## Democratic Congressional Convention

The Democratic conferees of the 23d Congressional District met at the Court House, in Warren, on the 21st day of August, 1850.

Murray Whallon, Esq. of Erie co., was chosen Bresi dent; John Hastings, of Jefferson county, N. L. Dike, of Potter, and R. Brown, of Warren co., Secretaries. The following named delegates presented their creden-

tials, and took seats in the Convention: Clarion-Robert McGiunis, Jeremiah Berlin, Wm. M Abrame.

Eric-B. F. Sloan, Isanc R. Taylor, Murray Whal-

Elk-Jas. L. Gillis, W. P. Wilcox, David Thayer. Jefferson-John Daugherty, Wm. W. Wise, John Has-

tings. MKean—Jonathan Marsh, J. J. Marsh, John Campbell.

Potter-H. J. Olmstend, Miles White, N. L. Dike. Warren-John Judson, R. Brown, Wm. Brown. Delegates from the county of Forest asked for scats in the Convention, and on motion of Mr. Thayer, of Elk county, that they be admitted, the motion was lost. So they were not admitted.

On motion of Mr. Wilcox, of Elk co., the Convention proceeded to name candidates for nomination to represent this District in the next Congress.

The Convention then proceeded to ballot, and on the thirteeth ballot the names of Charles Lyman, of Potter co., and Daniel Dobbins, of Erie co., were withdrawn, and on the fourteenth ballot it appeared that Carlton B. Curtis, of Warren county, had a majority of all the votes given, and he was declared duly nominated as the domocratic candidato for Congress in the 221 Congressional Dutrict of Pennsylvania.

On motion of Mr. Wilcox, of Elk, a committee of se ven were appointed to draft resolutions expressive of the sense of this Convention. Whereupon, Messre. Wilcox, of Elk; Sloan, of Erie; Hastings, of Jefferson; White, of Potter; Judson, of Warren; Berlin, of Clarion; and Wise, of Jefferson; were appointed.

On motion of Mr. Sloan, of Erie, the President appointed Messrs. Sloan, Gillis, and McGinnis, a committee to wait upon Mr. Curtis and inform him of his nomination, and solicit his acceptance of the same.

The committee on resolutions, through their chairman, reported the following, which were adopted by the Convention. Resolved, That this Convention approves of and ro-af-

firms the resolutions adopted by the late Williamspor Convention, and they hereby pledge to its nominces a cordial, hearty, and united support.

Resolved, That we present in Carlton B. Curtis, our candidate for Congress, a faithful and unflinching domocrai, a man of talent and energy of character, and one who will represent his constituency with honor to himself and satisfaction to the district, and we look forward to his triumph election with unshaken confidence.

Resolved, That this Convention entertains undiminished coufidence in the ability, patriotism, and political integrity of the Hon. James Thompson, present member of Congress from this District.

Mr. Sloan, from the committee appointed to wait on Mr. Curtis and solict his acceptance of the nomination, reported that they had discharged that duty, that Mr. Curtis accepted the nomination, with his thanks to the Convention for the honor they had shown him.

T On motion of Mr. Gillis, thanks of the Convention were tendered to the President for the able and impartial manner in which he had presided over its deliberations.

On motion, it was Resolved, That the proceedings of this Convention be signed by the officers and published in all the democratic papers in the District. MURRAY WHALLON, Pres't.

# STATE MUTUAL FIRE INSURANCE CO.,

STATE MUTUAL FIRE INSURANCE CO., Of Barrisburg, Pa., INVITE the attention of the public to the principles upon which I the business of the Company is conducted. The main object of the Company is to afford Merchants and Farmers an opportuni-ty of procuring safe insurance upon their projecty at a moderate cost, and structly upon the Mutual principle. In order to preserve this principle, the Directors have adopted the popular, safe, and equitable plane of classifying their risks, and have divided them into two classes. The first class is caclusively a Farmers' com-pany, in which no property more hasardous than dwelling houses, out houses, and personal property therein will be insured. The second class is the Merchants, Company, in which may be insured the safe kinds of property. The Company deen it indispensable to decline all risks which are commonly denominated Extra llazardous; believing that if such risks are permitted to be mingled with those of the merch-ant and farmer, the premiums are likely to be disproportionnes to the risks,-canceling from those whom insured upon, the least

