A STORY 200710 CAMPACTURE

HALIFAX, Nov. 15, 9 o'clock, P. M.

Steamer America, Captain Judkins, arrived 'here at about half-past 6 this morning, but in consequence of the line being down between St. John and Calaie, the transmission of the news has been delayed during the whole day. The America brings advices from Paris to the 1st and Liverpool papers to the 3d inst., inclusive.

COMMBRCIAL SUMMARY. The money market is easy. There has been a fair demand in the Liverpool market for cotton throughout the week, both from the trade and specialators, but holders have been more free sellers, and have conceded al per lb. on common American and Brazil, whilst other kinds remain without any material alteration. Speculors have taken 16,300 American and exported 730.— The committee's quotation is for fair cotten, Upland and Mobile, 61d, and 63d for New Orleans. Sales prevent the coronation of a Hupsburger impos-for the week 43,000 bales. Flour and corn at all sible. The various nationalities of Hungary have the principle markets have been very limited during the week and prices generally a turn lower than at the sailing of the Cambria.

Western canal flour is quoted at 22 to 24. Philndelahin nud Baltimore 234 6da24. Sales are effected at very irregular prices, and quotations are merely nominal. Indian Corn is quoted at 27sa29s for white and 27sa28s for yellow, from which holders are eye of the law of all citizens in all matters of duty unwilling to yield.

In American Provisions there has been a quiet but steady business going forward at full prices. Bacon --limited sales, and holders are expecting an advance. Beef-heavy stocks, and holders are desirous to effect tales at even a reduction on previous rates. Pork-low quanties are more wanted, but in medium and good sorts there is little demand. Hams-few sales at 30s to 32s in dry salt. Shoulders-improved demand at 26s a 21s. Cheese market bare, and ordinary or fair qualities would bring very full prices. Lard-business of a retail character only."

All descriptions of sugar have had a lively demand and an impression prevails that prices will rule higher. Sales Peruambuco bronzo, 14s to 15s 3d; whites 14s 6d; Porto Rico 39s to 36 - per cwt., duty paid. At auctin in London, sale- 37s 6d to 42s 61 low grade to fine yellow Porto Rico; Havana, 28s of their friends are about to follow the example to 41s 64 for bronze to good yellow. On Friday a fair business was done at full prices, and the market closed firm. • Exar. inp. -- The English press devote much space

to the consideration of the Canadian annexation address and its tone and temper is highly commended. The London Times says, "by whomesoever propos-ed by whomesoever concocted, it reflets great credit on the tact. skill and adroitness of its authors." In speaking of the possible assent of England to the annexation of Canada to the United States, the Times says, "yet the conduct of the people will be motives of prudence and interest alone. If they think they can do without Canada, then on-ly will they give up Canada, but in surrending Canada they will take care not to surrender one jot of sea or land the possession of which really and effectively concerns the maritime and commercial importance of Great Britain. They will not cede Nova Scotia -they will not cede those seaboards and harbors which must ever command the mouths of the St. Lawrence and protect the trade of the Atlantic."

IRRLAND.-It is rumored that a new morning journal is being projected in Dublin to champion the serve the peace, should any display of the Orange-man take place on the 5th of November. The fourth of the resumed meetings of the repeal association was held on Monday, at which letters of adhesion from several of the clergy were read. The rent for the week was stated to be upwards of £39. FRANCE .- The French ministry resigned in a body on the 30th ult. One account says they were

generally. It seems that the whole of the minisry, with the exception of Mr Odillon Barrot, who was not present, assembled on the morning of the 80th to advise the president respecting the appoit-

minister. At this meeting Louis Napoleon emphatically declared that the cabinet wanted dignity, an imputation sufficiently annoying to raise the dander of less sensative personages than those who form the executive of Republican France. The insult was too deep to be forgiven. The president added that the cabinet had been too subservative to the conservative major-ity of the assembly, and that the club of the council of the state did what he himself could not do, and

resortation of clerical intolerance that no one can persuade himself it may be excluded from the papal train. Should the pope neglect to prepate the way

named rulers in Austria, not satisfied with the human gore they have shed, still continue their sanguinary career. Several additional murders have been added to the already fearful list.

Their victims who have been strangled in Peeth or shot are all men of mark, an I when it is stated that the wretch llaynau has been appointed civil and military governor of Hungary, crimes at which humanity shudders at once arise before the mind at the mention of his name. If this wholesale system is continued another crisis in that country is be-lieved to be inevitable. The Hungarian officials are sending in their resignations in masses. A circular of Kossuth is circulating in Pesth, in

which the patriot assures his countrymen that he has removed the crown of St. Stephen solely to recommenced their old struggles for ascendancy, particularly the Slowaks and Ruthenens. The government intends to renew the fortification of Buda. The contracts for masonry are stated to amount to 261,000 florins. An ordinance of the em-peror has been published, which has for its object to apply to Hungary the principle of equality in the and imports. The Austrian government has issued circulars to all the Kinna publishers prohibiting the publication of any book without having first sub-

mitted the manuscript to the inspection of a military government. TURKER.-The only allusion in the papers at

hand of the difficulty between Turkey and Russia. is given in a single paragraph, under the head of France. Measures have been taken by the Porto for the location of the Polish and Hungarian refugees. The former had been conveyed to Shumla, while the latter were lodged in good quarters at Silislega and Rutschiickh. Kossuth and the other leaders were to remain for a while at Leading, until measures are taken for their removal and ultimate liberation. No less than 300 of the Hungarian refugees had become converts to Islamism, and many Sir Stratford Canning has sent passports to Gen. Guion, the Irish officer, and the British subjects who had been in the service of Hungary. THE REWARD OF PATRIOTISM .- The following is stated to be the condition of some of the liberal

leaders of Enrope: "Muzzini is supporting himself by editing a Re-view. Garibaldi arrived in Predmont with one shirt and half a dollar, after enduring the greatest hardships. Manin, of Venice, is now a common laborer. Avezzana has returned to New York poorer than he left it. The ex-Chancellor of Sicily supports himself as a paragraph writer for one of the Paris journals. Marrast is not worth a sous. Cavaigune has nothing but his pay, Louis Blanc lives by his pen. Lamartine drudges with his pen for substinence, and Caussidere sells wines in London to the same end.

EDITORIAL CONVENTION .- A number of the country editors of this State met in Harrisburgh on Friday of last week, and, in the course of their deliberations, passed a resolution to hold an adjourned Convention on the 1st of January next. They desire to secure, by act of Congress, the transmission, free of their newspapers, in the counties and Congressional districts in which they are published-and, by enactment of our own Legislature. the publication of the laws of the Commonwealth in their columns. RAILROADS .-- As an illustration of the advantages of railroad to the farming community, it is stated in the Al-ton Telegraph, that farmors in the neighborhood of Springfield, III., are contracting their corn at 13 cents per hel, while at Alton it commands 25 cents, and the demand exceeds the supply at that rate. A few years ago, corn was sold in the Mad river and Miami vallies the line of our railroads.
