The President's Mossage.

A good deal of our space this week is occupied with the first message of President Fillmore. All will read this decument, and all will form an opinion of its merits, nevartheless we cannot let it go forth without having our say concerningst. As a whole, and taking into the account that it is from the pan and professes to explain the views of a whig, we like it. Its brevity is its first recommendation. Its easy and polished diction, and the anpretending manner its author clothes his ideas with words, is truly refreshing. There is nothing of the "rough and ready" school of his "illustrious predecessor" about it. "All the world and the rest of mankind" can understand just what the President means, and just how far he intends to carry his views into practice. On the question of the Tariff, the President is as "sany as could be expected." While his whigery forces him to recommend a revision of the present law, all can see that he does se without the least idea such recommendation will be heedad. Indeed, it is plain to be seen that the President will not "break his heart?" If the present tariff continues to "ruin" the country for the next four years just as if has for the past-i. e. just before an important election. The ·higher-law" interportation of the duty a citizen or as officer owes to the constitution is rebuked in the most emphatic language. He does not tell the people, like some of his supporters, that the laws need not be obeyed, or that the Constitution, in some of its requirements, "is a dead letter." On the contrary, he says he "regards all its provisions as equally binding."--- in all its parts it is the will of the people, expressed in the most solemn form, and the constituted authorities, are but agents to carry that will into effect. Every power which it has granted in to be exercised for the public good; but no pretence of utility, no honest conviction, even, of what might be expedient, can justify the assumption of any power not granted. The powers conferred upon the government and their distribution to the several departments, are as clearly expressed in that sacred instrument as the imperfection of human language allows;" and he deems it his first duty, "not to question its wisdom, add to its provisions, crade its requirements, or nullify its commands."-Such being the President's views of his duty to the Constitution and the Law, it follows as a netural sequence that he is for maintaining the compromise measures adopted at the last session of Congress in all their parts inviolate. To them he confidently looks for a final setthement of the slavery question, and we think he will nut be disappointed. The "sober second thought" is working miricles in the public mind. It is true, those whose vocation it is to agitate still cry aloud, but it is plain the people are not with them. It is getting to be decidedly unpopular, as well as unprofitable with the whige, while the Democracy, as every body knows, and no one better than Mr. Fillmore, were always right.

Erie and Meadville Plank Road.

We learn from the Crawford Democrat that the Meadville and Edombore Plank Road, has been let, a great portion of it, to responsible men, and will be pushed forward to completion at an early day: The portion not let is the least difficult part, and when the balance is fmished, it will require but a short time to put it in travsling order. From these indications we can safely prethat we shall have a plank road communication with Meadville within a year. The first five miles of the Erie and Edenboro road, with which the Meadville read connects, will be completed within the next ten days. Erie and Wattsburgh Plank Road.

. We are pleased to announce that this road, which, for some time, appeared to Jag behind its cotemporary enterprises, will be commenced immediately, and the entire length of about 17 miles completed within a year .-The Directors have let the whole road to Messrs. Jackson & Norton of this city gentlemen of well known enterprise and means, who assure us we shall have the pleasure,

bafore the first of November 1851, of riding to Wattsburgh over a plank-road. This makes over sixry miles of this kind of road under contract, and to be completed without a year, leading into this city. What other town, in Pensoyirania can may this?-and yet Erie is the anake somewhet.

LF A great Union meeting was held at New Orleans on the 27th ult., of the most outhurisatic character .-Scuriors Dewns and Foots spoke strongly against agita-

That truly enterprising and readable paper, the "Erening Bulletin," of Philadelphia, comes to us in an entire new dress, an apprepriate evidence of its prosperity. By the by, will the Editor direct his packer to for ward ours "via. New York." It will reach us one day

The Gazatte looks enits "silver-grayish" this week. In addition to the President's decidedly "silvergray" message, there is a good big specufull of "sivergray" pap. Wonder if that will "remain a dead letter upon the statute book?"

IT A friend in North East wishes us to notice a snammoth calf, slaughtered in that town last week, as he thinks it "takes down" the crowd. It was the property of Mr. John Scouller,-was one year old, and weighed 543, lbs., as follows: 429 lbs. of beaf; hide 80, rough tallow 34. It was not stall-fed.

ET If any of our souders are trimbled with system Cratic feelings and testes, they can find as nice a dish, and as well served, at the Red Jacket Seloen, under Williams' Exhauge office, as at any other place in town. h is said, too, that they keep something to take the bad late out of one's mouth when through, but of that We can't say as Editors are never knews to drink, except when _invited!

