GEORGIA ELECTION.-All the counties in this State. have been heard from but 3, from which it appears that the Legislature will stand as follows: In the Senate the Democrats will have 25 members and the Whigs 24, in the house the Democrats will have 67 members and the Whigs 63. The Democratic Governor has been elected by a majority of 3360. NEW YORK, Oct. 9.-7 P. M.

The news from the placers is that the month of August has multipled the number of gold washers in the principal streams of the Sierra Nevada, but the prospec.s for the masses crowding on are very perceptibly lessen-

The waters are nearly at the lowest stage and in proportion to the increase of laborers, the chances are rendered more favorable by this circumstance.

New washings have been discovered and old ones abandoned. The Sacramento river probably forms the most northerly boundary stream of the placers, but it is erroneous to suppose the region watered by it auriferous. Gold has never been found on that stream in quantities sufficient to justify continued labor.

We have advices from the new Fork, of a vory flattering nature. Companies that have turned the current of the river, are now taking out from \$3000 to \$5000 per day.

The Convention for framing a State Constitution for California, assembled at Moniercy on the 31st of August.

The District of Sacramento, in its various primary as-

semblages, was of the opinion that it was entitled to a appresentation of ten members. Accordingly, in all proteines where the polls were opened, that number was verted for.

The arrivals at San Francisco for the month ending Aug. 31, was 3806 males and 87 females-most of whom ore Americans.

American flour at San Francisco, was selling at \$9 to 10—mess pork \$19 to 20—prime \$14 to 15. Choice molasses 33 to 40 cents per gallon. White sugar 15 to

The general health of San Francisco was good. The steamer Empire City on her outward passage took out Mr. Sherman Yates from Rochester, who died finflammation of the bowels.
