The right of suffrage is extended to all free white male citizens of the United States, 21 years of age, after six months residence in the State and thirty days in the District, all Mexican citizens of California at the ratification of the Tready, Indians, negroes and the descendants of the negroes excepted. All officers to be elected by the people-after the first one, four years-during which time they will be appointed by the Governor.

The Judiciary will consist of a Superior or Appellate Court of Judges, Circuit Court and County Courts. First-San Diego, Los Angelos, Santa Barbara, and San Louis Odispo. Second-San Francisco and Monterey. Third Salt Jose and Sonoma. Fourth-the Saeramento and San Joaquin.

The Senate will probably consist of 14 and the House of 36 members.

A writer at San Francisco says: You will observe by the papers that we have a regularly 'organized police. But I am afraid their energies will corrodo for the want of encouragement in their business. Teople from the mines come in slowlly. Some reports

Dust comes in and money is to be had, but it wants iron constitutions to endure the toil and work.

Post-routes and offices are being established through the country' under the supervision of Col. Allen, the Superintendant of the Post Office Department for this Territory.

Among the deaths which have taken place was that of Col. Houry Helm, late of Cincinnati. The Feather placer on the Yula river is the most productive. About 5000 parsons were there, principally Americans. Sickness had prevailed, but is disappearing. Dr. Boynton's Company, consisting of six persons, gathered \$8,000 in seven days. Thirty thousend Americans are the probable aggregate at present in the gold regions, and are incapable of exhausting its treasures. During the month of September, the hundreds and twenty-two females arrived at San Francisco, worth their weight in gold.

A rich place has been discovered on the Trinity river, and a hundred dollars are daily gathered by each garty, of Millereck tp , aged about 50 years.

The health of the country is improving. The population of California now amounts to 100,000 and upwards. THE OVERLAND ENGRATION -The friends of emigrating parties, residing in the States may rest assured of the general safety of all, and that aside from the ordinary fatigue and privations of the journey, no suffering has, as yet, been experienced. About 30,000 persons, mostly foung men, compose the overland emigration this year. A portion of this body is already in the country, and parties are nearly every day arriving.

HORRIBLE MUNDER .- We copy the following particulars of a most deplorable event, from a late south Carolinia paper:

"Lexington District has been, within a few day's past, the scene of a murder, which the time of its perpetration renders extremely revolving. A man the name of Louis Stack, who fesides near John Coogler, some thirteen miles from Columbia, of a dissipated character, being withal strange and peculiar in many of his notions and actions, was murdered during the night of the 31st of October, by Edward A. Hodges, a respectable citizen of this

"Stack was a married man, the father of several children, and has, on several occasions, upon the death and burial of a child, exhumed the body, retaining it several days, and then interring it again. A daughter of his having recently died in Columbia, was buried there; but Stack, in one of his odd whems in Brown, conjunction with other persons, drove a waggon down to the grave, disinterred the body, and brought it up to his own house; designing to inter it by the graves of his departed children.

"It anyears from the most correct statements given, (as the evidence of the persons present has not yet been taken;) that Hodges was at a neighboring house on the road, on the evening of the 31st-when he was sent for by Stack to come and set up with the corps at his house. He complied with the request, and was accompanied there by a Mr. Hughes. "On his arrival, he was asked in, and treated very kindly. It seems that a conversation, commenced concerning some trifling matter, when Stack, differing from Hodges, became violenty vexed, and gave him the lie, which was promptly returned by Hodges. Wherupon, Stack immediately sprang up, seized upon a loaded gun, and made directly at him to shoot him. In the meantime, Hodges made for the door, but being closely pressed by Stack, drew his knife in self defence, seized upon the gun, adverting the muzzle from his body, made several flourish. es and thrusts around with his knife to keep him off thereby inflicting several wounds; one of which striking against the left cheek, inflicting a flesh wound, another severed the temporal artery on the right temple, and the third divided the jugular on the right of the neck-a deadly wound, which pros-

trated Stack forthwith. "With singular presence of mind, Hodges sewed up the wound severing the jugular, thereby stopping the copions effusion of blood. Stack expired the

RAIL ROAD MEBTING .- A very large and enthusiastic meeting was held at the Bell School House, in this place, on Saturday evening last. The people of this section are alive to their interests on the subpet of constructing the Pittsburg and Erie Rail Road the Road to connect with the Chio and Pennsylvama Rank Road as soon as possible—and we expect time of hearing. It is generally believed that this road will' be located down the Valley of the Shenango, passing through a rich mineral and agricultural portion of Pennsylvania Laurence Journal.

How CLAY LOVES TAYLOR .- General Taylor lately appointed the son of the Hon. Henry Clay Charge to Portugal. Some of the Taylor organs have said that this was done at Mr. Clay's request and have urged it as evidence that these two g reatmen (heaven save the mark!) were on the terms of intimacy and friendship. The Louisville (Ky.) Chronicle, Mr. Clay's organ, thus corrects this misstatement and throws a blanket over the expecta-

rueble San see had been agreed on as the probable seat of government. Slavery is for ever prohibited. The boundary agreed on includes all Alta of which he is capable, and will hold no political or California. But an effort will be made to confine it to personal association with them, except upon his

own terms and upon his own platform;
"For the 'old man imbecile' (Taylor) who was made the tool of his overthrow, Mr. Clay has the utmost contempt, and looks upon his elevation to the Presidency as a ci-grace to the intelligence of the country. The various 'convergation's and 'ex tracts from letters' purporting to have been held with and written by Mr. Clay, professing allegiance to the Taylor administration are mere fabrications. Mr. Clay has never given utterance to any of them. They are the base coinage of the thousand pimps fattening upon the plunder of the public treasury.

plaint.—The proprietors of this criebrated medicine are in daily receipt of the most gratifying restimonials as to the ex-cellence of this remedy. Dr. M'Lanes Liver Pill, in cases which had been given up as incurable by the most skillful physicians, have been cured immediately, so soon as those Pills were administered. These certificates have been published, and have been so numerous, that it is now an established fact that M'Lane's Lier Pins are the best medicine evel offersal for the cure of Hepatic derangement. Loose no time, therefore, ye are suffering under the worst of scourges, the Liver Complaint, but hasten to purchase and use these Pills. For sale at Sold by Carter & Brother and J. H. Burton, Erle, Pa.

THE IMPROVEMENT in the complexion caused by the use of Dr. Osgood's India Cholagogue, is one of the prominent tests of its healthy action upon the billary organs. The ppearance of the skin denotes with much certainty the condition of the livery especially if the derangement of this organ has been ladifferent success. Others offer no encouragement, of long standing, it is a matter of common observation that Western and Southern men carry in their countenances the marks of their residence, from the almost universal effect of a hillous elimate upon the liver ann through this of an upon the complexion. Be particular to inquire for Dr. Osgoods India Cholugogue, and J. H. BURTON, Agent, Eric.

Doctoring in Galena. MR. SLOVY: Dear Sir. About three years ago I was severe injured in one of my legs by the falting of a pole of woo which occasioned large running ulcers. Nearly every doctor in Galena tried to cure them; but tried in vain, until from sympathy and improper treatment my other leg became as bad as the one river has ben nearly drained of precious metal. The in order that I might neglect no means within my reach, I puroriginally wounded. I despaired of ever being well again-but chased of your agent in Galena some of your Ointment, and you can judge of my surprise and gratitude better than I can express it, to find myself entirely well before I had finished using the econd box

These facts I make known that others afflicted may believe and tot delay using so valuable an Ointment as yours has proved to be. Respectfully, your grateful friend,
