CELEBRATED GERMAN BITTERS, PREPARED BY DR. O. E. JACK SON, AT THE GERMAN NEDICINE STORE, Wo. 120, Arch Stropt, Philadolphia.

Their power over the above diseases is not excelled, if squalled, by any other properation in the United States, as the cure sitted, is many cases after shifted physicians had feeled.

"A GREAT MEDICINE."

"We have uniformily refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notific is the German Bitters, invented by Dr. Hoffand, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very scrously affected with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing unlady, that he procured another 1 ottle, and is restored entirely to health."

The editor says, November 24th "We again call attention to the renoval of the German Medicine guare, the principle depot for the sale of Dr. Hoofkand's Ger meditine with great care. Those purchasing should call at his store, or see that his name is written upon the wrapper buside, and blown in the bottle, as imitations of all good articles are com-

"Bs. Hoorianus" Granan Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription farnished by one of the most celebrated physicians of modern times, the late Dr. Christopher Wilhelm Hoofland, Pro-tained to the University of Jens. Private Physician to the King of MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspa-per published in the United States, the editor says of DR. HOOFLAND'S GERMAN BITTERS.

DR. HOOFLANO'S GERMAN BUTTERS.

"It is seldom that we recommend what are trimed Patent Medicines to the confidence and patronage or our residers; and, there fore, when we recommend Dr. Hoofland's German Bitters, we wish to be distinctly understood that we are not speaking of the nostriums of the day, that are noised about, for a brief period and then forgonen after they have done their guilty race of instellief, but of a medicine long cetalinised, university privacl, and which has met the hearty approval of the Faculty inself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its facer, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other mostrium combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet no one can doubt, after using it as directed. It acts specifically upon the stormen and livar-it is preferable to calonic in all billions diseases, the office is

Dr. Sinnon's grant work, the "Chemistry of Man," (Lan & Blanchard, Phita, 1846, pp. 201-2) says: "the discovery of PEP-SIN terms a new era in the chemical history of Digestion. From recent experiments we know that food is descrived as rapidly in an untificial digestic fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Profesor Devousor, of Philadelphia, in his great woronk homan Physiology, devotes more than fifty pages to the examination of this subject. His experiments with Dr. Beaumont on the Gastric Juice, obtained from the living human stomach and from animals art well known.
