WARRISOTON, Dec. 10. Mr Butler introduced a bill to refund South Carolina the moneys advanced in 1838 to pay the troops engaged in the Seminole War. Referred to Military Committee.

Mr. Gwinn, Ca., introduced a resolution directjugithe Judicary Committee to enquire into the expediency of increasing sa'aries of District judges in California.

Mr. Hale moved to amend by inserting also the salary of the District Judge of New Hampshire .-He said the salary now allowed that Julge not was sufficient to enable him to live.

Mr. Gwinn said that plenty of persons in New Hampshire were willing to take the office, but in California there were no Judges, because no person would take the Judgship at the present salary.

Several private bills were taken up and passed. when the Senate went into Executive Session. HOUSE OF REPRESENTATIVES. - The credentials of Mr. Messery, delegate from New Mexico, were pre-

sented to the Committee on Territory. A bill waspintroduced by Mr. Wentworth, of Ill. recommending the act granting peremptory rights to actual settlers and extending the time of payment. Mr. Hall of Missouri, reported a bill granting rights of way through that state to St. Joseph's. Mr. Holmes, S. C., asked leave to introduce a resolution instructing the Military committee to report a hill conferring on Winfield Scott the title of Lt. General. Objected to. Mr. Harris, Ill., reported a bill for Reciprocity

Mr. Sillurand, introduced a bill for the punishment of Lucinos and also their civilization. Ref.
Mr. Hann J. Pa., reported a bill granting land for constructing the Ohio and Penna. Railroad.—
Referred. Mr. Pearce gave notice of a joint resolution, providing for appointment of Regents of Smithsonian

A communication from the War Department, in reply to resolutions calling for proceedings of Court Martial on private soldiers was received The House then went into committee of the whole on the state of the Union, when several ineffectual compts were made to take up the River and Harbor bill, and also the cheap postage bill.

"A GREAT MEDICINE."

"We have uniformily refrained from recommending to the public any of the various Patent Medicines of the day, unless mortoughly convinced of their yaire. Among those we consider worthy of notice is the Geradia Bitters, invented by Dr. Honfand, and prepared by Its. Jackson, in Phitadelphia. One instance in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last runmer, a son of Mr. Abraham Crabill, of this county, was very seriously selected with Liver Complaint, and after trying in viin various remedies, he parchased a bottle of the Bitters, and after using it, was so much relieved of his distressing melady, that he produced in other bottle, and is restored entirely to health."

DIGESTION. DIGESTION.

DIGESTION is chiefly performed in the stomach by the sid of a floid which firedy causes from the inner cont of these sequences when in a state of health, called the Gastric Juices. This fluid is the Grade fluides of the Food, the Purifying, Preserving, and Manufactury Agent of the stomach and intentines. Without it there will be no digestion—no conversion of food into blood, and no nutrition of the body; but sailer a foul, toupid, painful, and destrictive combition of the whole digestive apparatus. A weak, half dealer in pitted stomach produces mg eved disarted Juice, and hence the discase, distress and debitity which ensue.

PERSIX is the chiref element, or great digesting principle of this Gastric June. It is found in great abundance in the solid parts of the housen stometh after death, and sometimes exuser the atomach to digest stack, or eat itself up. It is also found in the soomench of numeric, as the ox, calle, see. It is the material used by farmers in making glease, called Report, the effect of which least long leven the springs worder of the dairy. The curding of nails in the first process of discretion. Remote processes admissions in the first process. long lees the siregal wonder of the dairy. The cording of milk is the first process of digestion. Riginett possesses assonishing power. The stouring or a calf will curdle nearly one thousand times its own-weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty, thousand parts of water, will digest meat and other foor!." Diseased stomachs produce no good Gastrie Juice, Remet or Pepsini, To show that this want may be perfectly supplied, we quote the following a SCIENTIFY CEVIDENCE.

Baron Lizmo, in his celebrated work on Arimet Chemistry, anys. "An Artiferial Digestive Flurd may be readily prepared from the mucous membrane of the souncie of the Cali, in which various articles of food, as next and eggs. will be septimed, changed, and digested, just in its same shance as they would be in the law mass stowards."