U Next Thursday is Thunkegiving. Between this and that time the "mullest favor will be thankfully received,"-a turkey or two, for instance. Now don't rend us a whole flock, as some of our neighbors might indulge in enviewe feelings, and thus he prevented from exercising that thankful and prayerful spirit they otherwise might.

The December number of "Harper's Magazine" has been received, and is for sale at O.D. Spafford's, State street. As usual its centents is the cream of the English Periodicals and magazines. We notice articles from "Blackwood," "Dickin's Household Words," "Bent-ly's Miscellany," "Tote's Edenburg Magnine," and in short, from most of the leading European quarterlies, menthlies and weeklies. This is the cheapest magazine in the country. Every number contains 144 pages. at 25 cts.

We are requested to give notice that there will be meeting of the subscribers to the proposed Reading Room in this city, and all interested in the success of the measure, at the Commissioner's office, this-Saturdayevening, at balf-past 6 e'cleck, P. M.

We were indebted to Mr. Kelsey, clerk of the Ohio, for a copy of the meesage early on Tuesday morning.-Circumstances, however, prevented our availing ourself of its early receipt to lay it before our readers before this, our regular day of publication. The times, however, tre not exciting, and the anxiety to see it not great.

The Reading Gazette publishes a long communication, signed "Berks," advocating the claims of the Hon. Ismes Ross Snewden, late treasurer of the Mint, at Philadelphia, for U. S. Senator.

The Last Packet Through.

The packet Pennsylvanian, Capt. J. Hoffman, will leave the 8th street landing on Tuesday merning next. This will be the last trip of the season, as our casul closes on the 10th.

BUTTALO AND STATE LINE RAILEON.-A mosting of the Directors of this road was held in this city yesterday. when it was received to put the Contractors immediately to work on the entre line. The original reute through Fre-Conia has been adhered to, which on the whole, we think

is decidedly the best for all concerned. There is not much difference is the distance to New-York from Dankirk by the Erie road or by the way of Buffalo and Horneleville, so that the western travel will enjoy the same facillties and conveniences by coming to Buffalo, as it would to stop at Dankirk, besides having here the choice of we restes. The read will now, we understand be completed as soon as possible. We regret that so much delay has already taken place, but that can't be helped now. Let us have all the more energy for the future in this outerprise .- Buffale Commercial Advertiser. For the Erie Observer.

Mr. Editor:-In the last Gazette an Editorial article appears, speaking of contradictory stories and rumors in elation to the railroad west, in which it is stated that "it a now alleged that the bona fide interest held in this place in the Western Road has been transferred to citizens of Cleveland, and that under the new direction the six foot gauge will be adopted if possible;" and more excilement seems to have been getten up on the allegation that the Buffalo Central railroad track, of four feet eight incher, was to be carried through to Cloveland. Them stories and rumors are entire fabrications, so far as our company is concerned, without the shadow of foundation. The work is now commencing, and will soon be in rapid progress between this and the Ohio line, with ne agreement other that for the four feet ten inch gauge.

· JOHN GALBRAITH. Proe't Franklin Canal Ca

WASHINGTON, Dec: 2. Housz.-The galleries were well filled, and a great many members were early on the floor exchanging salntions, and great confusion provailed, which was silenced at 12 e'clock by the speaker. Seats were taken and comparative stiliness prevailed. A message was received from the Senate informing the House a quorum that body was present and ready to do buisness. Similar mesange sent to Sounie.

Gootge W. Merrison, elected member from New Hampshire, in place of James Wilson, was qualified and took his seat. Mr. Tuck presented a memorial of Jared Perkins, contesting the seat of Mr. Morrison, which was referred to committee en elections.

The committee to wait upon the President returned and reported that they had seen the President, and he would communicate with Congress without delay, and in a few minutes after the message was received and read by the Becretary.

Mr. Bailey moved the message and accompanying locuments he referred to committee of the whole on the state of the Union, and that 15000 extra copies be printed: agreed je, .

Mr. Wentworth gave notice that on an early day, he would move to take up the River and Harbor question.

LOUISVILLE, Dec. 3. The Vicksburgh Sentinel says-"There is a selemn and unbonding determination that Messissippi shall lead in the resistance of the aggressors which if not resisted will evercome the South.

