CAUTION EXTRA. CAUTION BRTHA. A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsendi and mesh hs name to but up a Saraparilla, which they call Dr. Townsend's Earspatilla, do-noninating it GENUINE, Original, ect. This Townsend is no doctor, and never was but whs formerly a worker on railroads, canals, and the like. Yet he assumes the tille of Dr., for the pur-pose of gaining credit for what he is not. This is to environ the public not to be develved, and purchas none but the GENUINE, ORIGINAL OLD Dr. Jacob. Townsend's Saraparilla, hving on it the Old Dr's, likeness, his family zoat of arms, and his sig-nature across the cont of arms. Principal Ofice, 102 Nazsus st., New York City.

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE Gauino Townsend Barsaparilla. Old Dr. Townsend is now about 70 years or ange, and has long been known as the AUTHER and DISCOVERER of the GEA-UINE ORIGINAL. "TOWNSEND SATES AFAIRLLA." Being poor, he was compelled to limit its manutacture, by which means it has been kept out of market, and the sales circumeeriled to those only who had proved its worth, guid known its value. It had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached the cars of many, nevertheless, as those persons who had reached wonderfait. IREALING POWER. Knowling, many gears ago, that he fold, by hisskill, science and experience, devised an article which would be of incalculate ad-vantage to manking when the means would be formisted to bring it into universal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are sup-plied; this *GR.ND AND UNEQUALLED PREP\_IRATION* 

plied; this GRAND AND UNEQUALLED PREPARATION

plicit; this GRIND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and bredth of the tand, expectally as it is found incapa-ble of degeneration or detorioration. Unlike young S. P. Townsend's, it improves with ege, and nev-er changes, but for the better; because it is prepared on scientifie principles by a scientific man. The highest knowledge of Chem-istry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsaparilla, The Sarsaparilla root, it is well known to medical men, contains many medical properties, and some properties which are incrt or meetes, and others, which if retained in preparing it for use; pro-duce formentation and acid, which is injurious to the system.— Some of the properties of Sarsaparilla dres os soletife, that they cutirely evaporatemad are lost in the prepariation, if they are not preserved by a scientific process, known only to those experienced in lis unanufacture. Moreover, these coldite principles, which ily off in vapor, or as an exhalation, under heat, are the very es-testical medical properties of the root, which give to it all its value. Any person can boil or size withe root till they get a dark colored liquid, which is more from the coloring matter, in the root than from anything else; they can then strain this insliptio or vapid li-quid, sweeten with sour molasses, and then call it "SABSAFARE. quid, sweeten with sour molasses, and then call it "SARSAPAR, ILLAEXTRACT or SYRUP," But such is not the article known

ILIA EXTRAUTORSYBULT." But shen is not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPA-RILLA. This is so prepared, that all the inert properties of the Sarsapa-rilla root are first removed; everything capable of becoming acid or of formentation, is estracted and rejected; then every parti-cle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the **Cure of Innumerable D'senses.** I lence the reason why we heat connuerdations of every side in

**CORSON ADDITIONATION DESCRIPTION** I lence the reason why we hear commendations of every side in its favor by heel, women, and children. Heaven tothid that we should deal in, an article which would bear the most distant resumblance to S. P. Townsend's article: and which should bring down upon the Old Dr. such a moandain bond of complaints and etiminations from Agents who have used S. P. Townsend's KIRMUNTING COMPOUND. We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Normaniti-lance have as do part, and infinitely dissimilar; that they are unlike in every patieular, having not one single thing in com-inon. As B. P. Townsend is no doctor, and never was, is no chemist. unlike in every particular, having not one single thing in com-mon. As B. P. Townsend is no doctor, and never was, is no chemist, no pharmacculist-knows no more of medicine or disease than any other common, discentific, unprofessional man, what guar anise can the public have that they are receiving a grouthreseien-difie medicine, containing all the virtues of the articles used in proparingit, and which are in capable of changes which might render them the AGENTS of Discare instead of health, Ibut what else should be expected from one who knows nothing comparalively of medicine or discare: It requires a person of same experience to cook, and serve up even a common dicean. Messenger & Spencer, Newton & Golgrove, Watson Miller, Lating House, whoalt Bitornachis and Zinfecobled Systems, should know well the medicine properties of plants, the best man-ner of securing and concentrating their bealing virtues, also an should know well the medical properties of plants. THE above is at this day by far the most general cry throughout out and. Scarce any one escapes its obtain. Even Gen-Taylor, that great and good man, is firequently accured of it. He, however, as often denies the charge as its made, and boldity as-serts that he "temoves for cause only." "The Bubscribers have quite recently got out a NEW STOVE on the elevated overn principle, which they call the KEYSTONE COOKING STOVE. Said Stove is so decided an improvement all and every stove berefore hand (that may so many good qual-tics others are void of ) that those engaged in the manufacture of a much inferior article have taken the atarm, and at once raise the store try, however is a welves wake of the raw material. The edict has been is such-comminity claim the right to select the best Stove out. Hence the Keystone Stove numerup erede, howev-er, will be, "Removed for cause only," so we stand in a position similar to General Taylor, and as he is justified so shall we be.