nt and farmer, the premiums a o the risks, --exacting from thos e who are insured upon the least to the russ,-exacting from those who are insured upon the least hazardous property, more than a just and equal contribution to the expense of insurance. The Policy of each member will des-ignate the class of risk with which he is associated, and the Cash Fremiums and Deposite Note of each Class. and the assessments for which members may become liable, shall be held and assessed to pay the losses occurring in the respective Classes, to which they belong, and no other, and the general expenses of the Com-pany shall be apportioned to each Class according to the am-ount insured in each.

ount insured in each. Insurance may be made for from one to three years, in the Mer-chante class, and one to five years, in the Farmers' class. The very extraordinay success of the Gompany in accumulating a large fund in each premiums, has placed the financial stability of the Institution beyond any probable danger. The dividends which have been paid on expiring Policics in like companies, prove that the actualexpense of Insurance is very trifing, in a Mutual Office which is limited to the anfer classes of risks.

Mangom. Indiana followed in the same track, and gave us a large majority in both branches of the Legislature and in the Constitutional Reform-Convention. Iowa then responded to the call, and followed suit with two members of Congress, a Governor, State officers and the Legislature. In Missouri, notwithstanding the division in our rank, the popular vote is all on the side of the Democracy, while the whigs can only rejoice over what they have accidentally gained. Their triumph will be but transient. In Kentucky we have scared the whigs into fits, and while we cannot rejaice over a majority of the Legislature, we lcan, as the Gazette would say, over "a large plurality"-i. e. "more than

Conjugal Infidelity-Crual Rascality,

one."

A math, named Excs Honns, of Belville, Canada, abont two years ago, forsook his wife and three children, and came to live in Syracuse, with another woman. For the past year he has been writing to his wife from time to time, penitent letters, filled with assurances of affec-tion for her, and carnest entreaties to her, to come with their childrent and earner on teaches to need to be only with their childrent and again livs/ with him in peace. WAfter the receipt of several such letters, she came to this city to see for herself if his circumstances and conduct were such that she could return to him. Hobbs received her with great kindness, showed her a house he was building for his family; and reiterated his persuasions that she would again become his companion. She yielded, went immediately back to Canada, and

found her husband in his new house, but with him was the wretched woman, Alice Simmons, for whose sake he had violated his marriage vows, and abandoned his fami-15. He promised, however, that he would send Alico away forever, as soon as he could raise money sufficient to pay her expenses. In this state of distressing suspense, Mrs. Hobbs was kept, until the motning of the 10th of July, when Alice Simmons left the house, avowedly for Canada.

A fow hours after her depärlure, Hobbs came to his wife, and persuaded her to dress up the little boys, that he might take them to see a show of animals then in the city. To gratify her husband and children, she complied, and since then has neither of them. To make her condition here more intolerable, and to

eggivate his own wickedness, it was found that Hobbs had sold the house in which he left his wife, and had taken the money off with him .- Syracuse Journal.

This Hobbs, spoken of in the above, was pointed out to us on the street three or four days since, and we then thought we would expose his whereabouts in this number of our paper. But the agents of the law were then spen his track. He was artested on Thursday at the instance of Mr. D. S. Gcer, of Syracuse, and brought before B. O. Hulbert, Esq. Here he offered to compromise and give up the children, which was done, and he was there liberated. He had been working, while here, in the above establishment of Messra. O. & C. Miller, on State Street.

#### A Wonderful Discovery.

The Gazette has made as wonderful a discovery as the boy that ascertained from mailfematical demoustration that he had exactly five toes on one foot. It has ascertained that there is a "large plurality of whige in the Legislature" of Missouri! If the Editor had extended his researches a little farther, he would have found also that his party has a "large plurality" in North Carolina, Indiana and Iowa, and a very small majority in Kentucky! Wonderful man, our cotemporary; aimost equal to Paine!

