The scrofulous patient, covered with ulcers, contracted sinews, and bones half carious has been restored to health and vigor. The scrofulous patient, covered with ulcers, loathisome to himself and his attendants, has been made whole. Hundreds of persons, who had grouned hopelessly for years under entaneous and glandular disorders, chronic theimatism, and many other complaints springing from a derangement from the secretive organs and the circulation, have been raised as it were from the rank of disease, and now, with regenerated constitutions, gladly testry to the efficacy of this inestimal is preparation. The testimony of those who have be neured by its use, with their residences, has been published from time to time; and were it decirable, a mass of the most overwhelming techniony could be brought forward, proving most conclusively its inestimable value. "TRUTH IS STRONGER THAN FIGTION."

The attention of the reader is called to the following astonishing cure, afficied by Sandy' Sariaparilla.

This is to certify that I have a colored woman who has been afflicted for the last five years with Scrofula, and all the remedies I used had no effect in arresting the progress of the complaint, on the contrary, she constantly grew worse, and after expending between \$70 and \$80 with bhysicians, besides using other remedies without success, till the disease had eaften away, the cartilage of her nose, made its appearance on various parts of her body, and had finally commenced its ravages in the roof of her modified. In this decadification, with the prospect of death staring her in the face, I stated her case to Dr. Dresway, agent for ands Sarsaparilla, in Newtern, N. Cs. by whom I was addised to use that article; and to my surprise and that of my neighbors, to whom her case was known, after using four and a half batties she was restored to perfect health, and that in the space of three weeks, and was able to work in two weeks from the time she countered taking it.

I was attended for eighteen months by a regular and skilful physiciam, essisted by the advice and courrel of one of the mestable mid experienced surgeons, without the least benefit whatever. All the various nethods of treating cancer was restreed to for five works in succession my breast was burned with causife three they and any and to six it was adily syringing with a weak solution of mitre axid, and the eavity or maer nicer was so large that the bid over an onuce of the solution. The doctor probed the ulser and examined the bone, and said the disease was advancing rapidly to the times, and if it did not get speely relief by medicine or by an operation, the result would be fairst. I was advised to have the breast laid open and the bones examined; but finding no relief from what had been done, and celling two rapidity getting worse. I almost despand of recovery, and considered my cast acardy hopeless.

Seing various testimenials and certificates of core by the use of Sands. Sansgarilla, in cases similar to my own, I concluded to try after bottles, several of which were used, but, from the long seemed character of my disease, produced no very decaded change, considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest oppearance of a return. Harrefore pronounce myelf with, and the cure entirely effected by Sands' Sarsparilla, as I took no other medicine of any kinddaring the line I was using it, nor kare I taken any ance.

After taking the Sarsaparilla a shorttime, my heatiff improved, and my threat is now well, I sim as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My threat has been well also a three months, the cure of which has been effected entirely by the use of your Sarsaparilla.

Hold Up! Walk Up and see the Bang Up!!

THE public are invited to call at the Eric Steam Foundry, or at our Store, and examine the last Paragon of Cooking Stores, just got out with an uncommon large Oven, high enough to bake a large Turkey on its feet, while six loves of bread are baking around it. The "noise and confusion" it has made East, has induced the characteristic name of BANG UP. One who lately saw almo toaces of beautifully laked bread, taken from the oven at one time, "was reunided of the capacity of a small pig which drank two quarts of whey in a draught, and dad not then fill the measure which contained the whey into four inches." The great superiority of This Punitum over Sansaranilla and all thee, similar medicines, may in some measure be understood from the ollowing facis: First-because it not only possesses, as portions of its redication, the Pung Essence of

Sarsaparilla, Yellow Dock, Cherry and Sassafras Barks,

more strongly, more powerfully concentrated, and larger quantities of each of these purifiers in each bottle of it than can be found in any bottle of medicine, called Extract of Saraparitie:

which show that a bottle of Hrant's Purifler, will last from Tweive to Sixteen Days longer than a bottle of Sarsaparilla; and if its daily medical efficacy (in small doses) be as Pourying and Healing as the daily flarge doses) of Sarsaparilla, then it Proves that One bottle of this Purifier is worth Tayee, Four, or Fire times more than a bottle of Sarsaparilla.
