Mesers. Lester, Sennett & Chester; Gent.—We are using your improved modern Cooking Stove, called the "Bang Un!" and arter a fair trial I can recommend it as superior to any stove in use in this section of the country. Among the most prominent advantages of this stove, is the commodionsuses of the Oven, it being sufficiently capacious for the largest family, and abo in a saving of fuel. I am satisfied that one half the feel necessary for any stove we have ever used will amply supply this. Take it all in all I think it difficult to improve.

THE ORIGINAL DISCOVERER OF THE Gonuine Townsond Sarsaparilla.

Old Dr. Townsond is now thout 70 years of age, and has long been known as the AUTHER and DISCOVERER of the GEN-UINE ORIGINAL "TOWNSEND SARSAPRILLA." leing poor, he was compelled tollimit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. Ithad reached the ears of many, nevertheless, as those persons who had iren healed of sore diseases, and saved from death, proclaimed its excellenceand wonderful.

Knowing, many years ago, that he had, by hisskill, science and experience, devised an article which would be of incalcuble advantage to mankind when the means would be furnished to bring it into unniversal notice, when its enestimable virtues would be known and appreciated. This time has come, the means are sup-THE ORIGINAL DISCOVERER OF THE

Untike young S. P. Townscalds, it improves with ege, and never changes, but for the better: because it is prepared on scientific principles by a scientific mas. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's. Sarsaparilla. The Sarsaparilla ort, it is well known to medical men, contains many needle alproperties, and some properties which are hiert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system.—Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which ify off in vapor, or as an exhabation, under heat, are the very estential and clical properties of the root, which give to it all its value. Any person can boil or stew the root till they get a dark colored iquid, which is more from the cotoring matter in the root than from anything else; they can then strain this insipid or vapid liquid, wheel is more from the cotoring matter in the root than from anything else; they can then strain this insipid or vapid liquid, which is snow for the properties of the cotor, which is not the article known as the GENUINE OLD DR. This is so preparedy that all the inert properties of the Sarsaparrilla root are dist removed, everything enpuble of becoming acid
or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form;
and thus it is readered inenpuble of bosing any of its valuable and

It possesses a marvelous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circula-tion, determination of blood to the head, palpitation of the heart, cold feet and hands, cold childs and too dashes over the body. It has not its equal in Colds and Coughs; and promotes easy expec-toration and contile sersativation, relaxing stricture of the lunes.

cold rect and hands, cold cause and hot hashes over the body. It has not its equal in Colds and Compls; and promotes easy expectoration and genutle perspiration, relaxing stricture of the lungs, throat, and everyother part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of FEMALE COMPLAINTS.

It works wonders in cases of Flour, tibasor Whites, Folling of the Womb, Obstructed, Surpressed, or Painful Menses, Irregularity of the menstrual periods, and the like; and is as effectual in curing all the forms of Kidney Dicca'cs.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, thus cures all forms of Norvous diseases and dobility, and thus provents or relieves a great variety of other main dies, as Spinal irritation, Neuralgia, St. Vitus' Dance, Seconing, Epiteptic Fits, Conventions, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good lligies flour, relieves the bowels of torpor and constipation, allays inflamation, purifice the skin, equalises the circulation of the blood, producing gentle warmth equally all over the body, and the Inscnsible perspiration; relaxes all over the body, and the Inscnsible perspiration; relaxes all

all over the body, and the inscasible perspiration; relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then

Tho modicine you pro-eminently need? But can any of these things be said of S. P. Town

But can any of these things be said of S. P. Townsend's inferior article! This young man's liquid is not to be COMPARD WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and NEVER SPOILS, while the other DOES surving, fermenting, and blowing the bollest onto the third that the following state state of the poisonous to the system, which put aid into a system already diseased with acid! What causes Dyspepsia but neid! Do we not all know that when food sours in our stomachs, what mischiefs it produces! flatulence, heartburn, palpitation of the heart liver complaint, diarrhwa, dysentery, colic, and corruption of the blood? What is Scroftda but an acid humor in the body? What produces all the hamors which bring on Eruptions of the Skin, Seald Head, Sait Rhemm, Eryspelas, White Swellings, Fever Sores, and all alcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the liftids of the body, more or less. What causes Rhemmatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, trritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, or depanged circulations, and nearly all the aliments which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this Now is it not norther to make and sent, and infinitely worse to use this SOURING, FERMENTING, ACID "COMPOUND"

OF S. P. TOWNSEND, and yet he would fain have it understood that Old Dr. Jacob Townsend's Genuine Original Sarsaparilla, is an IMTTATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would

Heaven forbid that we should deal in an article which would bear the most distant re-emblance to S. P. Townsend's article: and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND.

We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Brasparitia are heaven-wide apart, and isfinitely dis-similar; that they are unlike in every farticular, having not one single thing in common.

in arg heaven-wide apart, and infinitely dis-similar; that they are unlike in every farticular, inaying not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genular-scientific medicine, containing all the virtues of the articles used in preparing it, and which are in capable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent meat. How much more important is it that the persons who manufacture medicine, designed for

Woak Bromachs and Enfoobled Systems, should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate, to pour bain into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR.
