

Democratic Co. Convention.

The Democratic Electors of the several wards, boroughs and townships of this County are requested to meet at their several places of holding elections, on Saturday, Feb. 1st, at 2 o'clock, and elect delegates to a county convention to be held at the Court House in Erie on Monday, the 3rd day of February, at 2 o'clock P. M., for the purpose of selecting delegates to the gubernatorial and judicial conventions, at Reading and Harrisburg.

We are indebted to Judge Thompson and Messrs. Walker, Reid and Loist, for Congressional and Legislative favors.

We are requested to say that Rev. S. Newberry, of Cleveland, will preach on Sunday morning at the Presbyterian Church, and in the evening at half past 6 o'clock, will address particularly the young men, on the subject of Christian Education.

The Democracy of this city will be in mind today is the time set by the County Committee for choosing delegates to the County Convention on Monday. It is somewhat important that a full interchange of opinion be had at this time.

The Buffalo Courier contains a very able and candid review of a little pamphlet we noticed some time since on Naval Reform.

This plan would, we think, cover the difficulty, and would present the same stimulus to constant and increasing excellence, as in the case of civil life.

We learn that Messrs. Tracy & Courtright, the contractors for the building of the New York and Erie road to the State Line, recommended work this side of Dunkirk on Monday.

The Legislature of Delaware elected, on the 23d ult., at Trenton, James A. Bayard, to the United States Senate for the term of six years from the 4th of March next.

There is much truth in the following, which we find in the Exchange; but how few, even among those who profess to be "model farmers," will heed it.

There is a book has been published in London, entitled a plan of railroad across Nova Scotia and the Canadas, from Halifax to the Pacific.

Col. Benton has been defeated in Missouri. We are not sorry, even though a wife is elected in his place.

The annual statement of the marine disasters on the waters of the South and West shows that during the year 1880 there were fifty-three vessels totally lost.

The Canal Commissioners are determined to commence before early this season, for they have announced that the main line of canal between Philadelphia and Pittsburgh will be opened on the 14th of next month.

What Erie Wants.

Erie wants a city charter and a city government, and an efficient police; a police that will not be afraid to arrest all rascals, great or small, rich or poor, drunk or sober, who may be found in the streets, creating a disturbance.

Erie wants a Select and a Common Council. Our Council, as at present organized, have always acted as though they were afraid to expend a dollar in improving the town.

Erie wants better water works. The present "pump-logs" after, although perhaps well enough at the time it was constructed, is not such as we need now.

Erie wants the real estate of non-residents taxed heavier—taxed till the owners can make more by selling at a reasonable price, than by keeping it.

Erie wants a plain spoken Judge. Judge McClure, of Pittsburgh, is decidedly the plainest spoken jurist we think we ever heard of.

Erie wants a Naval Reform. The Buffalo Courier contains a very able and candid review of a little pamphlet we noticed some time since on Naval Reform.

Erie wants a Cheap Postage—Important Amendment. A correspondent of the New York Evening Post, who has had some experience in newspaper publishing, after commending highly the provision in the Cheap Postage bill, allowing newspapers to be sent free within 30 miles of the place of publication, points out a serious defect as follows:

Erie wants a Death of Rev. Walter Colton. Rev. Walter Colton, for many years a Chaplain in the Navy, died at his residence in Philadelphia, on Wednesday.

Erie wants a Plank Road Meeting. A large and respectable meeting of the citizens of Elinboro and vicinity convened at the east school house in the borough of Elinboro, on Monday the 27th of January.

LEGISLATIVE JOTTINGS.

Another week has followed in the footsteps of its illustrious predecessor at the State Capitol, but as yet we find very little to record worthy of note.

Mr. Mahanberg, from Belts, has introduced resolutions into the Senate declaring that the late settlement of the questions at issue between the northern and southern members of this confederacy, meets with the approval of the Legislature of Pennsylvania.

Mr. Mahanberg, from Belts, has introduced resolutions into the Senate declaring that the late settlement of the questions at issue between the northern and southern members of this confederacy, meets with the approval of the Legislature of Pennsylvania.

TWO WEEKS LATER FROM CALIFORNIA.

Summary of News from the Pacific Coast. From the New York Tribune.

The steamships Cherokee from Chagres, and Prometheus from San Juan de Nicaragua, arrived at this port early on Tuesday morning, bringing about \$1,000,000 in gold dust, 600 Californians, and a few men from San Francisco to Dec. 15, which reached Panama by the steamship California on the 31st inst.

The news from California does not materially differ, except in a business point of view, from our last advice. The immense shipment of goods which had arrived from the Atlantic states had produced a complete stagnation of the market, bringing many kinds of merchandise below cost prices.

The miners are still hard at work, and their labors are yielding a fair return. Thousands are wintering in the mines, preparatory to commencing operations early in the spring, and improving the opportunity afforded by the temporary cessation of the rains to work sufficiently to pay expenses.

The choice of a Senator to succeed Col. Fremont was agitating the politicians of California. Party lines are now fairly drawn, in most of the counties, and very shortly after the elections had been made.

The children had almost entirely disappeared from San Francisco, there being but one or two deaths daily since the 15th of Nov. The epidemic has been almost entirely exterminated in the Sacramento Valley, and the mining localities had nearly escaped it.

At the late election in California, the citizens decided on electing the seat of Government at Vallejo, a city laid out on the Bay of San Francisco, about twenty-five miles from the city of San Francisco.
