CATTION BETRA. A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsapardia, which they call Pr. Townsend's Parsapardia, denominating it OENUINE, Original, ect. This Townsend is no doctor, and never was: but was formerly a worker on railroads, canals, and the like. Yet he assumes the theo of Pr., for the purpose of gauning credit for what he is not. This is to caution the public not to be decelved, and purchase more but the GENCINI. ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on to the Old Drs. likeness, his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassau st., New York City.

OLD DR. JACOB TOWNSEND.

THE ORIGINAL DISCOVERER OF THE Gonuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has fong been known as the AUTHER and DISCOVERER of the GEN-UINE ORIGINAL "TOWNSEND SARSAPARHAL". Being poor, he was compelled to fimit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful.

III.ALING FOWER.

Knowing, many years ago, that he had, by his skill, seience and experience, devised an article which would be of incalculde advantage to mankind when the means would be furnished to bring it into unniversal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured our the largest scale, and is called for throughou the length and bredth of the land, especially as it is found incapa the of degeneration or determine

is manufactured or the largest scale, and is called for throughout the length and bredth of the land, especially as it is found incapable of degeneration or deterioration.

Untike young S. P. Townsend's, it improves with ege, and never changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsaparilla. The Sarsaparilla not, it is well known for medicals, men, contains many medical properties, and some properties which are inert or necless, and others, which if retained in preparing it for use, produce fermentation and acid, which is inpurous to the system.—Some of the properties of Sarsaparilla, are so volatile, that they entirely exportate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these boldide principles, which fly off in vapor, or as an exhalation, under heat, are the very escapational died properties of the root, which give to it all its value. Any person can'holf or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything eleg, they can then strain this inslipid or vapid highest holds. EXTRACT or SYRUP. But such is not the article known as the

as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.
This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming actior of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated formand thus it is rendered incapable of losing any of its valuable and
healing properties. Prepared in this way, it is made the most
powerful agent in the Cure of Innumerable D seases.

Description of Innumerable D seases.

Hence the reason why we hear commendations of every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIFFE COMPLAINT; and in RHEUNLYISM, SCROFULA, PILES, COSTIVE-NESS, all CULINEOUS ERUPTIONS, HEPLES, BLOT-CHES, and all attenuous arising from IMPURITY OF THE BLOOD.

It possesses a mary clous efficacy in all complaints arising from IMPURITY OF THE BLOOD.

It possesses a mary clous efficacy in all complaints arising from Indigestion, from Aridity of the Stometh, from unequal circulation, determination of blood to the head, patentation of the heart, cold feet and hands, cold chilis and not hables over the body. I has not its equal in Colds and Congles; and pronouse casy expectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.

But in nothing is its exectlence more manifestly seen and aeknowledged than in all kinds and stages of PEMALE COMPLAINTS.

It works wonders in cases of them Alms of Whites, Falling of the Womb, Obstructed, Surpressed, or Painful Menses, Irregularity of the mensitual perfoles, and the like; and is as effectual in curing all the forms of Kidney Disea es.

By reavoling obstructions, and regulating the general system, it gives tone and strength to the whole body, thus cares all forms of Norvous diseases and debility, and thus prevents or relieves a great variety of other main dies, as Spinal urritation, Neuralgia, St. Vitus' Dance, Swoming, Epileptic File.

Nervous diseases and debility, and thus prevents or relives a great variety of other main dies, as Spinal arritation, Neuralgia, 3t. Vilus' Dance, Swoming, Epiteptic Fits, Conculsions, &c.
It cleaness the blood, excises the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allay is inflamation, partites the ekin, equalises the circulation of the blood, producing gentle warmth equally all over the body, and the inscussible prespiration; relaxes all stricture, and tightness, removes all obstructions, and invigorates the entire nervous system. Heaven (othat that we should deal in an article which would bear the most detant re-emblance to S. P. We wish it understood, because it is the should struck, the sent sent and purchasers who have sold, and purchasers who have sold. (3) AITORIND.
We wish it understood, because it is the absolute truth, that S.
Townsend's article and Old Fr. Jacob Townsend's Batsaparti-a are heave-wide apart, and infailed gits-limitar; that they are unlike in every particular, having not one single thing in com-non.

non. As S. P. Townsend is no doctor, and never was, is no chemist As B. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutrst—knows no more of medicine or disease than any other common, unscendife, nuprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing at, and which are in capable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine, designed for

them. How more impressives to the transfer them in the present them in the infection medicine, designed for whealt fitomachs and Enfoebled Systems, should know well the medical properties of plants, the best inamer of securing and concentrating their healing virtues, also an extensive knowledge of the various viscores which affect the human system, and how to adapt remedies to these diseases!