ANOTHER SCIENTIFIC WONDER:

ANOTHER SCIPNTIFIC WONDER: **PEPBIN**, **An Artificial Digestive Fluid, or Gastric Juicel** A GREAT DASPEPSIA CURER. Prepared from the RENNET, or the fourth Stomach of the or, af-ter directions of BARON LURDIG, the great Physiological Chem-iet, by J. 8. Horeuros, M. U., No. 11, North Eighth Street, Philadelphia, Fa. This is a truly wonderful remody for Indigestion, Dyspepsie, Jaundice, Livor Complaint, Constipation, and Dubility, curing after Nature's own method, by Nature's own agent, the Gastric UCPHaif a teaspoonful of this fluid, infused in water, will di-gest or dissource Fiest Pounds of Rodet Blef in about two Avers, out of the stomacti. DIGESTION.

The stonactic bill provide of Hoad life in doubt two work, out of the stonactic DIGESTION. DIGESTION is chiefly performed in the stonach by the aid of the stonach when freely exudes from the inner could of that organ, when in a state of health, called the Gastric Juice. This fluid is, the Great Soless J flat Food, the Purfying, Preserving, and Stimulating Agent of the storach the Jurce Without, it there will be no digestion-no conversion of food into blood, and no nutrition of the body hut rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injure is somach produces no good Gastrie Juice, and hence the disease, distress and fichility which ensue. PEPSIN AND RENNET.

PEPSIN AND RENNET. Parain is the chief clement, or great digesting principle of the Gastric Julee. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stom-ach to digest itself, or cat itself up. It is also found in the som-ach of animals, as the ox, call, dec. It is the material used by far-mers in making cheese, sailed Remet, the ciffeet of which has long been the special wonder of the dairy. The carding of milk is the first process of digestion. Remet possesses astonishing power. The stomach of a calf will curile userly one thousand times its own weight of milk. Baron Liebig since that, "One part of Pepsin dissolved in sixty flowand parts of water, will di-gest meat and other or Pepsin. To show that this want may be perfectly supplied, we quote the following SCIENTIFIC EVIDENCE,

SCIENTIFIC EVIDENCE.

SCIENTIFIC EVIDENCE, BARON LEEBO, in his celebrated work on Animal Cheinistry, says: "An Artificial Bigestive Fulud may be tradily prepared from the mucous membrane of the stomach of the Calf, in which vari-ous articles of food, as meat and eggs, will be softened, changed, and digested, just in the satt maner us they would be in the har-man stomach." Dr. PERERA, in his famous treatise on "Food and Dict," pub-lished by Wilson & Co., New York, page 38, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereria. Dr. Jour W. BRAPER, Professor of Chemistry in the Medical College of the University of New, York, in his "Test Book of Chemistry," page 380, says: "It has been a question whether arti-ficial digestion could be performed—that it is now universally ad-mitted that it may be."

Helial difference could be perior insurant to its now universary an-inited that it may be." Professor Dowarusow, of Philadelphia, in his great work on hu-man Physicology, deroids more than filly paiges to the examination of this subject. His experiments with Dr Heaumont on the Gas-tric Julee, obtained from the living human scanach and from an-imals are well known. "In all cases," he says, "digestion occur-red as perfectly in the artificial as in the salwal digestions."

As a Dyspectal as in the satural digertons." As a Dyspectal Currer, Dr. HOUGHTON'S preparation of Parsis has produced the most markelous effects, curing cases of Debility, Emsciation, Ner-event Decides, and Dyspectic Consumption, multi ordet to be on the very verge of the grave. It is impossible to give the defails of ca-ses in the limits of this advertisement—but authenticated certifi-cates have been given of more than DEMANG ABLE CURRENT. 200 REMARKABLE CURES!
