Death Struggles of Nativism.

A Nativo American State Convention met in Philadelphia on Thursday, the 27th ult., at which eleven counties were represented by 127 delegates-Gro. W. FARR, Esq., in the chair. A resolution was offered that "it is inexpadient at the present time to nominate State officers," and was adopted by a vote of 54 to 50. The convention then adjourned.

The August number is on our table. The plates are "The Christian mother," "The Lover of the Angels," "The Lally of Rosedale," all steel engravings with a plate of the fashions-23 engravings and 31 centributors. It is altogether a rich number.

IT A Washington correspondent of the N. Y. Trihune says that the Senate will remit to President Fill-MORE all nominations ponding, and not disposed of before that body. We understand from good authority, that this road will be constructed upon its present located route. Propositions, however are being made to unite the N. Y. and on the other. Progress of the Compromise.

WASHINGTON, July 15. After the usual morning business, Mr. Clay called up the Omnibus Bill. Mr. Butler said he should claim, not

The Bill and the amendments heretofore made were reported to the Senate, and the amendments were sevrally concurred in.

Mr. Seward renewed his motion to amend the bill so as to apply the Wilmot Proviso, which was rejected. Mr. Bright explained the reasons which would lead him to vote against this amendment. He expressed his nope and conviction that the motion would be rejected by a large vote. He repeated that he was of a large majority in the Senate who were in favor of the admis-

sion of California: but he deemed it possible to secure

with California other matters of vital importance. Mr. Benton proposed an amendment so as to provide the Northern boundary of Texas as follows: Beginning at the point in the middle of the deepest channel of the Rio Grande, where the same is crossed by 102 deg. of North latitude, and West from that meridian of Greenwich; thence North along that longitude to 34th deg. North latitude; thence Eastward to the point at which the 100th deg of West longitude crosses Red River .-Mr. B. proceeded to address the Senate in support of his amendment, which he said was designed to avoid a dismemberment of New Mexico such as was involved in show that the committee's bill does involve such dismemberment. The proposition of the newspapers of both parties are filled with surmises about berment. The proposition of the committee was to amthe probable future course of President Fillmore. WASHINGTON, July 16. SEVATE .- The Omnibus bill was again taken up .actes Court House in Eric, on Tuesday evening, the 16th of July, Mr. Busk spoke in reply to Mr. Benton, relative to northern boundary of Texas, arguing in favor of the title of Texas to the Rio Grande.

Mr. Clay defended the action of the Committee on the subject. After rebuking Benton for an intimation made transks in relation to the sickness and death of Mr. Riddle, as by him yesterday that the sum to be paid to Texas was a scheme of auctioneering for votes for the rest of the bill. The true line of New Mexico begins at El Passo, running to the head of the river and thence to 42 degrees

Mr. Benton rejoined, contending that Mr. Clay had to Mr. Clay's rebuke of language uttered by him yesterlenging any one to call him to order now for repeating it.

Mr. Clay called Mr. Benton to order, for saying that the crime of the Bill was that it nuctioneered for votes to pass itself.

Mr. Webster rose to address the Senate upon the general merits of the bill, but veleded to a motion to postnone the subject till to-morrow, which was agreed to. Mr. Webster gave notice of a bill for the erection of a monument to Gen. Taylor in the Congressional burying ground. Adjourned.

"A ward to the wise is sufficient."

I AM constantly receiving and setting the cheapest Goods in town, and would briefly announce another arrival this morning of Dress Goods, which the Ladies will find beautiful indeed, and in price as far below anything in Eric, its the pulling from some quarters proves short of convincing proof of cheapness to purclassers.

It is not mp purpose now to spend time and room with a catalogue of prices. I will give prices to the full satisfaction of all as I sell the goods. I cannot refrain, however, from remarking on this subject, having recently observed some swelling advertisement quoting Lawns at 5 cents, and some diling advertisement quoting Lawns at 5 cents, and some other articles in proportion, that doubtless all who read this advertisement, and have just been buying of ine full yard wide and perfectly fast colored Lawns at 6 cents, are satisfied on the score of my being undersold at the rate of iffects per cent by any one in this city. If in its teen they are better satisfied that I am selling 30 per cent cheaper than some at least. But I confine not this matter to Lawns, of Ginghams, or Prints. Let it be re be distinctly understood, that within the range of a DRY GOODS trade, from a paper of Needles to a Three Ply Carper, I am "posted up" and prepared for any congetation in Eric, whether from those long in trade, or from those of mushroom growth and "have a little yet to learn" in the Dry Goods department. Puff and blaze away gentlement, I am always on hand. Customers, the goods are here: the quantities sufficient are here—the BARGAINS are here: word or two again soon.
