PHILADELPHIA, March 6. The steamship Canada arrived at Halifax at & o'clock, on Friday evening. She left Liverpool on Saturday. Febuary 23, and brings two weeks later intelligence .-The commercial and political news, by this arrival, in not of an important character. There is no marked change in breadstuffs. The London Money Market is represented to be in a fluctuating condition.

Austrea .- An Austrian flect is proparing to set sail for Greece, to oppose the expedition of Sir William Parker. The people of Hungary are again beginning to express, their feelings of hatred towards the Austrian Government. The sentence of death passed upon twenty three Hungarian officers, on the 16th of January, has been commuted by Baron Haynau, to terms of imprisonment in irons. varying from five to fifteen years. A serious collision had taken place between two regiments of infantry, at Inspruch, in which thirty men were wounded.

TURKEY .- The Hungarian refugees have been sent to one of the Asiatic provinces of Turkey. The recent attemp tto assinate Kossuth is being investigated by the Turkish Government. Austria has not resumed her relation:

FRANCE. -The Paris papers state that all is quiet, though serious disturbances have occurred in some of the Southera provinces. The emule in Paris has been put down, but the Socilists weare organizing for a grand demonstration on the 24th of Febuary. Military preparations, however, were also making to keep the peace, and the Provinces have been placed under a civil kind of martial law. The government is concentrating its forces to quell any demonstration of dissatisfaction; for which purpose the country has been divided into four grand Military Divisions, over which Generals have been placed, with extraordinary powers of command. Louis Napoleon is not now so popular as he was heretofore.

In the Legislative Assembly questions were asked of the Minister of Foreign affairs respecting the affairs of Greece-to which the Minister replied that not only had England accepted the mediation of France, but she had also sent orders to Admiral Parker to suspend any coercive measures against Greece.

Another Parisian editor of La Liberte has been sentenced to imprisonment and heavily fined for a libel on the government. M. Proudon's paper, the Voice of the People, has been again seized for publishing articles intending to bring the government into contempt.

NEW YORK, March 6. The Georgia has arrived with dates from San Francisco to the first of February. Little change has taken place on the Pacific coast. But the government and paople are progressing rapidly in public affairs and in shaping society by law and order.

The newspapers give a very encouraging portraiture of the growing State. The Alta California says the news from the mines is of the most gratifying nature, not onehalf of the distress which was predicted having occurred. In the upper portions of the placers the snow has been so deep as to compel the miners to come down further. but those who have wintered above have no reason to complain. In many of the "diggings," new discoveries have been made, and the result of labor has exceeded the most sanguine expectations. Provisions have not been scarce, and have been procured at reasonable rates. New towns are springing up in all directions upon the banks of the various streams, and are being built up with unexampled rapidity. Of course, land speculation is extensively indulged in. The small steam ers are daily pushing their way biglior and higher up, and scaning a rich harvest while they enhance the value.

WASHINGTON, March 12. Mr. Webster yesterday, read an extract from resolutions for Texas appearation, to show that Congress was bound to receive four new Slave States out of Texas, if her people choose to form them.

M. Hale asked Mr. Webster, whether he thought it was competent for Congress to enter into any such compact with Texas? Texas then being a foreigh power, was not any such compact void, because no compact could be entered into with a foreigh power, except by the treaty-making power.

Mr. Webster replied that such power was constitution ally exercised under the right to admit now states. He farther explained his remarks this morning, soon after which Mr. Foote appounced his committee of thirteen POPULAR OPINION.—If popular opinion is any criterion of the worth of an article, we invite the incredulous to read at least a few of the many voluntary certificates which ap-

DRIE DAGUERREAN GALLERY. HERMAN & LEWIS are happy to annound to the Ladies and Gentlemen of Eric, and the friends of science and art in the region round shout, that they are prepared to take Likenesses of a superior quality at their rooms, over Middleton & Murphy's store, three doors cast of Brown's Hotel.

There are several reasons why persons can obtain better pictures at our rooms than at any other in this city, or in this part of the country. One is:

WE HAVE THE BEST LIGHT! Skylight and ride light COMBINED—each correcting the faults of the other, and producing a natural and most beautiful effect.—
TRY 1T, WHOEVER IS NOT SATISFIED WITH PIC-TURES TAKEN ELSEWHERE!! TURES TAKEN ELSEWHERE!!

Another reason is, we have the best apparatus. The importance of this will be obvious to any one.

We shall not offer those who favor us with their patronage, the flat, insight, corpse-like things, which many who call themselves artists present to the public. Neither shall we offer those dark, gloomy images which human beings are sometimes told resemble themselves; but clear and accurate Likenesses, possessing the most beautiful blending of light and shade, richness and depth of tone, remarkable distinctness of features, true expression of the eye, boldness of relief, distance and invisibility of back ground, delicacy of finish, softness, transparent and artistic effect.
