Very respectfully, your obedient servant.

A. SCOTT.

Messra. Lester, Sennett & Cheener; Gent.—We are using your improved modern Cooking Stove, called the "Bung Up." and after a fair trial I can reconfined it as superior to any stove in use in this section of the country. Among the most prominent advantages of this stove, is the commodiousness of the Oven, it being sufficiently capacious for the largest family, and also in a saving of fuel. I am satisfied that one half the fuel necessary for any, stove we have ever near with amply supply this. Take it all all it think it difficult to improve.

Truly yours.
