WASHINGTON, JAN. 17, 1851. I suggested, in a recent letter, that insemuch as the Senate was unable to originate a bill for the modification of the tariff act of 1846, that being a question of revenue, a project with a similar tenden-cy might be advanced, in a motion to amend so much of the law as relates to appraisements or the inspecare striving. Mr. W. propuses that the Board shall consist of three members, and be organized with ly last month I gave it as my opinion that this wol'd be the extent of the agitation of the question, and probably the only modification that would take place. No new tariff scheme can possibly pass. Were the session to continue till the first of July, perhaps a kind of compromise between specific and ad valo. in the Barque Jessurum, from Guayamas. rem duties; but it is useless longer to disguise the fact, that a new measure, beyond the home valuation project, cannot obtain the sanction of the two Houses before the 4th of March next. This settled conviction, all "desperate efforts" to the contrary, must at last be admitted; and the sooner the better, if we hope to obtain the co-operation of the opposition, in order to pass Mr. Winthrop's bill.

on account of their services, have been an annual charge to the government of over \$26,000. Now a less sum than this would maintain a Board of Appraisers, whose efficiency would greatly exceed an | dations. organization of the latter order, and especially since they are vested with no original authority. What is meant by the home valuation above alluded to, may have a double construction. An article of merchandize, value in Canton \$1000, is imported from Eugland, and pays duty at our ports at the rate of \$1900 valuation. It would be the duty of the Board of Appraisers, not even to consider what the article is worth in England, but what price it would bring in our own market—say \$1500—and the duty charged would be accordingly. It is due to Mr. Ex-Secretary Nalker to say that he originated this idea, and that Mr. Winthrop, in calling attention to the sub- satisfied. ject, has the right to expect large support from the by the whigs. Another plan which strikes me at will run to Jersey City. this moment, would be to require of our Consuls abroad certificates of the value of goods shipped to our ports; but the Board of Appraisers is preserable for many reasons that will appear obvious; nevertheless if one cannot be had, let us press the substitute.

The House p-day confined itself to votes upon the

cheap postage bill. A motion to lay upon the table, was lost by an overwhelming majority, and the bill was then passed finally-year 130, navs 751 We have a proposition for another new Board on Claims. Mr. Gwin has submitted a resolution, inquiring into the axpediency of appointing a comassion to examine the petitions of those demanding for seizures, &c., consequent upon the conquest of California; and here will be another subordinate gress of its duties, while representatives are idling neir time away. The people should take account of these matters. A million of dol'ars will not cover the aggregate cost for the annual support of these special commissions, not one of which is required cr would be req ired were Congress to attend to those duties devolved upon it by the Constitution.

A MOST MELANCHOLY OCCURRENCE .- We learn from Capt. James Bridges, who sails a schooner from-Bayside. Talbot County, that a most melancholy occurrence took place at that place on Tuesday last. at the dwelling of Mr. Ballard Shores. The particulars are as follows: -On that day Mrs. Emma Jones had paid a visit to Mrs. Shores, taking with her her mant child. She was seated in the sitting room, with Mrs. S., and in a cradle a little son of Mrs. S., about eleven months old, was lying, while another little son, aged three years, was standing by the cradle, rocking it. In another part of the room there was another son of Mrs. S., aged about eight years, who unobserved picked up a loaded gung which had been imprudently left there. While in his hands, the gun was discharged, the load blowing the brains out of the little boy standing by the cradle, killing the infant in the cradle, and lodging several of the shot in the person of Mrs. Jones, who was sitting. in the line of the shot. Her infant was in her lap, and was somewhat injured by the powder from the gua. Mrs. Shores sprang up and seizing the child whose brains was blown out, ran into the yard and there finding him dead, she ran back into the house. Here she found her other child dead, and so great was the seeck, that she immediately fainted and has been in a'most a deranged state ever since. Mrs. Jones though badly hurt, was not considered dangerous.

DANGER OF KISSING A WOMAN AGAINST HER WILL. -A currous trial was recently held at Middle-ex Sessions, England. Thomas Saverland, the prosecuter, stated that he was in the tap-room where the come from Birmingham, were present. The latter heart that no man should kiss her while absent. It being holiday time. Saverland consi ered this a challenge, and caught hold of her and kissed her. The young woman took it as a joke, but her sister, the defendant, said she would like as little of that kind of fun as he pleased. Saverland told her that if she was angry he would kiss her also; he then tried to de it, and they fell to the round. On rising, the woman struck him; he again tried to kiss her, and in the scuille she bit off his nose, which she spit out of her mouth. The action was brought to recover damages for the loss of the nose. The defendant said that he had no business to kiss her; if she wanted kissing, she had a husband to kiss her, a better looking nianthan ever the prosecuter was. The Jury, without hesitation, acquitted her; and the chairman said, "that if any man attempted to kiss a woman against her will, she had a RIGHT to bite off his nose if she had a fancy for so doing!"

SHOCKING MURDER OF A SCHOOL TRACKER. - AD awful murder was committed in Wayne township, Cermont county, in this State, Thursday, the 9th inst. About two miles East of a little village called Edenten, a man by the name of Artemus C. Morrow. school teacher, and resident of the place, was killind by John Dale. The circumstances are these: John Dule and John Groves, young men, were attending the school of Mr. Morrow. | On the named day shove, the teacher undertook to correct a young brother of Dale, when John interfered, taking his little brother's part, and a fight ensued.

The teacher got young Dale down on the floor, when Groves struck Morrow on the head with a stick stove wood. Then they all separated and the affray was supposed to be over, The small children fray was supposed to be over. The small children had become frightened, and ran out of doors during the fight. The teacher went to the door to call his scholars back. Dale then came up behind Mortow, and arrest him with a hiller of wood right on the and struck him with a billet of wood right on the side of the head; just above the ear, which felled him -then repeated the blow three times, all three on U the head, while he was prostrate, which completed the murder—the skull being fractured and the head

swfully bruised. The poor man lingered till 8 o'clock night before last, and then ceased to breathe. I'e was delirious all the time, after the occurence. Morrow leaves a
