A man by the name of CLAPP hasengade with a young man of the name of S. P. Toymsend, and use his name to put up a Sarsaparilla, which they call Dr. Townsend's Barsaparilla, denominating it GENIINE, Original, etc. This Townsend is no doctor, and never was: but was formerly a worker on railroad, canais, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENIINE ORIGINAL OLD Dr. Jacob Townsend's Barsaparilla, having on it the Old Dr.a. likewess, his family coat of arms, and his signature across the cost of arms.

Principal Office, 102 Nation St., New York City.

OLD DR. JACOB TOWNSIND,

THE ORIGINAL DISCOVERER OF THE Gonuine Townsend Barsaparilla. Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHER and DISCOVERER of the GEN-UINE ORIGINAL. "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumstribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its recalled and more of the control o

then healed of sore diseases, and saved from death, proclaimed its excellence and wonderful.

HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalcuble advantage to mankind when the means would be furnished to bring it into universal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are supplied; this

plied; this

GRAND AND UNEQUALLED PREPARATION
is manufactured on the largest scale, and Is called for throughout
theleugh and bright of the land, especially as it is found incapahie of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with ege, and never changes, but for the Letter; because it is prepared on scientific
principles by a scientific man. At the highest knowledge of Chemistry, and the latest discovertien of the Old Dr's. Sarsaparilla.
The Sarsaparilla root, it is well known to medical men, contains
many medical properties, and some properties which are inert of
useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system.—
Some of the properties of Sarsaparilla are so volatile, that they
entirely evaporate and are lest in the preparation if they are not
preserved by a scientific process, known only to those experienced
in its manufacture. Moreover, these valuatile principles, which
fly off in vapor, or as an exhalation, under heat, are the vary ssential medical properties of the root, which give to it all its value.

Any person can loal or stew the root till they give dark colored
liquid, which is more from the coloring matter in the root than
from any thing else; they can then strain this inspired or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARII A NYED LETE, SYRIL". uid, sweeten with sour molasses, and then call it "SARSAPAR-LLA EXTRACT or SYRUP." But such is not the article known

ILIA EXTRACTORSTROF. But such is not the arrive another as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPA-RILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and heating properties. Prepared in this way, it is made the most powerful agent in the Curo of Innumerable D soases.

Hence the reason why we hear commendations of every side in

Curo of Innumerable D Soarses.

Hence the reason why we hear commendations of every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINTS and in RHEUMATISM, SCROUULA, PILES, COSTIVENESS all CULLINEOUS ERUPTIONS, PI. PLES, BLOTOWERS and STATES AND STATE CHE'S, and all affections arising from IMPURITY OF THE BLOOD.

CHE'S, and all affections arising from
IMPURITY OF THE BLOOD
It possesses a marvelous efficacy in all complaints arising from
Indigestion, from Airity of the Stomark, from unequal circulation, determination of blood to the head, patiputation of the heart,
cold fect and hands, cold chills and but finshes over the body. It
has not its equal in Colds and Coughs; and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs,
throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in crys of Flour Albaco Whites, Infling of
the Womb, Obstructed, Surpressed, or Pairful Meures, Irregularity of the menstrual periods, and the like; and is as effectual in
curing all the forms of Kidney Dixed es

By removing obstructions, and regulating the general system, it
gives tone and strength to the whole body, thus cures all forms of

Nervous diseases and dobility,
and thus prevents or relieves a great variety of other maia dice, as
hybinal irritation, Kearadgia, St. Vilus' Dance, Scooning; Epilepite Files, Congulsions, &c.

It cleauses the blood, excites the liver to healthy action, tones
the-tomach, and gives good dige-tion, relieves the bowels of torpor and constipation, allays inflamation, purifies the skin, equaliese the circulation of the blood, producing genthe warmth equally
all over the body, and the incensible perspiration; relaxes all
strictures and fightness, removes all obstructions, and invigorates the entire nervous system. Is not this then

The modicine you proomingnety needs

strictures and lightness, removes all obstructions, and invigorates the entire nervous system. In not this then

The medicine you pro-ominantly need!

But can any of these things be said of S. P. Townsend's inferior article! This young man's kipid is not to be COMPARLO WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and

New Proceedings of the second of the containing a into Imagentis; the sour, acid liquid exploding, and damaging other goods! Mast mythis horrible compound be poisonous to the system?—What! put acid into a system arready decased with acid. What causes Ity-pepsia but acid? Do we not all know that when food sours in our stomachs, what mischies is produces! flatulence, heartburn, palputation of the heart liver compaint, diarrhem, dysentery, colic, and corruption of the blood! What is Scröbia but an acid humor in the body! What produces all the humos as hich bring on Evaptions of the Skin, Scald Head, Salt Rheim, Erysipelus, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheminatism but a sour or acid fluid which in-invares itself Letween the joints and elsewhere, fricting and inflaming the delicate tissue upon which it acts? So otherword discusses, of impurity of the blood, or decanged circulations, and nearly all the ailments which silicit human nature.

Now is it not horrible to make and sell, and infinitely weree to use this

Now is it not horrible to make and sell, and infinitely werse to use this SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND, and yet he would fain have it understood that Old Dr. Jacob Townsend's Gennine Original Sursuparitla, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would hear the most distant resemblance to S. P. Townsend's article! and which should being down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasees who have used S. P. Townsend's FERMENTING C MPOUND.

We wish it understood, because it is the absolute truth, that S. We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Satsaparilla are heacen-tideapart, and infinitely disamilar; that they are unlike in every particular, having not one single thing in com-

unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmacential—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what gnarantee can the public have that they are receiving a genuine scientific medicine, contaming all the virtues of the articles used in preparing it, and which are in capable of changes which might render then the AGUNTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who man

wants and make and the state of the state of

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcondent Power to Heal.

Proscription! Proscription!

Thill above is at this day by far the most general cry throughout 1 our land. Scarce any one descapes its odnum. Even Gentaylor, that great and good man, its frequently accorded it. He, however, as often denies the charge as it is made, and holdly asserts that he "removes for cause only."

The Subscribers have quite recently got out a NEW STOVE on the elevated oven principle, which they call the KEYSTONE COOKING STOVE. Said Stovers of decided an improvement on all and every Stove heretofore made (having so many good qualities others are void of) that those engaged in the manufacture of a much inferior article have taken the alarm, and at one raise the cry of proscription, and expect by this to escape a general route. Such cry, however is a useless waste of the raw material. The edict has been issued—community claim the tight to select the best-forewealt others, including Sennett's Patent. The verdict, however, will be, "Removed for cause only;" so we stand in a position similar to General Taylor, and as he is institled so shall we be.

A good assortment of other COOKING STOVES, including the celebrated Carpenter Stove, as well as the Genese Farmer and Clinton Air-tught Cook Stoves.
