A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating at GENUINL, Original, ect. This Townsend is not doctor, and never was, but was formerly a worker on railroads, camele, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's, likenets, his family coat of arms, and his signature across the cost of arms.

Principal Office, 1v2 Nassaz st., New York City.

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE Genuine Townsond Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has for seen known as the AUTHER and DISCOVERER of the GE. UINE ORIGINAL "TOWNSEND SARSAPARILLA." Beir

UNE ORIGINAL. TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value, it had trached the ears of many, nevertheless, as those persons who had been hedded of some diseases, and saved from death, proclaimed its excellence and wonderful.

Knowing, many years ago, that he had, by his skill, science and experience, deviced an article which would be of incalcuble advantage to manking when the means would be furnished to bring it motumiversal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are supplied; this?

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout

is manufactured on the largest scale, and is called for throughou the length and bredth of the land, especially as it is found incapa the of degree ratio, or despitation. is manufactured on the largest scale, and is called for throughout the length and bredth of the land, especially sait is found incapable of degeneration of deterioration.

Unlike young S. P. Townrend's, it improves with ege, and never changes, but for the letter: iccause it is prepared on scientific princy less by a scientific man. The highest knowledge of Chemferry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medical properties, and gome properties which are fuert or uncless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system.—Some of the properties of Sarsaparilla are so valative, that they entirely evaporate and are lest in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these valuation principles, which ify off in vapor, or as an exhalation, under heat, are the very sessional enter from anything else; they can then strain this insight or vapid lequit, which is more from the coloring matter in the root than from anything else; they can then strain this insight or vapid lequit, sweeten with sont molasses, and then call it "SARSAPAR-ILL VEXTRACT or SYRUP." But such is not the article known as the

GENTINE OLD DR. JACOB TOWNSEND'S BARSAPA-RILLA.

This is so prepared, that all the mert properties of the Sarsapa-rilla root are first removed, everything capable of becoming acid or of fermentation, is extracted and rejected; then every parti-ele of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of Innumerable D scasos.

Heace the reason why we hear commendations of every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSTEPSIA, and LIVER COMPLAINT, and in RIELMATISM, SCHOFULA, PILES, COSTIVES.

has not its equal in Colds and Coughs, and promotes casy expectoration and gentle perspiration, relazing stricture of the lungs,
throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stress of

and yet he would fain have it understood that Old Dr. Jacob Townsend's Genaine Original Sursuparilia, is an IMITATION of the referring preparation?

Beaven torby I that we should deal in an article which would hear the most dist and recombinance to S. P. Townsend's article, and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have sold, and purchasers who have sold, and purchasers who have seed S. P. Townsend's FIRMUNTING CIMPOUND.

We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilia in the hearen-wise apart, and infinitely descriminar; that they are untilke in every particular, having not one single thing in companies.

But what else should be experted from one who knows nothing comparatively of inchence or disease! It requires a person of some experience to cook and serve up even a commen decent med. How much more important is it that the persons who manufacture medicine, designed for word of the end of the

This old Jacob Townsend,

They are endeavoring to paim off on the public as an old physician, &c. He is no physician, and never attempted to manufacture a medicine until these men bired him for the use of his name. They say they do not wish the people to believe that their Sarsaparilla is ours, or the same—but the better to decayere the public, they at the same time assert that theirs is the old Dr. Townsend's, and the original; andemicavor to make the people believe that the sund they manufacture is the Dr. Townsend's Sarsaparilla that has performed so many wonderful cures for the past ten years, and which has gained a reputation which no other medicine ever enjoyed—which is a base, villainous, unprincipled falsehod. We have connenced suits against these men for damages. We wish it to be understood, that the old man is no connection of Dr. Townsend which the third advertisements and circulars they publish a number of gross falsehoods respecting Dr. Townsend, which we will not notice.

FALSE REPORTS. This old Jacob Townsend,

FALSE REPORTS.

will not notice.

FALSE REPORTS.

Our opponents have published in the papers, that Dr. S. P. Townscad was dead—this they rend to their agents about the country, who report that we have given up business, &c. &c. The public should be on their guard, and not be deceived by these imprincipled men.

