political and General News.

CALIFORNIA ITEMS.

The steamer Panama, with U.S. Mails, and news nine days later from the Atlantic, arrived at San Francisco in 16 days and 6 hours from Panama, having accomplished the shortest passage ever made between the two porta. Five men were drowned, in San Pablo bay, on the

gith of May. Their names and former resilences were as follows :- Dr. Reuben Knox, of St. Louis: John Allen of Burlington, Vt., James F. Graham, of North Carolins, nephew of Hon. Wm. H. Graham, Secretary of the Navy : a Mr. Davis, of Maine, and an Indian boy.

Newspapers are increasing in numbers and in different sections. The San Diego Herald and the Los Angelos Star have recently been added to the num-

A Long Island Indian, named Frank Brewer, was purpose of robbing. The Indiana have been troublesome in the southern

ection of the State. A company of white men, un-cer a Capt. Irving, are reported to have committed many outrages upon the inhabitants of Los Angel-es Valley. The citizens volunteered and went in pursuit. But the last accounts received is, that the judians of a certain Mission had destroyed Capt. Irving and his 11 men; Gen. Morehead's expedition, reduced to forty five

men, left San Diego on the 11th of May. His desquation is unknown.

The cap of the steam-chest of the steamer New World blew off, while she was on her passage from Sacramento to San Francisco, on the 4th of June, the steam rushing out and killing two persons, ope name unknown, the other, Peter Marks, fireman.

Terrence Bellew McManus, one of the Irish patriots, whose escape from New South Wales had been known here for some time previous, arrived bere about the 5th of June, and has received a most cordial and enthusiantic reception by all classes of our community. Crime had increased to such a fearful extent in

San Francisco, and so totally had the Courts and Police failed in meeting out adequate punishments, that a volunteer committee of our most respectable citizens has been formed for protection. A robber having been caught in the act of stealing, was summarily tried by them, found guilty, condemned to

death and hung the same night. The Coroner's inquest upon the body of the executed man went extensively into the evidence consected with the whole proceeding, and in their ver-dict implicate the Committee of Vigilance as the cause of his death.

Seven men were drowned at Park's Barlast week. Their names are J. Stull, H. Modesburgh, Charles Cox, Mr. Hodge, Samuel Miller, Jorigan and Vincent. Frenchmen.

The cinders, ashes and desolation of the last great fire. have nearly all disappeared before the new buildings and improvements, which followed upon the path of the fire storm, like the grass and herbage which springs up again when the tempest has passed away.

Reports from the placers and quartz mines are generally favorable. But they should always be received with several grains of allowance. Rumor lives in the family of the gold seekers.

Agricultural prospects are very good. Politics are rather at a full in the State, but it is a kind of ominous stillness prefacing the onset of two armies. The two parties have generally organized in the different counties.

Disp.-Very suddenly, on board the U. S. surveying schooner Ewing, yesterday at half-past 13 o'clock, Passed Midshipman Willian de Koven, aged 24 years. He was on abore on Friday, was taken with neuralgia of the stomach, seemed a little better in the morning, went to sleep at 8 o'clock, and him all night, went to his bed, he found him dying, probably from apoplexy.

> MAN HUNG BY LYNCH LAW. From the Alta Californian.

