M. Bonisco .- The following is the best explanation of the Bodisco affair we have yet seen:

Correspondence of the Tribune. WASHINGTON, Wednesday, Oct. 31, 1849. The telegraphic dispatch in the morning papers, taken from the correspondence of the New York Conrier and Enquirer, on Monday, announcing the hanishment of M. Bodisco, the former Russian Encoy to this country, to Siberia as an exile for life, created more anusement than astonishment in all well-mformed circles. Several weeks ago there was a report of this kind carrent both at Georgetown and throughout the departments in this city. Upon requiry made of the family of Bodisco, the report was found to be groundless, and no notice whatever was taken of it here by persons connected with the press. Since its resusitation by the correspondent t the New York Courier and Enquirer of this rumor of ancient date, inquirers have again been made of Mrs. Bodisco, residing at Georgetown, and she does not hesitate to pronounce the statement a fabrication. She has exhibited to several friends, with whom she was upon intimate terms, portion of a letter received by her from her husband dated at. St. Petersburg, the 6th of the present month, and received per latest arrival from Europe, at which time M. Bodisco was ignorant of his banishment, or of any design of the kind on the part of the Emperor. There is there-fore no room for doubt but what up to the last Eurobean advices no such decree or edict had been attered by Nicholas against Bodisco that he is laboring under the displeasure of his government, based upon information derived from a spy upon his private and officulacts in this city, does not amit of a question. The causes of complaint against him arise not only from his having accumulated real estate and personal assests to a large amount in this city and vicinity. in violation of the expressed wishes of his sovereign but from a supposition that he participated in the

henefits arising from excessive expenditures of money in the construction of some vessel or vessels for that Government. All that creates surprise here is that he ever suffered himself to be, decoved within the gasp of the tyrant that rules his native land with a Toda of iron, but that he did not abjure his allegiance to all foreign powers and become a citizen and seek the protection of the United States. Banishment to Siberia for life may eventually be his fate, but as I have pefore remarked, on the 6th of this month, no such misfortune had befallen him. Previous to Bod-r-co's sailing from this country he made a trilling-novision for his wife, conceding his work has a service of the service of

provision for his wife, conceding his wealth to be what many place it at. He settled upon her a house and lot in Georgetown, and about \$20,000 in a productive investment. This was doubtless based more mon the contingency of accident from the dangers of the sea, then from the suspicion that any evil was to befall him at the hands of his barborous and callous hearted severeign.

MESMERIC ANNOUNCEMER .- Sir John Franklin has been seen by a clairvoyant of Bolton, England. This discovery was issued several days before the vessel arrived which brought the news which we have already given our renders of that unfortunate navigator. The clairvoy of was uninstructed, and unable to read and write, but when asked to point to the place on the map where she had seen Sir John, she put her finger on the north-west side of Hudsou's Bay. She says that it is Sir John's ex-pectation to be in England in nine and a half months. There are three companions with him. Some of his man are foremain the second action of the his men are frozen in the snow, and parties of them are following on. She visited Sir John Ross's ships, and says that they are frozen into the ice, and that he can't turn his ship round. When asked to show where he was on the map, she pointed to Banke's Land. She expressed great astonishment that clocks varied so much between the points occupied by the two navigators, and said that a watchmaker should be sent to repair them. She described the person of Sir John Franklin, and mentioned respectfully that he was bald. The account of this mesmeric announcement is authentic, and occurring before the arrival of the vessel which brought the nev's, occasioned much speculation, and has lost none of its interest since it has in a measure been verified .- Springfield Republican.

THE TELEGRAPH QUESTION .- The long pending case between the proprietors of Morse's Telegraph Fatent and Mr. O'Reilly, has been decided in favor of the former so far as concerns the so, called Columbian, or Barnes and Zook's instrument. The injunction forbidding the use of that instrument is confirmed. Mr. O'Reilly has taken an appeal from the decision. This, however, does not practically effect any thing against Mr. O'R., as he has put the Bain instrument upon the line in Tennessee and Kentucky, and for this instrument a patent ex-1-ts under the decision of the Chief Justice of the Circuit and District Court in the District of Columbis. to whom, by law of Congress, the power is given to decide in cases of disagreement between the commission of the Patentors and the Patentees .--

As Bain's instrument is in use there will be no inion of the lines used by Mr. O'Reilly.-[.V Y. Express.

FEVER AND AGUE finally conquered! This disease has at length met with an opponent, before which it has had to yield, in the India Cholagogue, prepared by Charles Osgood, M D. This gentleman resided several years in an infected distric of Michigan, making Ferer and Ague, its cause, effect, and cure his shuls, and from the knowledge thus acquired, he compounded the above named medicine, which has never yet been known to

Numerous cettificates from men of the highest respectability. e-tifying to the great efficacy of his medicine, can be seen on application to the Agent.

limitations are abroad! Be particular to inquire for Dr. O-goods J. H. BURTON, Agent, Erie. India Cholagogue.

WORM SPECIFIC !!-- M'Lane's Vermifuge !!-- This in the valuable remedy for worms, is rapidly supplanting all others, in public estimation. Where it is used it has produced the best effects, and driven out all other remedies. "It is the best they have ever seen," is the remark of all who have ever used it in their families. 1

"TYRE SPRINGE, SCHNER CO. TENN. } Feb. 19th, 1845.

"J. Kidd & Co.--1 received a lot of M'Lane's Vermifuge fro. out agent last spring, which I sold out in one week, and I think I could have sold one thousand bottles by this time, if I could have got it, but not knowing where to get it. I had to wait until your agent came around. Every person that has tried M'Lane's Verunfuge, tell me it is the best they have ever seen. In fact, it is upos-ible for any one to say too much in havor of M Lane's Ver-nufuge. W. D. ROBB." W. D. ROBB."

Sold by Carter & Brother and J. H. Burt on, Erie, Ja.

ONE. THING IS CERTAIN that Wistar's Balsam of Wild Cherry is far the best rejuedy now used for all dis-treangroughs and diseases of the Lungs. The cures bying permuch are really astonishing the world. Dr. Wistn's celebrates reputation is wholly an innocent remedy-being eduposed prin-

fieldly of the Wild Cherry, and extract of Fine; combined by a study of the Wild Cherry, and extract of Fine; combined by a study melical process, with the genuine lectand Mose, another of Nature's great curatives for pulponary diseases. Besids sits assonishing efficacy in the diseases above mentioned, we slop find it a very effectual remedy in Asthma, the complaint in Wirth it has been extensively used with decided success, even

Revises of years standing. It not only emanates from a regular physician but has been well but he all the complaints for which it is recommended. 4(2) It Nee about the complaints for which it is recommended.
