saraparilla, stating the large sales and sums we had expended in advertising, as an inducement to embark into the business. A mong others, he applied to Charles Watrous, E.q., Editor of the Janatca Farmer, who scorned such a proposition. Mr. H. Q. ANDREWS, fornerly one of the proprietors of McAllister's Olintanent, RALPH POMEROY, formerly Cashier and Financier of the broken Shin-Plaster Bank at Beliville, New Jersey, 1018 SKILLMAN, and WILLIAM THOMPSON, under the name of THOMPSON, SKILLMAN & Co, have employer this old man, and acreed, we no lerstand, to pay him seven dollars a week for the use of his name. These men have been insulting and tibling us in all, possible forms, in hopes we would notice them, and bring them and their decection into market. Let the public decide upod the course of these hoarst and honorable men.

ONE OF THEIR TRICKS.

They say that Dr. Townsend's Sarsaparilla rours and ferments—this is talse: as we have kept it through the whole year in New Orleans, Teats, Marton, South America and the West Indies—in fact the older at groys the better it becomes. We made a few bottles by mist ike, last Spring, that spoked. This we regretted, and cyclanged as soon is possible; such an accident will never occur again. This they attempt to make a great story LET EYERY ONE READ THIS CAREFULLY.

These men also publish that Dr. Townsend is no physician; this like all other statements, are falso. Dr. Townsend attended two of the best Medical Schools in the country, has studied the different theories of medicine and practiced for the last fiven years, the severimented several years, and expended large sams in bringing his medicines to perfection. This old Jacob Townsond,

This old Jacob Tewnsond,

They are endeavoring to palm off on the public as an old physiciru, &c. He is no physiciru, and never attempted to mainfacture a medicine until these men hired him for the use of his mane. They say they do not wish the people to believe that their Sarsaparilla is ours, or the same—but the better to deceave the public, they in the same assert that theras is the old Dr. Townsend's, and theory in mainstructs is the Dr. Townsend's Sarsaparilla that has performed so many wonderful cures for the past ten years, and which has aimed a reputation which no other medicine ever epiped—which is a base, villationus, unprincipled faise-bod. We have camenaced suits against three men for dranges. We wish it to be understood, that the old man is no connection of Dr. Townsend whatever. In their advertisements and circulars they publish a number of gross falsehoods respecting Dr. Townsend, which we will not notice.

Sir.—You are aware that, as the originator of the Gracferberg Company, I must have but iny attention called to the numerous Medicines, presented to the public patronaes. I have watched with much interest the introduction of the Carcholague into this country by yourself, and am free to say that 10 Medicine stands so deservedly high as your extract of that invaluable plant. In my own family I have seen its extraordinary efficacy, in the cure of a confirmed case of Broveners. D.R. W. B. Sloan—Dear Sir. In my opinion, the greatest cures affected are those that have longest resisted the skill of the Medical Facally. Admitting that to be a fact, I have a case in point, to wit: Mr. James Henford, of Sheboygan Falls, was crippled two years with five large deep ulcers, just above the ankle.—The leg was so much swollen he could not get on a boot. Nearly all the most popular Physicians in various places, have treated his case without any lengthing and healed two of the sores. The other three I tabored at till the first of February, without much if any benefit, when I gave him a box of Stor's Olstment, and in three weeks he was well. Respectfully yours.

W. B. SLOAN:— It demands that I should-rerurn to you my thanks for your unversalization Distance. Three weeks ago my daughter's clothes caught fire, and before the flames could be extinguished, they were all burnt to cluders, the child was so badly burned that death seemed mevitable in less than twenty-four hours. Your Outment was recommended, and used with success—it gave perfect relief. It is needless to add that the child is now well and about her business,. The medicine is all and more than it is recommended to be. Every family and person—should have it in their possession. If recommends to some state of the commendation of the commendatio

Galesburg, Knox Co., III., April 2d, 1849.

MR. Stoan:—Dear Sir. About three years ago I was severely injured in one of my legs by the falling of a pole of wood which occasioned large running ulcers. Nearly every doctor in Gatena tried to cure them; but tried in vain, until from sympathy and improper treatment in which the became tas bad as the one originally wounded. I despaired of ever being well again—but in order that I might neglect no means within my reach, I purchased of your agant in Galena some of your Ointment, and you can judge of my surprise and gratitude better than I can express it, to find myself entirely well before I had finished using the econd box.

These facts I make known that others efficient mean between the contractions of the contraction of the Doctoring in Galena. These facts I make known that others afflicted may believe and

IV R. W. B. SLONK—Sir: Last summer one of my children was badly bitten by a ratitesnake. We applied your Ointment freely, and "the child was healed."
Also, I had a horse wormled in the stifle joint, in which he took cold and became so mitch swollen and distressed, that the horse was supposed worthless, but by a free use of your Ointment, was soon cured. We have used the Ointment in a great many other cases, with WALTER WHITBECK.

Rattle Snake Bite.

PR. W. R. Stoan—Dear, Sir—Last month Mr. A. B. Taylor, of Gopher Hill, Indiana, had a horse badly bitten on the nose by a Rautisanake, Some ten hours after, I saw the horse, his head was remarkably swollen, I immediately applied your Olintment feely, and we were astonished at the prompt relief afforded. In less than one hour the swelling began to abate, and in twenty four hours it had nearly all subsided, and within three days the horse was not only fit for use, but was actually put to hard labor without any injurious result.

