Mesers, Lester, Sennett & Chestert, Gent.—We are using your improved modern't tooking Stove, called the "Bang Un," and after a fair trial I can recommend it as superfor to any stove in use in this section of the country. Among the most prominent advantages of this stove, is the commodenances of the Oven, it being sufficiently capacious for the largest family, and also in a saving of fuel. I must astisted that one half, the fuel necessary for any stove we have ever used will amply supply this. Take it all in all I think it difficult to improve?

cures sery many of the most strongly marked and developed cases of PUL-nonary Consumption—real, underliked cases of ulcerated and diseased LINGS—such nogeness cases as were never before cared by any other modeline. So niterly hypotess were some of the ufficied persons, as to have been pronounced by physicions and friends to be accusately private. Some, who had their burnicabiles made, have been cured, and yet live; others, who it was shirt weald not live another day, are now as well and learly as they ever were.

It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call BRANT'S INDIAN PURIFYING EXTRACT.

The Balsum differs from the Extract, because it possesses several medica-tions which are peculiarly adapted to, and are exentially necessary for the COUGHS AND CONSUMPTIONS. and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the

This Balsam cures this case of Compa and Con-sumption out of Tan, after all other remedies have failed to do good.

Thousands of Consumptions and Chronic Comple abundantly prove its unfailing efficacy in such diseases, and its undoubted carative nower, and soothing, heating properties, in the following, complaints and diseases, viz.: Spitting of Blood, Bleeding at the Lungu. Pain in the Breast and Side, Night-Sucaix, Nervous Complaints, Priprintles of the Bleest, Choice a Infantum, Durentery and Summer Complaints in Children and Adults, and all Female Weaknesses. For the particulars of this case, and the repectable and undoubted proof of all the circumstances and facts, we refer to our Pampulers.

About 2000 acres are situate in the northwest corner of the country, on the Lake shore and Olio line, in a country unsurpassed for preducing Wheat and Fruit. The town of Conneaut and Harhor, with a diviving Lake trade, is located two filles west of the Grant, furnishing a ready market for grown and other country produce.—

Springfield is four miles, and the flourishing borough of Girard, on the Pitteburgh and Eric Canal, is ten miles east of the lands—

Marketing, and especially grain, at these places, is also in demand at fir pieces. The Ridge Road, running along the Lake from Bufflo to Cleveland, passes through the middle of the tract, and the Railroad connecting New York city with the great west, is now being located across the same.