OUR COURSI.

Being satisfied by the experiments and the results of the medicine in cradicating disease, we resolved to place it before the world. At that time all of the Sarcaparillas for sale was putup in small vials of four and five ounces, and sold for one dollar per bottle. We could afford to sell a quart bottle of the purest and less article for the same. We tesolved to do so and was laughed at find our Sarsaparilla called inclasses and water by the other manufacturers, who said a good article could not be alforded for the price. A few years, and they learned the difference of this. Dr. Townsend's Sarraparilla almost cutting super-cared the others, being infinitely better, and live times the quantity for the same price. For late these men have made a great discover, which is, that they have been selling a smaller vial of medicine for one dollar, which they could afford for twenty of twenty-five cents. For these same men now put up their Sars sparillas in Chart bottles, very activy resembling ours, for the same price as they formerly sold the said resulting and ask the people to purchase. The people are not so given however. They have copled our hales, circulars, and shape of the bottles as near as they dare. Their course and ours we leave tor a discerning public to act upon.

the bottles as near as they dare. Their course and ours we leave for a discerning public to act upon.

GREAT DISCOVERY.

Dr. Townsend having ten years since discovered a new formula of compounding the Sarsaparslla wild other ingredients, and succeeded in producing a fluid that recombled in its action upon the digestive organs, the saliva, or grastic juice of the human body.— A liquid, when taken into the system, created new, rich, and pure blood—which would sustain, prolong, and create new life—for the hiood is the life—resolved, after three years of experiments, to bring it before the public. Sanguine that it required only to le known to be appreciated, being flictoughly convinced that to cleanse, purify and strengthen the circulation, was the great-veret of eradicating disease. The conviction led to the discovery of Dr. Townscand's Compound of the Sar-aparalla. Satisfied that by diminished, and that the truotheory was to produce a health circulation. The theory having proved true, it is adopted wholl, or in part, at present, by a large number of me heal gentlemen, and the truellies more effectual than we anticipated—bence the wonderful success of this medecine.

THE ROOT WE USE

We use the best Honduras Sarsaparilla. The last year we purchased more than ten times the amount of Sarsaparilla of all other Sarsaparilla manufacturers in America. Mr. Blonca, Esq., a increhand in the Honduras trade, and others, export it fresh and direct from Honduras for us. Messrs, Burr, Waterman & Co., No. 109, South street, have dired up-expensive and extensive mashinery to rasp by steam the heart of the Quash, or Igounwitte weed. D.R. W. B. Slonn—Dear Sir: In my opinion, the greatest cures of the control of the skill of the Medical Faculty. Admitting that to be a fact. I have a case in point, to wit: Mr. James Hesford, of Sheboygan Falls, was crippled two years with five large deep wicers, just above the ankle.—Theleg was so much swollen he could not get on a boot. Nearly all the most popular Physicians in various places, have treated his case without any beneficial effect

Last August Mr. Hesford solicited my advice. I succeeded in reducing the swelling and healed two of the sores. The other three I mbored at till the first of February, without much if any benefit, when I gave bim a box of Slon's Ointment, and in three weeks he was well. Respectfully yours.

MR. Stoax—Bear Sir About three years and I was severely injured in one of my legs by the falling of a pile of wood which occasioned large running ulcers. Nearly every doctor in Galean tried to cure them; but tried in vain, until from sympathy and improper treatment my other leg became as had as the one originally wounded. I despaired of ever being well again—but in order that I might neglect no means within my reach, I purchased of your agent in Galean some of your Ointment, and you can judge of any scriptse and gentitude letter than I can express it, to find myself entirely well before I had finished using the second box. econd box.

