The Amende Honorable.

It appears from a communication in the Union, copied into the Gazette, that the extract which we published last week from the New York Erening Post, relative to the Peyton claim was incorrect—that the said claim was allowed and payed by the late administration, and therefore no blame, if blame there is, can be attached to this. We are happy to be able to make this amende honorable. for although we are forced to believe that it is the most corrupt dynasty that ever ruled the country, we are far of falso charges. No, no-this no-party administration litically damned Administration, and now a word in reply to the uncalled and unwarranted insinuations of the Gazette. It is an old saying, and as far as our experience goes, a very true one, that the greater the rogue, the more ready he is to place every body else in the same category with himself. Upon this principle of a dishonest mind alone can we account for our cotemporarie's insinuation that a "correction" was "not likely to appear in the Observer—not even in substance; for there is nothing in the past conduct of the Observer to justify the nothing in the past conduct of the Coserver to justify the idea that we would not make a correction when fairly convinced of having done injustice. Can the Gazette say as much? But our cotemporary did not believe his gratuitous fling himself, for, after boldly asserting that we would not make the correction, he has the impudence of the code to the correction in the impudence of the code to the correction in the impudence of the code to the correction in the impudence of the code to the correction in the correction. to ask us to do so. Now, it is hardly necessary for us to say that we have not yet soon the communication in the Union, said to have been published by that paper.—But it is useless to occupy space farther—the Gazette's

Afternoon Report. WASHINGTON, May 8.

Mr. Clay presented his resolutions accompanied by soparate bills-first for admiting California with her present boundaries, expressing the opinion that new states may be formded out of Texas. The 2d, provides territofrom desiring to add to its infamy by the promulgation rial governments for New Mexico and Utah without provision against the admission of slaves, and for their bounhas sunk itself low enought in the public confidence, daries as reported by the Territorial committee. The 3d, without the need of false weights to carry it down to a for the delivery of fugitive slaves, adding a clause to the "deeper depth." So much in justice to an already po- bill before the Senate. The 4th, for the abolition of slavery in the District of Columbia.

Mr. Clay spoke is favor of immediate action, and wished to make it the order of the day for Thursday.

Mr. Turney objected. Mr. Phelps was opposed to the whole series of measures. Mr. Downs said he would not consent to the Terfas

and Culifornia boundaries. Mr. Berrien did not think it would allay agitation. Mr. Mangum was not satisfied with all the features of the report, but he cheerfully assented to it for the purpose of allaying agitation. Applause.

Mr. Clemens denounced the whole plan. He was surprised at Mr. Mangum's course.

Mr. Clay consured Mr. Clemens, and his opposition as premature, and spoke very warmly.

Mr. Foote lectured Mr. Clemens for his premature two-fold object is seen through and duly appreciated; but it wont do. We shall continue to expose the "Galphin." operations of the Cabinet "regardless of denunciations from any quarter," and especially from such a quarter! ised their share of the cysters. Mr. Boreland said that he would not be satisfied.

House .- The Census bill was passed with an amendment in favor of 133 members. The California bill was then debated until the house adjourned.

NEW YORK, May 9-2 P. M. The Niagara reached this port to-day, also the British Queen from Hamburg. .

ENGLAND.—The weakness of the present government appears to grow more apparent. Sir Rob't, Pecl, as is stated, waited upon the Queen, and immediately after upon the Duke of Wellington.

A correspondent of the London Chronicle says the only subject of interest to the people of France at the present moment is the elections. As far as the character of the returns can be calculated upon they are decidedly in favor of Eugene Sue. The city appears to be five-sixths for the democratic candidates.

GREECE.-The mission of Barron Gross from the Fronch Gevernment has, it is said, proved a failure. Admiral Parker still retained possession of the Greek vessels. The difficulty with England was as far as over from settlement.

It is said that Prussia is seeking an alliance with Denmark, and she has this object in view to avail herself of an opportunity to withdraw from the Schleswig dispute The Dutchess has entered upon an independent negotiation for peace. Prussia has left them to their own resources.

TURKET AND AUSTRIA .- The difficulty between Aus ria and the Porte has been settled. The Porte has sent autograph letters to the queen of England and the President of France in acknowledgment of their friendly aid in the extradition question.

Russia.-The troops are said to have commenced to evacuate the Danube provinces.

Evening Report.

Washington, May 9.
Senste.—A number of memorials were presented among which was one by Mr. Dickinson, from the Merchants of the Atlantic cities praying for a return of duties. A resolution was offered to inquire what steps the Secetary of State had taken in reference to the complaint of the heirs of Kossiosko against M de Bodisco.

Mr. Walker rose to explain. He said the Secretary treated the memorial contemptuously, and that the conduct of M do Bodesco was outrageous.

Mr. Berrien said he thought the remarks of Mr. W. vere out of order. Mr. Shields approved of Mr. W.'s remarks, and Mr.

Footo was very severe on M de Bodisco. The resolution was adopted. House .- Various reports were presented. One of which was to amend certain acts giving territorial gov-

ernments to Oregon and Minnesota. Mr. McWillie was substituted in the place of Judge

The Steamer Ningara brought a large mail, and addiional news. She passed the Europa going up to Liverpool as she came down the channel on the 28th ult. England.—The English papers are circulating various umors of an anticipated change in the ministry, but very little appears to be known with any certainty on the subject. The elevation of Sir Robert Peel to the Peer-

age is hinted at. The new steamship Asia arrived at Liverpool from the Clydeson Friday, she will sail for Boston on the 18th. The prospect for the crops throughout the United King-

doms are said to be promising. W. N. Wadsworth, the most distinguished of the modern poets, died at his residence at Rydal Mount. He was born in 1770.

The National Reform Association held a conference in London on the 25th; 216 delegates were in attendance. A letter from Rio published in the Post, gives a fear ful account of the Yellow fever in that city. It came by the Grey Engle, to Philadelphia. It states as follows .-On Monday evening of this week, the remains of Maj. S. F. Morgan, of the U. S. Legation, and of the only son of Gov. Kent, U. S. Consul, were buried at the English Cometry, at Galvana. At first, Danish, German and other shipping suffered most, but in a short time it spread to the American and English. There have been times for a week at a time, that there were not seamen enough to map half of the vessels in the harbor What number of scamen have died here during the pas few months, I have not yet been able to learn, but it must be a great many. California vessels from Europe, and America stopping here, have suffered much for a longtime. The deaths throughout the town amount to be

OPINION OF THE PRES:

[From the Cincinnati Commercial, Oct. 31.

DAVIS' PAIN KILLER.

We call the attention of our readers to the advertisement of this great remedy for the most instant refler of pain. No medicinal preparation with which we are acquainted, appears to possess such power for the extinction of prin. No preparation has ever become so popular in our community, or created such a sensation in the public mind through the section of the country where it has been introduced and become known.

It will be seen that some of our most prominent citizens, and business men, strongly recommend it to the public, as an article of "durant ARRIT AND VARTUS," and that they never knew any medicine to become so deservedly popular in so short a time.

[From the Cincinnati Dispatch, Oct. 31.]

DAVIS' PAIN KILLER.—Whatever may 1c the prejudices entertained against a great many patent metheines, we can ourselves bear withing testimony to the efficacy of this article. We have seen its magic effects in soothing the severest pain, lug great many cases, and know it to be a good article for the uses and purposes to which it is devoted, and even in cases where it may not prove luffilible, it posesses the rare virue of doing no mjury.
