ERIE DAGUERREAN GALLERY. CHERMAN & LEWIS are happy to annound to the Ladies and Gentlemen of Eric, and the friends of science and art in the region round about, that they are prepared to take Likenesses of a superior quality at their recons, over Middleton & Murphy's store three doors east of Brow us little!

There are seviral reasons why persons can obtain better piemers at our rooms than at my other in this city, or in this part of the country. One is,

WE HAVE THE BEST LIGHT! Skylight and side light COMBINED—each correcting the faults of the other, and producing a natural and most beautiful effect.—
TRY IT, WHOEVER IS NOT SATISFIED WITH PIC-

the other, and producing a natural and most leautiful effect.—
TRY IT, WHOEVER IS NOT SATISFIED WITH PIC.

Another reason is, we have the best apparatus. The importance of this will be obvious to any one.

We shall not offer those who favor us with their patronage, the flat, insipid, corpse-like things which many who call themselves artists present to the public. Neither shall we offer those dark, gloomy images which human beings are sometimes told resemble themselves; but clear and accurate Likenesses, possessing the most beautiful blending of light and shade, richness and depth of onc, remarkable distinctures of features, true expression of the eye, boldness of relief, distance and invisibility of back ground, delicacy of finish, softness, transparent and artistic effect.

Remember there is no room of the kind near here which has the facilities of this. It is designed to be a permanent establishment, NOT TO BE EQUALED is our motto. W. H. SHERMAN, Eric, Feb. 2, 1850.

Rold UP: Walk Up and see the Bang Up!!

The public are invited to sall at the Eric Steam Foundry, or at large Turkey on us feet, while six loves of bread are baking around it. The "noise and confusion" it has made East, has induced the characteristic name of BANG UP. One who lately saw nine loaves of beautifully baked bread, taken from the oven at one time, "was reminded of the capacity of a small pig which drank two quarts of whey at a draught, and did not then fill the measure which contained the whey into four inches." See certificates.

Eric, Feb. 2, 1850. LESTER, SENNETT & CHESTER,

Messrs. Lester, Sennett & Chester: Gent.—To your inquiry
whether the "lang Up" Cooking Stove purchased from you during the present month, has given satisfaction or not, I have the
pleasure of answering that said stove has met our fullest expectation in every particular, and would not be exchanged for any other pattern now in use of which I have know ledge.

Very respectfully, your obedient servant.

A. SCOTT.

Messrs. Lever, Scancit & Chester; Gent.—We are using your improved modern Cooking Stove, called the "Bang Up," and after a fair trial I can recommend it as superior to any stove in uso in this section of the country. Among the nost prominent advantages of this stove, is the commodiousness of the Oven, it being sufficiently capacious for the largest family, and also in a saving of fuel. I am satisfied that one half the fuel necessary for any stove we have ever used will amply supply this. Take it all in all I think it difficult to improve.

FAIRBANKS! SCALDS.

The well-carned reputation of Fairbanks' Scales has induced the venders of imperfect and worthless halances to offer them as "Fairbanks' Scalest" and purchasers have thereby, in snany cases, been subjected to fraud and imposition. The subscribers have no controversy with hoborable competitors who transact business in their own names, but regarding the perpetrators of the shove fraud as pursuing a cource alike unjust and dishonorable, they take this measure to caution the public of their impositions. The subscriber returns his thanks to his friends for past favors and especially to those who have with warm hearts and open hands patronized him in former years who, in prosperity, in adversity, in tribulation and oppression, showed by works of their father which is in heaven acted on the principle that it is no more blessed to give than to receive. He still wants the patronage of his friends, and will be thankful for the smallest favors in his line. He has nothing to promise them in return at present. He could pay them a fashionable compliment, but it would be like feeding them on husks. May they long live to gladden the heart of the orphans, and wipe the tear of affliction and strict from theeys of the opparessed widow.

He believes that he that numbers, the hairs of the head and does not allow a sparrow to fall without his notice, will enable the systeriher to show his gratitude by his works. Then he would shows to work the farm he would show to be miling to say in the language of good old Elmon, let from the years of the part in prace. Some few persons in former days have complained of blastyle of expressing himself. He regress exceedingly that he should be so unfortunate as to express himself so as to offend the nost sensitive, delicate and chaste gar. He would not wish to be understood that he is complaining because others differ from him. They have a good a right to differ from him as he has to differ from them. Shortly expected providence permitting, an assortment of Christmas and New Year Books.
