CAUTION EXTRA. A man by the name of *CLAPP* has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sursaparilla, which they call br. Townsend's Sarsaparilla, de-nominating it *GENUINE*, Original, ect. This Townsend is no doctor, and never was; but was followerly a worker on railroade, canals, and the like. Yet he assumes the tile of Dr., for the pur-pose of gaining eredit for what he is not. This is to caution the public not to be deceived, and purchase none but the *GENUINE* ORIGINAL OLD Dr. Jacoh Townsend's Sarsaparilla, hving on it the Old Dr., thereas, his family coard a run, and his size

OLD DR. JACOE TOWNSEND.

STALL THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHER and DISCOVERER of the GEN-UINE ORIGIN.IL "TOWNSEND S.IRSAPARILLA." Being book, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the cars of many, nevertheless, as those persons who had iten healed of sore diseases, and saved from death, proclaimed its excellence and wonderful. IEALING POWER.

Knowing, many years ago, that he had, by hisskill, science and syprience, devised an article which would be of incalcuble ad rantage to mankind when the means would be furnished to bring

in into unniversal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are suplied; this GRAND AND UNEQUALLED PREPARATION

plied; this manufactured on the largest scale, and is called for throughout the length and bredth of the land, especially as it is found incapa-ble of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with ege, and nev-er changes, but for the better: because it is prepared on scientific principles by accentific mas. The highest knowledge of Chem-istry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsaparilla. The Sarsaparilla root, it is well known to medical neut, contains: many medical properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, pro-duce fermentation and acid, which is indivious to the system. Bome of the properties of Sarsaparilla are so rolatife, that they retirely evaporate and are lost in the preparation. if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these valcific principles, which fly off in vapor, or as an exhalation, under heat, are the very ea-sential decide properties of the coloring matter in the solored induid, which is molessees, nucle matter in the solored thany berson can boil or stew the root util they get a dark solored than which is molessees, and then eath it "SARSAPAR-LLA EXTRACTOR SYRUP."
