1 1 1 1 1 1 1 1 ANOTHER "TARIFF FACT."-Mr. William H. Young of Florida, has determined to erroct a cotton factory, to run 5900 spindles, at Columbus (Ga.). The Columbus Times, in noting this fact, says:

So we go. Columbus will be a Georgia Lowell before bog, and some of these days will beat her. Lowell ne-rer had, nor never call have, the advantages with which Columbus is endowed by nature and position, for manu-facturing purposes. It is a significant circumstance, that a member of a large Philadelphia house was here last weak soliciting consignments of Columbus cotton fabrics a memoer of a large fulladelphia house was here las week, soliciting consignments of Columbus cotton fabrics for his firm in Philadelphia.

So says an exchange. We hope the Guzette will not fail to notice this "fact" when it perpetrates another lecturd on "Tariff frets." It might be interesting to its readors, and give them a slight inkling of the way the present revenue laws are ruining the manufacturers.

THE BARBARIAN!-The Editor of the Blue Hen's Chicken (what a chicken he must be to give such a name to a paper,) discourses thus about babies. The fellow should be compelled to father an entire orphan asylam;

"It strikes us that more fibs are told about babies, than engthing else in the world. We all say they are sweet, yet everybody who can smell knows that they are sour; and all say they are lovely, yet nine babies in ten, hav no more protensions to beauty than a pug dog; we praise their expressive eyes, yet all babies squint; we call them dores, though one of them makes more noise than a coleuy of screech owls."

This fellow evidently don't believe, "A babe in a house is a well-spring of pleasure."

T Gov. Johnson has pardoned the notorious Jos Barker, who was confined in the jail at Pittsburgh .- Ez Paper.

ARRIVAL OF THE CANADA.

NEW YORK, Jan. 14-10 A. M. The Canada reached Halifax yesterday morning. Cotton had advanced a quarter. Corn had improved and was quoted 29a30s for white, and 28a20s for rellow. Wheat was slightly better. Best brands of American flour 25s-ordinary 23a23-61, at which the market was firm. Money continued plenty. American securities firm and in demand. The bullion in the Bank of England was seventeen million pounds, being the largest amount its vaults ever held.

The political news from England is not of much importance.

Parliament will assemble for de-patch of business on the 3d of Febuary, when, it is rumored, that va-rious political and commercial measures will be

brought before the Parliament Col; Webb and suit arrived at Liverpool by the Yorkshire, en route to Vienno, to commence his diplematic dufies at the Austrian Court. Russia was making rapid strides towards the ulti-

nate subjugation of Turkey. FRANCE.—The Journal du Havre states on the suthority of a private state; from the United States, that the Cabinet at Washington had just admitted

the justice of the demands for indemnities made, by M. Poussin, and which were the origin of his disputes with Mr. Clayton.

A D Y DIRTIS SIME IN T. To the Editor of the Observer-1 notice that I am made a pe-titude to our Court to grant one of our elilzens a licence to keep a public horse without any qualification. This is not true. An important exception is made in gour paper which will appear on the original paper, as follows: T. Towner, "All except Liguor." With your sense of jostice 1 hope the correction will be made, for it is no part of my judgment that it is necessary to license houses at every corner of the streets to sell spiritous liquors as a bever-ine, much less to allow every cake and analy shop to traffic in it with imports. 民业

The Pope it is said, will not return to Rome until

"Tariff, or no Tariff, high duties of low during pig am bound to make money by manufacturing pig iron, because I have adopted the right course to do it and with me there is 'no such word as fail.' Although my ore is transported near a hundred miles, and my coal not very convenient to my furnice, I can make iron at a cost of eighteen dollars a ton. I now dispose of it at twenty-five dollars a ton, leaving me a clear profit of seven dollars a ton, and I neither ask nor desire more. If present prices continue, I am bound to realize a fortune in quite a reasonable time."

This is the kind of talk we like, and for the inmaster is a Democrat, and carries on his business at Havre-de-grace. He commenced the mining business in the neighborhood of this city, some years ago, with scarcely-a dollar in his pocket, and by dint of industry and enterprise soon accumulated money enough to become the owner in part of an iron furnace. He says the cause of the failure of many of our iron men, is their very expensive and extravagant mode of living-most of them driving their blood horses and riding in costly equipage to the field of their business operations, instead of taking it on foot, or on a plain fifty dollar nag, as he does. This is the secret of their failure, says he, and the contrary course the secret of his success. He wants no Tariff, whilst prohibitory tariffs would

except by supposing that they expend one hundred collars in their families, where ten would more than suffice. Let the iron panic-makers every. where, take note of this. It is no whig Roorback, but the solid truth plainly and soberly told. If they want any more evidence from his lips, of the pros perity that will attend the iron master of reasonable desires and ordinary economy and prudence, wo can, no doubt, prevail upon him to speak to them mer his own signature, and also to give them a few lessons which will be of infinite service to them if they will open their ears to his counsel.-Baltimore Areve.
