

A CURIOSITY.—While Governor Brown was in Key West, says the Tallahassee (Florida) Sentinel, he was presented by Hon. A. Patterson with a miniature bust of General Washington, found, ten years ago, in the neighborhood of Mr. Patterson's premises, imbedded in the limestone which forms the island. The bust is of marble, and is evidently the work of a master. The expression is said to be identical with that of the famous statue of Washington at Richmond, allowed to be the best likeness preservation. The bust is in a state of perfect preservation; all the delicate chiseling in the plait of a ruffled shirt remaining as sharp and well-defined as ever, and the marble without discoloration. Across the shoulders is the word "Wash." in Italian, spelling which seems to indicate an Italian origin. In the same spot two English guineas were found, the dates and inscription of which we do not learn. All were probably deposits by some treacherer of the olden time.

SENATOR DOUGLASS.—The Pennsylvania of Monday has the following: "This distinguished gentleman is now spending with his family, at Glass's Washington house. He arrived on Saturday, and will remain until tomorrow. The national committee of the Democratic party are holding a striking saboteur, made him a historical character; and we are rejoiced to see the deposition among men of all parties to do him honor to one who does so much honor to the country. We regret that his engagements at home compel him to leave our city."

We believe there are few men in this city, who know Judge Douglas, who will not yield a ready assent to the words of commendation which express, plain, simple, intelligent and able, he fully accredits the duties of his high position; and while he exerts to the fullest extent the confidence of those whom he is usually accustomed to act, he never manifests a tolerant and liberal spirit that deserves respect and kindly feelings of his political opponents. While speaking of Judge Douglas, we may mention a little item that will be read with pleasure by our readers. It is that the late deceased, the late of Colonel Burche, a mile or so south of the city, and that he will improve and adorn it for the abiding place of his family as long as his public duties shall require his presence in Washington. There are, we believe, some two or three acres of land surrounding this residence, and the access to it being rendered very convenient and agreeable.—Wash. Telegraph.

WOODWORTH PATENT CASE.—The Philadelphia correspondent of the New York Herald writes that the report in the Washington papers, that the case pending long pending in the Supreme Court, before Judge Grier, has been decided by the jury. Spring and others, the defendants in the case, were held to have infringed the Woodworth patent. Judge Grier said that if the witness came again into this court to swear that William Woodworth was not the inventor of this patent, he would hold it to the plaintiff's evidence; that the witness intended to do so for himself, by swearing to what they knew nothing about. This question has now been decided in the same way by every circuit court in the Union, making an immense outcry in litigation.

The Schir. C. G. Butts, went ashore in the Queen Tuesday a few rods below the piers at Adams and Harbor. She is a fine ship, and from Adams is reported. Part of her cargo has been discharged by means of lighters; but the recurrence of rough weather has put a stop to her unloading for the present. She will be got off its expected, so soon as she can be sufficiently lightened.

FALL OF WATER IN ENGLAND.—The Toledo Dispatch states that the Lake is gradually filling to its former level, so that it is thought, every year for four years. The stage of water in Lake Erie at Toledo is considerably lower now than it has been in any previous season. It is thought that the water in the lake is being filled to its former level by means of a dam at that place.

Stray Maro. A notice of the state of the weather in New York, and of the state of the market for sugar, coffee, and other commodities, is given in this paper. It is stated that the weather is very warm, and that the market is very active.

TOBACONISTS. A notice of the state of the tobacco market is given in this paper. It is stated that the market is very active, and that prices are high.

NEW AND FASHIONABLE GOODS. A notice of the state of the market for new and fashionable goods is given in this paper. It is stated that the market is very active, and that prices are high.

Spinning and Sewing Machines. A notice of the state of the market for spinning and sewing machines is given in this paper. It is stated that the market is very active, and that prices are high.

Fashionable Clothing Establishment. A notice of the state of the market for fashionable clothing is given in this paper. It is stated that the market is very active, and that prices are high.

NO. 8 RED HOUSE. A notice of the state of the market for No. 8 red house is given in this paper. It is stated that the market is very active, and that prices are high.