The Legislature have ordered the printing of 15,000 copies of Washington's farewell address.

BAVANNAM, Dec. 3. The Union Party have carried 54 out of 60 Counties, leaving 30 not heard from In De Kalb County the Union candidate for Governo has 1300 majority.

WASHINGTON, Dec. 45 BEFATE. - No change has been made in the Chairman of the Committees, except in one case, the Finance, where the change had been requested by the Sounter imself. The other changes were necessary to fill vacancies and equalize the daties among all the Senators. The first named on each committee is chairman. Mr. Dickinson peremptorily declined being re-appointed

Chairman of the Finance Committee. . The Committee of the two Houses be nearly the same s at the last session.

The River and Harbor Bill and the New York Branch Mint Bill are considered safe. Gov. Quitman's arrest created excitement at the South. Southern men here my , under the U. S. process the

Convagus, December 3. There has been 4 ballotings in the House, and 8 in the Senate, for Speaker—no choice.

CISCISSATI. December 1 They have elected a Whig Speaker in the Senate by 3 of a mejority. Swift, a Free Soiler, is elected Clerk, Both Houses are organized, and the Governor's Mosrage will be, delivered to-morrow.

DR. XOOPLAND'S CELEBRATED GERMAN BITTERS, PREPARED BY DR. C. M. JACKSON, AT THE GERMAN MEDICINE STORE

Wo. 120, Arch Stroot, Philadelphia.

Their pours over the above doesness is not excelled, if equalised, by ony other preparation in the United States, as the cures attest, in many cases after single physicisms had failed.

There Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of discasses of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs they are, within, safe, certain and piecheant. READ AND BE CONVINCED.

"A GREAT MEDICINE"

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless that its any of the various Patent Medicines of the day, unless that oughly convinced of their value. Among those we consider worshy of socies in the German Bitters, invented by Dr. Bengand, and prepared by Dr. Jeckson, is Philadelphia. One instance in particular, in which the superior vietnes of this medicine have been terised, has fallen under our observation. During the has summer, a root of Mr. Abraham Crabill, of this county, was very seriously affected with Liver Complaint, and after trying in various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another lottle, and is restored entirely to heatth."

READ FURTHER A FEW FACTS.

READ FURTHER A FEW FACTS.

The "Philadelphia Democrat," the leading German journal of Philadelphia. The cultior says, November 3th.

We again call attention to the removal of the German Meditine Store, the principle depot for the sale of Dr. Hoodland's German Batters, from 276 Rocc to 120 Arch street, one door below Stath. Owing to the increased demand for this medicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a large store. We wish him success in his new quarters, he is deserving of it. The Bitters Minture is without doubt the greatest medicine extant for discusses of the Liver and Soweis. A stubborn case of Chronic Diarrheea has come under our notice, wherein the patent had enhanted the Materia Medicas of the different schools of inedicine with no apparent benefit. He was induced to use there bitters, and a few bottlews them bare entirely cured him. Many such cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortunate as to require the use. Dr. Jackson possesses the original unpublished receipt of Dr. Hooffand, and he prepares this store, or see that his name is written upon the wrapper ospide, and blown in the bottle, as mutations of all sood articles are con-READ FURTHER A FEW FACTS.

non,"
Indge M. M. Noah a gentleman with great scientific and lite-ary attainments, said in his "New York Weekly Messenger,"

rary attainments, said in his "New York Weekly Messenger," January 8, 1830.

"Da. Hooflard's Grenar Bittres.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommenting, and the reason is obtaigus. It is imade after a prescription farmshed by one of the most celebrated physicians of inodern times, the late Dr. Christopher Wilhelm Hoofland, Proceedings of the University of Jens, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has every produced. He was emphatically the enemy of Assabay, and therefore a medicine of which he was the inventor find endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Deblitty, Vertigo, Acidity of the Biomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papersexpress their conviction of its excellence, and several of its edisors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present propriestors, Univ. 2. M. Jackou's) preparation, but in recommending the article to all afficied," or,s (Dr. C. m. sinced,"
irricle to all afficied,"
MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspa-per published in the United States, the editor says of DR. HOOFLAND'S GERMAN BITTERS

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage or our readers; and, there fore, when we recommend Dr. Hoodand's German Bitters, we wish to be distinctly understood that we are not speaking of the nontrum of the day, that are noised about for a brief period and then forgotten after they have done their guilty rice of muchief, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the streage at testimosy is sits fasor, it, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other noatrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when (greented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia.