Omnipresent Sloan.

W BILE sitting quietly at our table yesterday afternoon, we were approached by a good-looking stranger, who having heard of the large circulation of the Kloke, inquired our price for advertising a popular Medicine. We told him at once that we did not wish to make any farther contracts for advertising as our columns devoted to that purpose were full. The stranger was upon the point of retiring when we observed on one corner of his paper a name that instantly struck us as an old acquaintance—yes, it was none other than Show—the "omnipresent Sloan," as we used to call him. The name may be a new one in this particular locality, but it is in every house in the North-west, as the great inventor of "Sloan's Tannifu Paste," for leather, Now inasmuch as we knew the well-carned reputation of these celebrated Western medicines and pastes, and increover knew Sloan himself to be one of the best men in his profession in the country, we concluded to insert the adversionment, as a matter of Tublic Utility, and our readers will find it as soon as we can make from

For the Removal and Permanent Cure of ail NERVOUS DISEASES, of those Complaints which are caused by an impaired, ned or unhealthy condition of the

NERVOUS SYSTEM. This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the Age.

Dr. CHRISTIE'S GALVANIC BELT MAGNETIC FLUID.

is used with the most perfect and certain success in all. GENERAL DEBILITY, Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS AND PALSY, Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPI-LEPSY, LUMBAGO, DEAFNESS, NERVOUS TREATORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, Liver Complaint,

BPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERV-OUS AND PHYSICAL ENERGY, and all

Nervous Diseases, mplaints arise from one simple cause, namely, A Derangement of the Nervous System. A Derangement of the Nervous Bystem.

(I) In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing multicine of Galvansm, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the steretions, and never do the slightest injury under any cure unstances. Since their introduction in the United States, only three years since, more than 60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND FERMANENTLY CURED, ENTIRELY AND FERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or may other Chronic or Nervous Droader. In ordinary cases, stimulants are taken, which, by their action on the nerves and murch; of the stonarch affect imposing relief, but which leave the patient in a lower-time, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Magnetic Flüd as directed. In a short period the mechalic perspiration will act on the positive element of the Belt thereby causing a G duanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEISIA are FIRM ANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF VEARS

The following letter is from Mr. Alonzo D. Felter, of Kingston, N. Y, a gentleman of high respectability and influence. Kingston, Ulster Co., N. Y., Jan. 24, 1848 To Dr. A. H. CHRISTIP—

About the first of November last I called at your office and purchased one of your tide anic Belts, and I am happy to say that it has made a new man of me. I ary cars I have been troubled with Hirrerwiten, very section, and a general weakness of the whole system, and very nervous, with pain in the head, so severe that I would have to take to my bed three or four times a day. My friends are astomahed at the perfect and weaknessing the my perfect and weaknessing to my be there.

fect and wonderful cure wrongnt on me. I never was better in my life than now, and I know that this is altogether owing to your GALVANIC BELT, for I had had the best physicians, and had tried every thing previous to using it, without effect. Very respectfully, LONZO D. FELTER.

103- In consequence of the benefits experienced by himself,
Mr. Fretzer procured a number of the GALVANIC BELTS,
and having disposed of the monog his firends, thus writes:

Windston, May 6, 1848.

Windsk me to give you an account of the success of your GALVANIC BELL'S in this region. I can truly say that they continue to do wonders; huncheds wear, them, and I do not know of a solitary case of failure in their see. I sold a Belt and the Magnetic Fluid to a lady hore some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson attended her, but did her no good; and the Doctor blew out considerably when she got the belt, and ridiculed it; but the lady used the Belt and was cired. Now this Doctor had the Dy speptia for a geat while, and could not cure himself, but gets this lady's Belt, wishes it kept a secret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

Miss Vandemark, of this town, lay all winter with the Rheumatism. She got to be perfectly helpless. Every one who saw her said she could not like. She sent for a GALVANIC BELT—put it on—used the Fluid freely, and in Eight Days she war out "sisting, and is to see harming the power in your Belts.

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspopsia and general chronic disease; he could all te now as healthy again as we can a swe to the felting and te now as healthy again as an as we can as we had the belt and the Fluid, and te now as healthy again as an as we can as we had the plant and te now as healthy again as an as we can as we had the proper and again as we can as we had the part and the power and again as we can as we can

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspepsia and general chronic disease; he got a Belt and the Fluid, and is now as healthy a man as we have got in Kingston. He has spent large sums of money in various nostrums previously, but they all proved uscless.

An old gentleman by the name of Nowkirk, had the Dyspepsia for thirty years. He tells me that he could not eat any thing without its rising on his stomach; he was very much emaciated and looked miserable; but he purchased a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling him Chaustis Belt, as it had made a well-man of him. He says that he now eats and digest perfectly, and that he is as hearty as any of his neighbors. He is about 60 years of age.

Mr. Wood, of Marbletown, was drawn up with Croup and Rheumatism, so that he could not move. His brother got a Belt for him, and in one week he was so well that he was

The wife of Mr. Joseph King, of Kingston, has been complaining of lassitude and general weekness for several years, and also troubled with indigestion. She got the Belt and Fluid, and Mr. King told me this day, that his wife was like affolher woman, it had done her so much good. I could give you a great many more cases, equally successful, but, I suppose these will be sufficient. I may say that I never was engaged in any business that has been so lortunate and satisfactory to all concerned.
