The editors of the Observer and Fredom Cens in their little "personal" discussion now pending, boldly talk of tendering to each other a "disper." Fic. gontlemen—we blush. Have respect, we entrest you, for the "native modesty" of some folks.—Gazette.

By "some folks! the Editor probably refers to himself. Now with all due deforence to our over nice, shooth spoken, never-say-any-thing-out-of the-way cotemporary, we would beg leave to hint that, in our private opinion his "native modesty" is nothing more than over-acted affectation!

DEMOCRATIC TRIUMPH IN GEORGIA. - Returns of the special election lately held in the Savannah Congression al District, Georgia, to fill the vacancy occasioned by Mr. T. MURDER AT COURTLAND. - We learn by the Sy racuse Star, that a fatal occurence took place at Courtland village on Tuesday last. WORSE THAN DEATH.

A T Worester, Massachusetts, in the year 1835, a case of 4Efe phantinsis' came under a physician's care, the patient laboring under the usual syntoms of that horrid disease, which confined growing worse and worse for tex rears, at this period the patient was abandoned by her physician's all saying that her case was incurable, and that she could not survive many weeks. Her limbs were swellen to an immense size, her face turned black, eyes starting from their sockets, and her whole person resembling some heast, too horrid for description. All the symptoms of this dreadful disease appeared in the worst form. The female had been possessed of much personal beauty, and great accomplishments, but these were now sunk in the ravages of a disease wayse trans pestrul. In 1847 a genuleman from Cheage, Illinois, white her friends, and undertook to alloviate her sufferings, being the sentiment of herself and friends. Having much faith in 'Sloan's Ontraent,' he had supplied hinnelf with it to present to his friends. The first box of the Ontament evident y depice her case, and in the use of two more boxes decided hopes were entertained. In short this hitherto incurable disease was mastered, and this case in which hundreds of dollars had been squandered on physicians, was cured entirely at a cost of fifteen dollars, and they oung lady now married, walks the streets of a western city, a living and most beautiful monument of the unparalelled virtue of the people's medicine, 'Shoan's Ontraent.'

MEDICAL TREATMENT.

DR. W. B. Sloan-lear Sir. Last August I received a severe bruise on one leg, just below the knee, no attention was paid to it however for some time after, nor until I had taken cold in the sore, it now became very much. swollen, and exceedingly painful, so much so that I could get no sleep for several days. A physician was called, and my leg lanced at two different periods, discharging very freely each time. I laid under Medical treatment about three months, but without the least permanent benefit. I then obtained a box of your Uintment, this soon removed all pain and soreness, and in two weeks from the time-I began using the Uintment my leg was entirely well. I cheerfully recommend all who may be similarly injured to give this Ointment atrial with the fullest assurance that their expectations will not be disappointed.

Respectfully Yours,

DAVID J. WEST.

AFTER THREE YLARS FOUND RELIEP.

This is to certify that I have been afflicted with a rain in my left leg a little below the knee for about three years, most of this time I have been entirely mable to labor, and now this tanding I have used almost every thing I heard recommended, nothing afforded any relief, except the application of cold water, and this but temporarily. A neighbor recommended me to try Sloan's Comment, I did so, and in about four weeks I was able to walk about as well as ever, except bome weakness.

ENTERPRISE.

WE observe that friend Stoan is extending his business into distant parts of the country. We lately observed his familiar name and column of advertisements in the Pittsburgh Saturday Visiter. They have for some time been flourishing as large as life in the newspapers of Ohio. Thus he is pushing his business with energy to the east and the south, reversing the order of business, the tide of which usually tolls to the westward. Wherever the medicines are sold, they are liked, and the demand for them continues to increase. When a good article is thus sold, we have no regrets that it brings in to the proprietor a rich harvest.—Western Citizen, Chicago, Ill., July 24, 1849.

Letter, Sennett & Chester: Gent.—We are using your improved modern Cooking Stove, called the "Bang Up," and after a fair trial I can recommend it as superior to any specie in use in this section of the country. Among the most prominent advantages of this stove, is the commodiourness of the Oven, it being sufficiently capacious for the largest family, and also in a raying of fuel. I am satisfied that one half the fuel necessary for any stove we have ever used will stuply supply this. Take it all in all I think it difficult to improve.