BEWARE OF COUNTERFEITS. This medicine has attained that high character which is neces-mary for all medicines to attain to induce counterfeiters to put forth a sparious article at the risk of the livers of those who are impo-reasty deceived.

ressiy deceived,

CHERRY PECTORAL

For the Cure of COUGHS, COLDS HOARSENESS, BRONCHITIS. WHOOPING-COUGE, CROUP ASTHMA and CONSUMPTION

N offering to the community this justly celebrated remedy for diseases of the throat and lungs, it is not our wish toxiffe with the lives or health of the afficied, but frankly lay before them the opinious of distinguished men, and some of the evidences of its succes, from which they can judge for themselves. We sinterely pledge ourselves to make no wild assertions or false state ments of its effectly, nor will we hold out any hope to suffering humanity which facts will not warrant.

Many proofs are here given, and we solicit an inquiry public into all we publish, feeling assured they will find them erfectly reliable, and the medicine worthy ther best confidence

PROM BENJ. SILLIMAN, M. D. L. L. D., ETC., Professor of Chemistry, Minerology, 4c., Yale College, Member of the Lit. Hist. Med, Phil, and Scien. Societies of America and Europe, "I deem the Cherry Pectoral an admirable composition fro

some of the best articles in the Materia Medica, and a very effecive remedy for the class of diseases it is intended to cure." New Haren, Ct., Nov. 1, 1849. PROP. CLEAVELAND, of Bowdoin College, Maine, writes -"I have witnessed the effects of your "Cherry Pectoral" in my

own family and that of my friends, and it gives me satisfaction to state in its favor, that no medicine I have ever known has proved so eminently successful in curing diseases of the throat and lungs." Dr. Ayer-Dear Sir: For two years I was affleted with a versevere cough accommanied by spitting of blood and proufee night

weats. By the advice of my attending physician I was induced to use your CHERRY PECTORAL, and continued to do so unill I considered sayself cured, and ascribe the effect to your preparation.

JAMES BANDALL. Hamden st. Springfield, Nov. 27, 1848.

jounced the above statement true in every respect. LORENZO NORTON, Justice.

THE REMEDY THAT CURES. PORTLAND, Me., January 10, 1917. I have been long afflicted with Aslâma which grew yearly more until last autumn, it brought on a cough which con-flued media my chamber, and began to assume the alarming sympumption. I had tried the best advice and the best medicine to no purpose, until I used your Cherry Pectoral, which has cured for, and you may well believe me. Gratefully yours. J. D. PHELPS.

If there is any value in the judgement of the wise, who speal on experience, here is a medicine worthy of the public cond-PAPARAD BY J. C. AYER, CHEMIST, LOWELL, HS, Bold in Pricky J. H. BURTON & CO., and by Drurgi rally threighout the Pinte. ly

ANOTHER SCIPHTIFIC WORLERS

An Artificial Digestive Thid, or Gestrie Juleol An Artificial Digestive Thid, or Gestrie Juleol AGEST DASPEPSIA CURR. Property from the EMNINGT, or the fourth Stomach of the on, alter directions of Baron Limits, the great Physiciogical Chan-ist, by J. S. Housston, M. D., No. 11, North Eighth Scrapt, Philadelphia

Philodelphia, Pa.

In is a truly wonderful remedy for Indigension, Dysposite,
Jamaics, Leter Complaint, Constipation, and Deblity, suring
after Nature's own method, by Nature's pwn agent, the Gastrie. Juice.
Erilalf a temponofull of this field, imposed in water, will digest or dissolve Free France of Reast Beef to about toe hears, and of the stomach.

DIGESTION.

DIGESTION.

DIGESTION.

Digestion is chiefly performed in the attended by the aid of a fluid which freely exudes from the inner coat of this organ, when in a state of health, called the Gastric Juice. This fluid to the Grand Solvent of the stomach and intention. This fluid to there will be notification—agent of sood jan blood, and no natrition of the body; but rather a fluid, norticipellation—for the produces an operation. A weak, half dead, or injured stomach produces so good Gastric Janca, and hence the discase, dustreas, and debility which cases.

PEPSIN ATD RENNET

bene the discase, distress and debility which casses.

PEPSIN AND RENNET.

