Erie Werkly Observer.

ERÌE, PA.

SATURDAY MORNING, FEBRUARY 22, 1851.

We have studied our legist vive records in value this week. Not a serum have we found of any local o granged importance -- all, from "betitions presented" to and tasteless as a level and tasteless as a ting in what down" we'll do i -but in the mean te, kind reader, don't ask us, "what's the news from Marrisburg "

IT Gen. Sam. Houston has written a letter to Hon. John Leicher, of Va. on the Union, Slavery, the Compromise and South Carolina. It is, so far as it relates to the attitude of the Palmeto State, a picquent and spicy document, calculated to make the "gilled jade wince." and exhibit the abettors of Hale, Giddings & Co., in the inently happy, patriotic and conservative. We will publish it next week.

The Plank Road Meeting.

The plank road meeting, held in this city on Thursday ments which could not be excluded, compell us reluc- in Meadville. tantly to hand them over to our cotemporaries for publication first.

Judge Thompson's Prospects.

The nomination of Judge Thompson, by the Democ racy of this county, for a seat upon the Supreme Beach, has been received with much faver in other portions of the State. Crawford county, it will be seen, has responded to it so heartily that, a ter instructing her own delegates, she surrendered to our county the Senatorial delegate to the Judicial convention, a favor we little expected and did not claim. The Penasylcanian, after copying county having named the delegate to the Gubernatorial Betany, with two assistants. A Professor of Nature an article from our columns urging the nomination of the Judge, endorses it thus: "While we are serry to loose the valuable services of this gentleman in the National cur must corl ally in the nomination made by you .- officio Physician of the Institution. A Professor of the Councils, we agree with the Observer in the opinion, that few men are better qualified for the ardusas duties of the Sapreme Beach than Judge T."

The Wavne County Herald, the able organ of the Demperacy of Wayne, copies the same article into its Thompson, named by the Westfor the high and honor-morals and manners of boys, is essential to their prope aditorial columns entire, thus giving it a constructive on able position of Judge of the Supreme Court. dorsment highly flattering. The Lycoming Gazsetts. that old and reliable sentinel of the Democracy, also speaks of Judge Thompson's nomination as one which would be likely to give general satisfaction. In short, wherever Judge Thompson is known his clevation to the Supreme Bench is ardently desired.

The Chronicle and "The Presidency."

The Chronicle has a curious article, this week, in relation to the position of the whig party, past and present, in regard to the Presidency. It reads much to us like au admission of all we charged against that party in 1813viz: seeking in a Presidential candidate mere availability, without references to those high and statesman-like qualifications so essential to a successful administration of the government. The Editor bases his remarks and draws his conclusions from the hypothesis that "In these days of political intrigues and aspirations, the question becomes not who is most competent to fill the senatorial and Presidential chair, but who is most likely to be the patriotic statesmen have been denied the confidence of was also twice defeated in the "house of his friends" by Cligious liberty guaranteed hun by the Constitution, ia voting for farty years. The Elder undoubtedly forgot somewhat later date than the first, but exhibiting equally conclusive evidence of the correctness of the premises 1848, Gen. Taylor, an able military veteran was elected over Gen. Cass, a statesman of acknowledged experience and talents. Our senatorial contests in Pennsylvania. also exhibit the same disregard to talents and experience as well as to principles, when we have preferred the elec- glish mind by the partial exhibit of the course just taken, tion of such men as Sturgeon and Bio idhead, to Forward, Moredith or Stewart, or if you please to those democrate of sterling talents Buchanan, Thompson and Black " . If we read this aright, after keeping in view the hypothesis laid down in the first part of the article, and which we have quoted, the writer habarrived at the conclusion that the election of Gen. Taylor, though an "able military acknowledging this, the writer should arrive at the conclusion that the whig party will choose for their standard bearer in 1852, another "able military veteran," in the person of Gen. Scott; and, we may adl agren, "exhibit. , the same disregard to talents and experience as well as to principle."

The First Effects.

The Buffale and Albany railroad companies have held a meeting lately, and resolved to charge, after the first of April next, a uniform rate of two cents per mile on passengers between Buffale and Albany. This is a considerable reduction from the old price, and is the result of the near completion of the New York and Erre road. It will do no good, however; that road has fleeced the public too long to be forgotten soon, and when the New York and Erie is fished to this place, in Augus next, they will have to come down a dollar or two more or go without passengers.

The First Move of Bentonianism.

The publication of the d-ily and weekly Glube, at Washregion, is to be suspended the 4th of March, because, the 7: blisher says, the increased price of labor "will not allow on to print a longer without serious loss." But letter waters from Washington assert, and with much plausi be typited, that this published reason is not the true one. The nesert that the Globs will suspend publication be where a fund of \$30,000 has been collected to convert if tate a Free Soil sheet for the support of Mr. Benton fo the Providency, and Mr. John Van Buren for the Vica Presidency. Thus the programme of 1852 leveloping. Mr. Benton may be said to be already, in the field; and the next demonstration will field his name for up to the column-head of the new jeurnal, whose ofgan it is destraed to became. If this i so, stid it does not seem improbable at all, the incipient e'sp is taken with a lie for its basis. A fitting commencement for such a purpose, truly!

New York Politics.

