Mas. Millen Adam .- A corespondent of the New York Herald, under date of Raleigh, N. C. Jan 18, has the following:

The veritable Mrs. Miller, of Nirgara memory, now sojourning in this city. She arrived here about two weeks ago, in the northern cars, and in company with a young man, and took lodgings at the Engle Hotel, and had their names registered as Mr. and Mrs. Jones.—
They remained at the hotel bus a few days, when they sought and obtained board in a private family, in the western part of the city, where she has since given birth to an infant. Should her friends have any desire to see her, they can do so by coming to Raleigh, and calling at the house of a citizen, whose name I send you.

FATR WARRING TO ALL!!

We are now engaged in making out bills against All or subscribers who appear, from our books, to be in arrears, and shall either forward them in their respective papers, or have them presented during this month. We expect they will ALL "walk up to the Captain's office and settle," without dodging, equivocation or evasion! If they don't do it peacibly, they must forcibly! Our creditors expect and, indeed, make us "fork over" whenever they present their accounts, and we have made up our mind to teach those who owe us the same way of doing business. No matter, then, whether the account is large or small, it must be paid. We have done a 'credit business too long now for our own good, and our subscriber's too! They had much better pay \$1.50 in advance, than wait two, or three, or four years, like many upon our books have, and the fail and subscriber by the failed account of the subscriber of t month. , We expect they will ALL "walk years, like many upon our books have, and Etie, Jan. 10. 1830. complain bitterly because we charge them, according to our terms, \$2 per year. But, as we said before, we are making out bills

DN Wednesday, the 9th, between Erle and Illions, (two miles below Wesleyville) a victorine or far collar of much value to he owner. The finder will be therally rewarded by leaving it at Lewis' Gonite Hall, one door east of Brown's Hotel.

Eric, Jan. 19, 1259. as we said before, we are making out bills against all who owe for one or more years' subscription, and unless they are paid when presented, we shall place the accounts of all who owe for more than one year in the hands of a proper officer for COLLECTION!

We speak thus plain to savy costs! We have done business long enough for fun—at least, long enough to be tired of having some two thousand dollars upon our books against good men, white our creditors are daily har.

ENTERPRISE. WE observe that friend Bloan is exending his husiness into distant parts of the country. We lately observed his familiar name and column of advertisements in the Fitchurgh Baturday Visiter. They have for rouse time been shourishing as large as life in the newspapers of Ohio. DR. J. W. FRENCH, of Hillsdale, Hillsdale county, Michigan, about the lat of January, 1849, wrote as follows: "I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely affected with a Chronic Disease of the Lungs, as to convince me that I had the Company of the Consequence of the lungs, as to convince me that I had day, and had severe pains and soreness in my chest, side, and breast, I tred the remedies recommended by the most skilled of the profession, all to no effect, excepting the nausea and debility enused by thom. I was prejudiced against patent medicines, and have no faith now in them generally. But I was induced—as an experiment, more than through faith—to try a bottle of BillANT'S INDIAN PULMINARY BALSAM; and I do here acknowledge, for the benefit of the affected, or whom it may serve, that the effect of its use on me was the most prompt and salutary of any medicines I ever wimessed the effect of in all my practice. My cough was isomediately referred, and in about eight or ten days I was free from cough, someones of the chest, and pain, and now consider and promotes appely a well. I MAN."

She had been long confined to her beet, and was so dangerously diseased, that her friends believed it impossible for her to lier more than ONE DAY LONGER.