Farsix is the chief clement, or great digasting principle of the Gastric June. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the somach of chief the control of the human stomach after death, and sometimes causes the somach of anituals, as the ox, calf, &c. It is the insterial used by farmers in making cleave, called Rennet, the effect of which had long been the special wonder of the dairy. The curding of milks is the first process of digestion. Rennet possesses assonishing power. The stomach of a calf will curdle nearly one thousand tisses its own weight of firsts. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsing. To show that this want say be perfectly supplied, we quote the following.

SCIENTIFIC EVIDENCE.

Baron Lizmo, in his celebrated work on Animal Chemistry, agrs: "An Article find Digestive Fluid may be readily prepared from the suncous membrane of the stomach of the Calf, in which various articles of food, as mean and eggs. will be softened, changed, and digested, just in the same meaner as they would be in the homes at they would be in the homes.

Dis. Prantia, in his famous treatise on "Food and Diet," pub-

an storage." Jest in the same meaner as they seed as in case we as storage."

Dit. Pratital, in his famous freatise on "Food and Diet," published by Wilson & Co., New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereria.

Dr. Combe, in his valuable writings on the "Physiology of Digation," observer "that a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspenin;" and he rates that "a distinguished professor of modicine in London, who was reversly afflicted with this completely discipled professor of the completely discipled professor of the completely discipled professor of the completely discipled professor of modicine in certifiing clear to fait, but recourse to the Gastric Juice. Pirtely successful "
Dr. Graham, anthor of the famous works on "Vegetable Dick,"
rays: "it is a remarkable fact in physicary, that the shomache of
animals, macerated in water, impart to the fluid a property of
dusableing various articles of sood, and of effecting a kind of
artificial digestion of them in no wice different from the natural

digestive process."

Jr. Simon's great work, the "Chemistry of Man," (Lea & Blam, hard, Phila, 1846, pp. 221-29) says; "the discovery of FEP-BIN torms a new era in the chemical history of Digestion. From recent experiments we know that food is discovered as rapidly in an artificial digestive fluid, prepared from Peptis," as it is in the natural Gastric Juice itself."

Professor Devariance of Philadelphia in the Professor Dunatison, of Philadelphia, in bis great worsak barepresent position, or remnocipola, in par great woman assument party with the subject. His experiments with Dr. Beaumont on the Gantrie Juice, obtained from the living human stomach and from animals art well known. "In all cases," he says, "digestion observed as perfectly in the artificial as in the natural digestions."

red as perfectly in the artificial as in the natural digentions."

As a Dyspopsia Ourer,

Be, IfOUGHTON'S preparation of Parsix has produced the
most marvelous effects, curing cases of Debility, Emaciation, Revwors Decline, and Dyspopsic Communican, supposed to be on the
very verge of the grave. It is impossible to give the details of eases in the limits of this advertisement—but authenticated.cartificities have been given of more than

300 REWARKABLE CURES!

In Philadelphia, New York and Boston alone. These were nearity fill desperate cases, and the cures were not only rapid and wenderful, but nermanent.

lerful, but permanent.
It is a great Nervous Antidote, and particularly meeful for test-

A FTER profound cogitations, extensive and misuse observaA forter made up my mind that it's not the fault of at
least some of the people of this town and county, that their garments are of such indifferent materials and workmanship, for
never before was a town curred with such vite stocks of wares
called and sold for clothing. Take a cost of the ordinary kind sold
in some of the shops of this town; examine it and what indigness
do your pronounce—con founded cheal!! you exclaim without heaintrium—here's a button hole that looks as though it had been made
by thrusting a finger through the cloth—there a seam so open that
you might drop a jack knife through it—here, but enough—nos
have seen, handled and worn three goods till you are tired of
them, and it is useless for me to cularge on their frailties. Here
follows incredierering intelligence, at No. 7, Reed House; [Pavys

ering intelligence.st No. 7, Beed House; I' this day opened a magniticent stock of Gentlemen's Furnishing Goods, Cloths, Cassimeres and Vestings of German, French, English and American production: Newest Fall styles, purchased by myself at the flashonable establishments in Boston. New York and Philadelphia: Falso, Military and Fiain Trimmings in great variety and of the best quality, Cravats, silk and linon Gloves and Handborchefs, fine sbirts, collars, Suspenders. Buff Cassimers Vestings also, Oil Ctoths, and a great variety of "notions". The cisabling that I keep and make to order shall be unesceptionable in quality and cut, as may be ascertained by inspecting any goods, as No. 7, Reed House, where I have just removed, and with a view of conducting business upon my own responsibility.
