ed to the Court House, accompanied by officer Jones.— The Court room, galleries and arcuves are crowded to arcess by an anxions multitude. On the prisoner being called upon, to plead, he stood up firmly in the dock and pleaded "Nor GUILTY," in a strong and firm tone of voice, and while several of the jurors were being examin-ed and questioned as to whether or not they had formed or expressed an opinion, he manifested much anxiety as to the answers given. The day was entirely consumed in preliminary airangements, and after the Jury was en-panneled, the Court adjourned. The examination of winesses in Dr. Webster's triat was commenced this afternoon. There was much disc cropency in the sistermonts of the different surgeons which in the Medical College sherily aftor is discovery—went with Dr. Gay and Dr. Winslow, Saturday P. M. The manner in which the pasts of the body wors expanted would seem remains found in the tea chest had been treated with a slima solution of caustic potash: I dissected out the blood vassels from the thighs, and their contents were analysed by Dr. Cronsly, and the result showed that the arterica and veins had not beed injected with any of the solutions used in the dissection of bodies. The best thing to dissolve a human body is caustic potash. Nitric Acid would be the next best. This is the substance of Dr. Jackson's testimony, after hearing which the Court ad journed.

March 22. The greatest excitement continues to exist in regard to Dr Webster's trial. About 9 o'clock the prisoner took his seat in the court. He was as usual calm and dignified. Some delay occurred on account of the Jury and Court having been to inspect the scene of the alledged murder. After their return, the city Marshal, Tucky, was called and examined. His testimouy was not important, merely relating to the efforts made to find Dr. Parkman after his mysterious disappearance-the reward offored-the finding of the body in the Medical College -the arrest of Dr. Webster, &c. &c.,

During his examination the box containing the bone found in the furnace was exhibited to the Court; also, a large knife, found on the premises, resembling a Bawie knife, and extremely pointed, which created great sensation among the spectators.

C. G. Moore was then called and sworn, and then the Court adjourned.

STRONGER, BETTER AND CHEAPER STRONGER, DETTER AND EHEAPER Than any other in Market. Persons who have taken "Saranpa-rilla" by the gallow, without relief, have been radically cursed, by using two or three bottles. This is the only Compound in which Sarsaparilla, Wild Cherry and Dandelion are so prepared, to offer the peculiar virtues of each in combination with pure Estracts of other healing articles in a highly concentrated since. Its ingredients are PURELY VEGETABLE:

And are such roots and barks as are found-though chiefly affec-ingectain parts in their general tendency to produce the most cleansing and healing effects. IT IS IMPOSSIBLE

To cure many diseases, Brophies, Kidney Complaints, &c., draw off Watery Humors from the Blood, or corrupt and irritating sect-tions of diseased organs from the body, without the thorough Orga-arton on ring Kunzws, as caused by this Medicine. No ornus estract even pretends to this effect. In fact this very operation for which it is particularly compounded, differs from all other prep-arations, and makes it the best compound in existence.