WHILE sitting quietly at our table yesterday afternoon, we were approached by a good-looking stranger, who having heard of the large circulation of the Globe, inquired our price for advertising a popular Medicine. We told him at once that we did not wish to make any farther contracts for advertising as our columns devoted to that purpose were full. The stranger was upon the pount of retiring when we observed on one corner of his paper name that instantly struck us as an old acquaintance—yes, it was none other than Siloax—the "oundpresent Sloan," as we used to call him. The name may be a new one in this particular locality, but it is in every house in the North-west, as the great inventor of "Sloan's Family Oliment," and also of the best "condition powder" for horses, extant, and last though most important, of "Sloan's Tannin Paste," for leather. Now inasmuch as we knew the well-carned reputation of these celebrated Western medicines and pastes, and moreover knew Sloan himself to be one of the best men in his profession in the country, we concluded to insert the advertisement, as a matter of Public Utility, and our readers will find it as soon as we can make room

Por the Removal and Permanent Cure of all NERVOUS DISEASES. And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been propounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal dis-Dr. CHRISTIE'S GALVANIC BELT

MAGNETIC FLUID, is used with the most perfect and certain success in all cases of

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System. A Derangement of the NewYous System.

69- In NERVOUS CONPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the aiready prostrated system; while under the strengthening, life-giving, vitalizing influence of Galtaniam, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufficient is restored to former health, latength, elasticity and vigor.

The great peculiarity and excellence of consists, in the fact that they arrest and cure disease by outgord application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction. Dr. Christie's Galvanic Curatives,

tessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than 60,000 Persons Including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nerveus Complaints, have been

ENTIRELY AND FERMANENTLY CURED, ENTIRELY AND FERMAMENTLY CURED, when all hope of relief had been given up, and every thing else been tried in valn!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bone of civilization, DYSP-PSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Magnetic Fluid as directed. In a short period the insersible perspiration will act to the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEISIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

KINGSTON, Ulster Co., N. Y., Jun. 24, 1848
To Dr. A. H. Churstie.—

About the first of November last I called at your office and purchased one of your Galvanic Belts, and I am happy to say that it has made a new mah of me. For years I have been troubled with Rhieuwaress, very severe, and a general wyakness of the whole system, and very nervoirs, with pain in the head, so severe that I would have to take to my bed three or four times a day. My friends are astonished at the perfect and wonderful cure wroughn on me. I never was better in my life than now, and I know that this is altogether owing to your GALVANIC BELT, for I had had the best physician, and had tried every thing previous to using it, without affect. Mr Dear Doctor,
You ask me to give you an account of the success of your GALVANIC BELTS in this region. I can truly say that they continue to do wonders; kundreds were them, and I do not know of a solitary case of failure in their use. I sold a Belt and the Magnetic Fluid to a lady here some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson attended her, but dul her no good; and the Doctor blew out considerably when she got the belt and ridiculed it; but the lady used the Belt and was cured. Now this Doctor had the Dyspensia for a great while, and could not cure himself, but gets this lady's Belt, wishes it kept a socret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

Miss Vandemars, of this town, lay all winter with the Rheumatism. She got to he perfectly helpiess. Every one who saw her said she could not live. She sent for a GALVANIC BELT—put it on—used the Fluid freely, and in Eight mays and well to be perfectly helpiess. Every one who saw her said she could not live. Marrier his transported to this place, was reduced to smere skeleton, by Dyspensia and general chronic disease; he got a Belt and the Fluid, and is now as healthy a maxist we have got in Kingston. He has spent large sums of money in various nostrums previously, but they all proved useless.

An old gentleman by the name of Newkirk, had the Dyspensia for thirty years. He tells me that he could not cat any thing without its rising on his stomach; he was very much conscited and looked misrable; but he purchased a. Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling him Curistive Belt, as it is and the had more than the found of her had her had

Mr. Wood, of Marbletown, was drawn up with Croup and Rheumatism, so that he could not move. His brother got a Bolt for him, and in one-week he was so well that he was about attending to his business. He says it is the greatest thing on earth.

The wife of Mr. Joseph King, of Kingston, has been complaining of lassitude and general weakness for several years, and also troubled with indigestion. She got the Belt and Fluid, and Mr. King told me this day, that his wife was like another woman, it had done her so much good. I could give you a great many more cases, equally successful, but I suppose these will be sufficient. I may say that I never was angaged in any business that has been so fortunate and satisfactory to all concerned.

Very truly yours,

ALONZO D. FELTER.
