A Bor Suar .- We regret to learn that a boy by the name of Franklin Peck, aged about fifteen years, and a resilient of Bazetta, was shot one days last week, and almost instantly killed. The circumataices are substantially these:-He was riding in the back part of a small wagon driven by his father, and held in his hand a loaded gun. While going along, the horse gave a sudden start, which caused the boy to fall out of the back of the wagon, who draw after him the gun with the muzzel towards his fire ist and the lock downward, which came in contact with the back cross board of the wagon, through which contact the gun was discharged, and the contents lodging in his side or breast. SENTENCE OF DEATH FOR RAPE. - The Supreme Mass., at a jury term held at Lenox, in the of Berkshire, last month, pronounced sentence of death against an Irishman by the name of Bulman, for rape upon a defenceless orphan girl of eighteen years of age. The trial occupied four days .-After being out an hour, the jury returned a verdict of o ilty, and the court pronounced sentence of death against the prisoner.

(Captain Harrington, his boy, and a-man, flat bottomed boat fifteen feet tong and four feet wele. They had been on shore, and in returning to their schooner at the mouth of Duffin's Creek, were driven to sea by a norwester. Captain Har rington made the boy and man lie down in the bottom of the frail craft, while he steered her before the winds and waves for eleven hours, running across the widest part of the lake, fifty miles, and landing on the American shore. He took the nearest steimer for Toronto, and the next day appeared at Duffin's to claim his schooner, much to the tom-hment of his British neighbors, who had no Joubt he had perished, as they saw him borne off on the raging main. Graham's Magazine.

The November number of "Graham" is a gem .-It would not be too much to say that it is one of the best of the kind ever issued from the press. This number contains the Prospectus for 1851, which is to commence with a magnificent January number, and is preceded by extensive and ample preparations, both in this country and in Europe, to render the work for the coming year one of unrivalled benuty and excellence. What the publisher promises can be relied upon: hence we shall look for something a "leetle ahead" of the magazine line for 1851.

READ AND BE CONVINCED. Chas. Robinson, C. L., Easton, Md., in a letter to Dr. Jackson

Jan. 9, 1850, said—
"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease." Tenth Legion," published at Woodstock, Va., January 10, 1250, said— "A GREAT MEDICINE."

"A GREAT MEDICINE."

"We have uniformily reframed from recommending to the public any of the various Patent Medicines of the day, unless therefolgily convinced of their value. Among those we consider worthy of notice is the German Hitters, invented by Dr. Hoogland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last summer, a soft of Mr. Abraham Craftil, of this county, was very seriously afflets with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the fitters, and after using it, was so much relieved of his discressing malady, that he procured another bottle, and a restored entirely to health."

READ FURTHER A FEW FACTS.

Judg M. M. Noah a gentleman with great scientific and literary attainments, said in his "New York Weekly Messenger,"
January 6, 1850.

"Die. Hooflaste's German Berte es.—Here is a preparation which the leading presses in the Union appear to be unanumous in recommending, and the reason is obvious 4 is made after a pre-cription farnished by one of the most celebrated physicians of modern times, the late Dr. Christopher Wilhelm Hoofland, Profesor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently recommended it in therefore a melletine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Laver Complaint, Dyspepsia, Debility, Vertigo, Aridity of the Stomach, Constipation, and all complaints arising from a discreted condition of the Samach, the inversand the meetines. Note Philadelphia papers express their conviction of its ewellence, and several of its editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only meating the attention of our readers to the present proprietors, (Br. C. M. Jackson's) preparation, but in recommending the article to all afficied?

MORE EVIDENCE.

The "Philadelphia Samaky Gazzitz" the best family neways.

The "Philadelphia Saurday Gazette," the best family newspa-er published in the United States, the editor says of DR. HOOFLAND'S GERMAN BITTERS.

PRE HODELAND'S GERMAN BITTERS.

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage or our readers; and, there fore, when we recommend, Dr. Hoofland's German Butters, we wish to be distinctly understood that we are not speaking of the nogrums of the day, that are noised about for a bide period and then forgotten after they have done their guitty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty itself.

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last thre years, and the strongestletimony in its favor, is, that there is note of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this im dictine will cure Liver Complaint and Dyspepsia, to one can doubt, after using it as directed. It acts specifically upon the storach and livar—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be not readministered to remark any

CARTIN'S RING BOWS & SPAVIN

CARTER'S RING BOWS & SPAVIN LOTION.

We are receiving fresh proof of the efficacy of this article eyery day. Yesterday Mr. Illaton brought a friend into our store, and with tears in his eyes, implored him to try a bottle of it on his cole, assuring him that it would cure him up sound and well as ever he was; this he knew because he had used it with perfect success on onethy his own horses which was badley spavined. Mr. Stephen C. Lee absociate in this morning and stated he had only need about three fourths if a bottle, and his heres which he valued at \$100, was almost well. He had before which he had left would complete the cure. We are every day hearing reports of this kind about our Lotion, and with such facts starling him in the face, no man will hesitate to pay 30 ets for an article that will cure sound and well an animal worth or hundred times as much! Besure and ack for Carters Ring Boxe and Spavin Lotion—and lake no other. For sale at our Drug Store in in Erie, and by our agent throughout the county.

DIGESTION:

DIGESTION is chiefly performed in the sigmach by the not of a fluid which freely exides from the limit coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great Solreat of the Food, the Purifying, Preserving and Stimulating Agent of the stop ich and intestines. Without in there will be no digestion—no conversion of food into blood, and no nutrition of the blood, but rather a load, torind, painful, and destructive condition of the whole digestive apparatus. A weak, tall dead, or injuried stomach produces no good Gastrie Juice, and hence the disease, distress and definity which ensue.

natural Gastric Jucc uself."
Professor Deviations, of Philadelphia, in his great woronk human Physiology, devotes more than fully pages to the exalimation of this subject. His experiments with Dr. Beaumont on the Gastric Juice, obtained from the hiving human stomach and from animals are well known. "In all cases, the says, "digestion occurred as perfectly in the artificial as in the natural digestions."

As a Dyspopsia Curer,

Dr. HOUGHTON'S preparation of Parsix has produced the most marcelous effects, curing cases of Debitty, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this neivertnement—but nuthenfinented certificates have been given of more than

the lives or health of the afflicted, but frankly lay before them the opinions of distinguished men and some of the evidences of its succes, from which they cao judge for themselves. We structed by ledge ourselves to make no will assertions or false statements of its efficacy, nor will we hold out my hope to suffering humanity which facts will not warrant.

Many proofs are here given, and we solicit an inquiry from the public into all we publish, feeling assured they will find them perfectly reliable, and the medicine worthy ther best confidence and patronage.

Cates have been given of more than 200 RE MARKABLE CURES!

hence the disease, distress and debitity which ensue.

PEPSIN AND RENNET.

By rain is the chief element, by great digesting principle of the Gastrie Juice. It is found in great abundance in the solid parts of the hum in stomethater death, and sometimes causes the stometh to digest itself, or car itself up. It is also found in the stometh of animals, as the ox, caff, &c. It is the material was the framers in making cheese, called Rennet, the effect of which has long been the special wonder of the drity. The carding of malk is the first process of digestion. Rennet possesses astonishing power. The stometh of a call will cardle nearly one thousand times its own weight of malk. Baron lackg states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest ment and other fool." Discove I stomeths produce no good Gastrie Jaire, Rennet or Pepsin.
