

In consequence of a press of advertising favors and the room necessarily occupied by the Mesquite, our editorial and news departments have been cut short this week. We were in hopes of being able to obtain a copy of the message by mail, and thereby avoid the errors of a telegraphic report, and waited for that purpose until yesterday before putting it in type, but were disappointed. The errors, however, are not so material as to prevent the intelligent reader from comprehending what the President really means.

TRAVELERS LICENSES.—Those of our friends who wish to advertise for License at the February Court, through the columns of the Observer, will take notice that their petitions must be inserted in the next number.

AN ORGANIZATION AT LAST.—Well, the long agony is over, and HOWELL CONN, Democrat, of Georgia, is Speaker of the House of Representatives, and consequently faction and trickery, bargain and bribery, have been knocked on the head. This result, so "desperately wished for," was brought about on Saturday by the House adopting a resolution to ballot four times, and it was not an election by a majority of the whole, but for the fourth time, the candidate having the highest number upon that ballot, should be declared Speaker. Upon the first ballot the vote stood: Withrop, 93; Cobb, 55; Wilnot, 9. No election. Second ballot, Withrop, 92; Cobb, 96; Wilnot, 9. No election. Third ballot, Withrop, 97; Cobb, 97; Wilnot, 9. No election, and the House proceeded to the fourth ballot, a plurality election, with the following result: Cobb, 103; Withrop, 100; Wilnot 8; scattering, 13. The tellers then proclaimed Mr. Cobb elected, and he was conducted to the chair by Messrs. Withrop and McDowell, upon which they briefly addressed the House as follows: Gentlemen of the House of Representatives: It would be useless to disguise the fact that I feel deeply embarrassed in taking this chair under the circumstances attending my election. I am conscious of the difficulties by which this position is surrounded at this time. The peculiar organization of this body is exhibited in our proceedings since we first met. The nature and character of the various important and exciting questions of public policy which will engage our attention during the present session of Congress, compare to render the duties of this office peculiarly embarrassing, onerous and responsible. I may be permitted to say, in advance, your generous aid and support in the effort I shall make, to do this duty, will be gratefully acknowledged by me. It will be my aim to do all that is in my power to do for the country, and to do it in a way that will be acceptable to the people, and to do it in a way that will be acceptable to the people, and to do it in a way that will be acceptable to the people.

THE FREDONIA EXPRESS has changed hands.—Mr. E. F. Foster having bought out the interest of J. P. Cobb in the concern. Hon. T. A. Osborn remains as principal Editor.

THE old champion of democracy and the rights of the people, "The Locomotive Gazette," comes to us now in an entire new dress, and looks, for all the world, as if it were a Broadway dandy in white kid. Success to it and its spirited Editor.

SOMEBODY sent us the other day, through the Post Office, a magnificent gold pen. As the donor did not send his name with it, and was very particular to disguise his hand writing, we conclude he does not wish us to chronicle his good deeds by name, or direct public attention to his establishment, but intends it as a simple offering of good will and respect. We shall, therefore, esteem it as such, and look upon it hereafter, not as the reward of a "puff," but a present of one whose good wishes it will always be our endeavor to merit.

WE had that Turkey for our Christmas dinner, thanks to one of the best democrats of Galesburg township. Our friend of the Washington Examiner will please note the fact.

THE President's message. In another part of our paper will be found the long looked for, long expected, veritable document. Having been so long expected, we did not deem it necessary to change the order of things by getting it out in a hurry. Besides, we could not, however much we might have desired to do so, have given it to our readers in advance of our regular publication day. Our contemporaries of the Gazette, however, showed a commendable spirit of enterprise by going to the trouble and expense of telegraphing and issuing it on Tuesday morning, the day after its delivery. We trust they will reap their reward so doing, if later by the world, at least in the world to come; which, latter, in this respect, we think from our experience in the newspaper business, is a good deal more probable than the former!

BUT the message itself. It is short, and in that particular commendable, rather dignified than otherwise, and, like every thing else from the same source, as non-committal as it will be. It opens by communicating the important fact that "sixty years have elapsed since the establishment of our government;" to which the author could with equal truth have added, "forty of which have passed in the camp, and during all that period never exercised the right of a freeman, by voting."

ted the use of the "one man power," except upon one contingency—a manifest violation of the constitution. It would be well to tell us in addition to preventing "unconstitutional and hasty legislation," the veto power is sometimes "necessary to defend the Executive against the encroachments of the legislative power." This is a surrender of the whole ground, and effectually silences every objection to this necessary part of our political system. But we have neither time nor room for further comment, and will therefore reserve what we have to say, until a more convenient season.

BY special invitation we dined on Christmas with our friend, Maj. Brown, mine host of Browns' Hotel.—The Major says, probably, the best table, this side of the Alleghenies. In addition to the usual courses of a Christmas dinner, Turkey, Chickens, Roast Pig, Roast Beef, &c. the Major served up to his guests a fine fresh Cod, & a variety of these parts, and especially to us.