Lis to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle loope in the despatring bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. For the Removal and Permanent Care of all NERVOUS DISEASES, of those Complaints which are caused by an impaired, sened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discrery of the Age. Dr. CHRISTIE'S GALVANIC BELT

MAGNETIC FLUID, is used with the most perfect and certain success in all

GENERAL DEBILITY, Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS AND PALSY, Dyspepsia or Indigestion, RHEUMATISM, Acute and Chronic, GOUT, EPI-LEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALMA, PAINS in the SIDE and CHEST,

Liver Complaint, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERV-OUS AND PHYSICAL ENERGY,

Nervous Diseases, which complaints arise from one simple cause, namely, A Derangement of the Nervous System. 60- In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, teneth legislater and ways. strength, elasticity and vigor.

The great peculiarity and excellence of Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by out-ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hope-lessly undoor the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the storttions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons including all ages, classes and conditions, among which were illarge number of ladies, who are peculiarly subject to Nerveus Complaints, have been ENTIRELY AND FERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person adjicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the OALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEISIA are 4-ERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

effect.

My Dear Doctor,
You sak me to give you an account of the success of your GALVANIC BELT'S in this region. I cantruly say that they continue to do wonders; hundreds wear them, and I do not know of a solitory sace of failure in their use. I sold a Belt and the Magnetic Fluid to a lady here some weeks since. She had a complication of nervous disorders, and was very low. Dr. Nelson attended her, but did her no good; and the Doctor blew out considerably when she got the belt, and ridiculed it; but the lady used the Belt and was cured. Now this Doctor had the Dyspessia for a great while, and could not cure himself, but gets this lady's Belt, wishes it kept a secret, puts it on himself, and it did him so much good, that yesterday he called on me and got one for his wife.

Mr. John Eman, merchant of this place, was reduced to a mere skeleton, by Dyspepsia and general chronic disease; he got a flet and the Fluid, and is now as healthy a man as we have got in Kingston. He has spent large sums of money in various nostrums previously, but they all proved useless.

An old gentleman by the name of Newkirk, had the Dyspepsia for their years. He tells me that he could not cat any thing without its rising on his stomach; he was very much emacinted and looked miscrable; but he purchosed a Belt from me, and after wearing it 3 or 4 weeks, he drove up to the door and said he had come to thank me for selling bim Cranstile Burr, as it had made a well man of him. He says that he now eats and digests perfectly, and that he is as hearty as any of his neighbors. He is shout 60 years of ago.

Mr. Wood, of Marbletown, was drawn up with Croup and Rheumatism, so that he could not more. His brother got a Belt for him, and m one week he was so well that he was about attending to his business. He says it is the greatest thing on earth.

I could give you a great many more cases, equally successful, but I suppose these will be sufficient. Proscription! Proscription!!

THE above is at this day by far the most general cry throughout Our tand. Scarce any one escapes its cluma. Even tientary that great and good man, is frequently accused of it. He, however, as often denies the charge as it is made, and boldly asserts that he "temoves for cluse only."

The Subscribers have quite recently got out a NEW STOVE on the elevated over principle, which they call the KIYSTONE COOKING STOVE. Said stove is so decided an improvementon all and every Stove heretofore made that me so many good qualities others are void of? that those engaged in the tanimacute of a mark inferior article have taken the alarm, and at once raise the cry of proscription, and expect by thus to escape a ceneral route. Such cry, however is a useless waste of the raw material. The chief has been is-not—community claim the right to select the best Stove out! Hence the liey-stone Stove must supercede and remove all others, including Samett's Patent. The verdet, however, will be, "Remoyed for quice only." so we stand in a position move all others, including Spanett's Parent. The verdict, nower, will be, "Removed for dause only," so we stand in a position similar to General Taylor, and as he is justified so shall webe.

TRIEND BENNETT.—Receiving a late Eric Paper, you structure, one would come to the conclusion that the "Emptores" were a cause of great alarm to some of the mercanite, culty of Eric. I know the greater amount of our goods that it import from Manufacturers, we are jobbing to the Trade at I Low Prices as our neighbors pay for theirs in New York, it is course of business had been pursued the past Ten Yoars, it would now contain a population of Ten Trous and and all webe benefited. To illustrate, I will repeat the language of a ket chant from Chautanque County, that I, sold two loads of exit of the country that you have opened such a Store, I shall want purchase from you about Five Thousand a year. I am salest with your prices, and should have to go to limital or New I shall all it not been for your Stores;" this is from a merchant that 28 hought and sold for thirty years.

When these facts are fully developed I think our friends of Pand Bobin will begit to lift up their heads, and they find the will be enlarged and their couracted tunds will expand and for own image will again return. If they are not wholl, must be self-like the old Nigae that pushed every person dead has hear masses, that they might get rich by going about selfing land.