The whige are having some queer doings among them en n New York about this time. The fend between s was senters of President Pillmore and the partizans of Seed ir Seward, daily becomes more bitter and extenacce in fact that most of the Federal officers in that Bar are filled by Soward men, deprives the President of a mountful engine, which otherwise he might use for tion of his pretensions. He dare not oust them a, and so has the peculiar satisfaction of sacing the se whom he has the pewer and inclination, but not the wrige to strip of their means of injuring him, onemoluments and honors which he sught to a is heavily in favor of Joward.

Senatorial Delegate to the Jufficial Convention.

It will be seen by the following perrespindence be-Crawford and Eric counties respectively, that they have ment of an Agricultural College by the State. The pre-solected M. B. The Way to get Rich.

The only way by which capital can increase is by saving. If you spend as much as you get you will never be richer than you are. The not what a man gets, but what he saves, that constitutes his weath. Go, learn the first two rules of arithmetic—learn addition and sub-first two rules of a rule first and first two rules of a rule first and first and first and first and first and fi struction. Aid to your present capital any amount you The ship was at once heve to, under storm can- please-substract the sum which you add, and tell me if vass, the wheel lastied and all hands, employed du-, the last amount will not be the same as the first. Every Scott's best pickled O, siers, a sujerior article, sing the plothe and following dwe in soudistance in the last amount will not be the same as the first. Every Single current and for sale to merchant should, in every year of his life, make some merchant should, in every vear of his big, make some addition to his capital. You say you get but littley and then next jear you will get more, for you have the profit upon the sam you save. There is no royal road to his merchant sometimes and the sam you save. There is no royal road to his merchant sometimes and sent a capital additional sent sometimes and sent a capital additional sent sent to some some some sent a capital to be same some sent to some some sent a capital to be successful to some sent a capital to some sent a capital to be successful to some sent a capital fortunately it was accomplished without accident. upon the sum you save. There is ne royal road to On the 7th and 8th, lay to with the hope of the wealth any more than to geometry. The man who goes gale abating and a change of wind, as the captain on spending all he gets, and espects that by some lucky and all hands were extremely anxious to reach some; but he shall be raised to wealth, will must likely sink into the election of Gen. Taylor, though an "able military with and population are locked upon with women rices, western," "exhibited" a total "disregard to talents and that the history of mankind has no parallel to such a says: The porcelain traveling breakfast service weather continued till meridish of the 10th, when the history of mankind has no parallel to such a says: The porcelain traveling breakfast service weather continued till meridish of the 10th, when that the history of mankind has no parallel to such a says: The porcelain traveling breakfast service weather continued till meridish of the 10th, when the history of mankind has no parallel to such a says: The porcelain traveling breakfast service weather continued till meridish of the 10th, when the history of mankind progress. And I have no of Napoleon, left by his will to his mother, and by an observation placed the ship 180 miles distant, and New York Expense if ax, 897 miles distant, and New York 1400. This is any that the continued till meridish of the 10th, when says that the times are bad—the laws of Napoleon, left by his will to his mother, and by an observation placed the ship 180 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense if ax, 897 miles distant, and New York Expense cident. . gale now sprung uplagein from the South more than you get; how can you be otherwise than poor? which will be still more associated and be it remains a sestimonal for the latter's attentions to bared, too, an emigration of thorough, industrious laborated the price, upon the overthrow of the revolutionary for even with moderate weather it was evident to all station, which they worthily and honorably filed became for even with moderate weather it was evident to all station, which they worthily and honorably filled because norther the gentleman nor the lady had been familiar with the first four rules of arithmetic. Had they known how to compare their receipts with their expenditure, and to king an accurate account of stores on board, and, see which preponderates, all their difficulties might have smaller States, like Saxony, which can gain nothing from of section 9 of section 9 of article 1. of the constitution seems to considering the apparent impossibility of reaching been avoided. A very small acquaintance with the prinin with the ship in her disabled gondition, the cap- ciples of commerce is sufficient to teach that, if a man here wars and disturbances, and may lose everything. us to prohibit its reception. Once a "prince" all in with the ship in her disabled gondition, the cap-ciples of dominerce is sufficient to teach that, if a man "li must make you adhome look anxiouly around at, ways a prince, we should say, though in exile, and tain determined with the consent of the officers and spends every year more than he receives, he will necesearly fall into poverty .- Hant's Merchant's Magazine.

> posed, one under the name of John Green, and the other under that of George Sands, arrived in Quincy, representing themselves to be from Ohio.-Green appeared to be about twenty-five years of age, and Sands about 8, five feet in height, and feminine in features, voice and movements. Green Mann through the head, killing him instantly. He tion already acquired by her commander for pruof work; and that his companion was his half-brother, whom he had brought on for his health and to W HITE FISH-100 bils, and half do. Mackings and to return to Object in the get him educated here, and to return to Ohio in the ce the decease of Mr. F. Harbach, who died this spring. Green obtained work in the shop of J. D. Witcher, and both boarded with Mrs. Prudence He came to Cleveland in the spring of 1848 Asst. Wood, sleeping together. EARTHQUAKE AT CHILL.-The Valparaiso ke porter says that Chili was visited, on the 6th of December, with the severest shock of an earthquake which had occurred for a number of years. The earthquake was stronger at Santiago than it was at Valparaiso. It lasted sixty seconds. The dwening houses were much injured. The decorations of the church of the "Campania" were defaced and hauken. The palace of the government was badly cracked a front. One person lost his life in the Plazs by a blow from a tile. An hour and a half afterwards volcane of Portillo broke out in an evuption on the 5th of December -the day previous to the earthquate.
