### Extraordinary Avarice.

In the year 1762, an extraordinary instance of avarice occurred in France. A miser, of the name of Fosse, who had amassed enormous wealth by the most sordid parsimony and the most discreditable extortions, was requested by the government to advance a sum of money as a loan. The miser, to whom a fair interest was not indubitably sufficiently strong to enable him to part with his treasured gold, declared his incapacity to meet this demand, and so pleased severe losses and almost poverty. Fearing, however, that some of his neighbors, among whom he was very unpopular, would report his immense wealth to the government, he applied his ingenuity to discover some effectual way of hiding his gold, should they attempt to institute a search to ascertain the truth or falsehood of his plea. With great care and secrecy, he dug a deep cave in his cellar; to this he received his treasure by a ladder, and to the trap door he attached a strong chain, embracing a great variety of fine Gold and Silver Watches, Gold and Silver Rings, Gold Bars, Fine Jewelry, Lockets, Thimbles, &c. They will be envied to us for days, weeks, months, years, & even a lifetime. A Master of the Hunt, a Wolf, a Hare, a Fox, a Deer, a Bear, a Hunter or other Chase, can be no match for them. These things are heavy, but light, and can be easily carried about with any weight they choose for these novelties. It will be a rare opportunity to select.

### READ AND BE CONVINCED.

CHAR. REEDWELL, Esq., Boston, Md., is a leaver in Dr. Jackson, Boston.

"My wife and myself have received more benefit from your medicine than any other we have ever taken for Dyspepsia and Liver disease."

"The American Physician," published at Woodstock, Va., January 10, 1850, said:

### "A GREAT MEDICINE!"

"We have uniformly preferred from time immemorial to the physicians of the country, the German Bitters, and are thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoopland, of Philadelphia. This is a powerful medicine, and has been tested, in which its peculiar virtues of this medicine have been tested, under our observation. During the last few years it has been used with great success, and after trying in various remedies, published a article of the Bitter, and after using it, was so much relieved of his phthisis, namely, that he proposed to us to sell his practice, and go to Europe."

### READ FURTHER! A NEW FACTORY.

The "Philadelphia Democrat," the leading German Journal of Philadelphia.—"In the last issue," November 10,

"We again call attention to the removal of the German Medicines, from the hands of Dr. Hoopland, of Philadelphia, Bitter, from 375 Broad to 120 Arch street, one door below St. Louis. Owing to the increased demand for this medicine, and for the want of room to store it, Dr. Hoopland has been compelled to occupy a large store. We wish him success in his new quarters, he is deserving of it. The Bitter is made with a large quantity of Bitter Root, and is a valuable medicine with great care. Those purchasing should call at his office, or see that his name is written upon the wrapper outside, in the bottle, as a guarantee of good quality and high price."

DR. HOOPLAND'S GERMAN BITTERS.

It is often recommended what are termed Patent Medicines, but in the present case, when we recommend Dr. Hoopland's German Bitters, we wish to distinctly understand that we are not speaking of the well known Patent Medicines, but of the German Bitters, which are the greatest and best writers of Germany, and have been produced. He was emphatically the enemy of Germany, and his name is written upon the wrapper outside, in the bottle, as a guarantee of good quality and high price.

DR. HOOPLAND'S GERMAN BITTERS.—Here is a preparation which the leading press in the United States are unanimous in their opinion of its value, and Dr. Hoopland possessed the original unpublished receipt of the French physician, Dr. Hoopland, a student of Dr. Bichat, the celebrated Doctor of Liver and Bowels. A student of Dr. Bichat, the celebrated Doctor of Liver and Bowels, whose name had exhausted the Material Medical in the different schools he attended with no apparent result, he is now a man of great talents, and has entirely cured him. Many such cases we could refer to. We hope our readers will rejoice in this great remedial, should they be afflicted with a similar disease.