About 9 o'clock on Tuesday night a man carrying a bag containing something apparently quite heavy, attracted the attention of the whitehall boat-meu at their station on Central Wherf. He jump-ed into a boat with his bag, and pelled, out towards the end of the wharf. But a few minutes elapsed before Mr. Virgin, a gentlemau who keeps a ship ping office on the wharf, came down to the boat stand in pursuit of a person who had just rob-bed his office of a small iron safe, containing a considerable sum of, money. The man with the bag was at once suspected, and a number of boatmen. The story is true that Mr. Corsin threw up started immediately in pursuit. After a sharp pull continent free from the that Mr. Corsin threw up they over took him, when he threw his booty overmen succeeded in capturing him, while another fished up the bag, which proved to contain the stolen safe. He was conveyed on shore, and at once taken possession of by some of the vigilant committee, Portland square that very night. The precise mode of trial was of course a secret. During its progress the citizens had secumulated in large numbers about the building and Portland square. The populace was very much excited but more orderly than we ever recollect to have seen such a numerous assemblage on any aïmilar occasion. "Some disapprobauon was manifested at the secrecy of the Committee's proceedings, but when the result was known there was a very general approval manifested, although there were many who deemed the punishment of death too severe for the offence, and others thought he should be executed in broad daylight .--As soon as the sentence was passed, the bell on the California Engine house near by commenced ringing the prisoner's funeral knell. Capt. Benjamin Ray of the pulice applied at the door of the Commitsed several times, and although others of the police were upon the ground they saw it was of no use to attempt a rescue. About 1 s'elock, Mr. Samuel Brannan came out sult of the Committee's deliberations, stating that he had been fairly tried, convicted upon the strongest testimony, and no defence except a denial of the robbery. He gave the name of John Jenkins, and professed to be a native of London. Mr. B. stated that he had been allowed an other hour to prepare for death, and that Rev. Mr. Mines had been sent for to visit him, The crowd present promity approved of the action of the Committee. From that time the excitement began to increase and the matter was freely discussed by knots of citizens at the street corners, around the Committee room and in the square. A very large majority were in favor of the execution. The prisoner was perfectly composed during this time and indulged in a cigar. The clergyman promptly responded to the request to pray with the risoner and remained with him for nearly an hour. If we are correctly informed his presence had no particular effect upon the condemed man, who doubtless confidently anticipated a rescue by the police. About two o'clock the doors of the committee room were opened, and the condemned was for the first time presented to the populace. He was a tall man of very great muscular developments and with rather a forbidding countenance. He was smoking cigar and appeared rather pale but composed.-His arms were pinioned and his hands tied behind him, while he was surrounded by a rope thickly manned by armed men, many others closing on them detirmined to prevent his escape. In this manner, followed by a large crowd, he was conducted to the wildest scene of confusion and excitement prevail-Some person climbed the liberty pole to rig a block for the executioner, but a loud shout of "don't hang him to the liberty pole," arose. Voices acreamed out "to the eld shode," and a rush was made for the edifice, upon the corner of the square formerly occupied as the Custom House. A rush was at once licen nutices as having occurred in that city on Wedmade for the end of the building, a block rigged and a long rope run through it. In the meanine a the editor of the Free Press, who says: "Precisely number of the police, who were on the ground made the same phenomenon was observed at this place, several attempts to obtain posession of the prisoner, about a quarter, past ten o'clock the same evening. but they were roughly handled and prevented; had On the north and northwest horizon dark clouds were they p and sought to aid the police.

form of the convicted felon swept! through the sir and dangled from the block. A few fearful struggles, a quivering of the hempen cord, a few nervous twiches and the crowd gazed upon the lifeless corps of him upon whom such speedy and terrible vengence had been executed by an outraged people .--As he swung to and fro and turned round and round a feeling of awe appeared to apread through the crowd, who could not be otherwise than impressed by the terrible occurrence. Slowly they dispersed, but

when day broke there were still many gazing upon the swollen purple features of the doomed man. At six o'clock the Marshal, Mr. Cruzier, - repaired to the spot. cut down the body and coasigned it to the dead house. Thus ended the first execution that ever took place in Sau Francisco, where more crime has been committed within the past year than in any found dead in Montgomery street, on the 2d inst. _____ other city of the same population in the Union. He is supposed to have been drugged to death for the without one instance of adequate punishment. Of the guift of Jenkins there can be no doubt. He has

been known to the police for mouths as a desperate character from the penal colonies, where he had passed many years as a transported convict. FINANCIAL OPERATION .- We lately heard a story

illustrative of the early days of York County-those good old times when everybody was "bonest as the days were long." The parties were two of the ear-liest settlers in the western part of York (now Adams) county-both were of the honest old German stock-and as one of them is still living, we suppress the name. Peter, it appears, had increased the size of his farm by annexing thereto a small tract adjoining, and lacked about a hundred dollars of the sum necessary to pay for the new acquisition. He called upon his neighbor George to borrow the amount. George brought out an old bread basket, and counted out the desired number of "thalers"and then, of course, the two sat down to two large earthen mugs of cider, and as many pipes of tobacco. After smoking over the matter for a while, it occur-red to Peter, that in similar transactionshe had seen or heard something like a note passing between the borrower and lender, and he suggested as much to George. The lender assented to the propriety of the thing-paper, pen and ink were produced-and

between the two a document was concocted, stating | Passage from and Money Remitted to Great that George had loaned Peter one hundred dollars, which Peter would repay to George'in "dree months" (three months.) This Peter signed, and thus far our two financiers had made the thing all regular

and ship shape. But at this point a difficulty presented itself. They both knew that notes were made in the operations of borrowing and lending which they had witnessed -but neither of them had observed what disposition was made of the document-neither could tell whether it was en regie for the borrower or lender to take charge of the paper! Here was a dilemma. At length a bright idea struck George. "You haf der money to pay, Peter-so be sure you must take dis paper, so as you can see as you haf to pay it!"-This was conclusive-the common sense of the thing was unanswerable, and Peter pocketed; the money and his own note, "so as he could see as he haf! to pay it!" Three months passed over, and punctual-ly to the day appeared our friend Peter, and paid over the promised sum to George. This being done, the mugs and pipes were again paraded. After putting a while, Peter produce the note, and banded it to George, with the remark, "Now you must take de ote, so as you can see as de money haf been paid!" We'Yorkers may be trusted!-York Guzette. lote,

FEDERAL HONESTY .--- In past days, the editors were always writing about what they were pleased to call "Loco-Foco Robbery and Rescality," ' but we have heard nothing of these gentlemen relating to Galphinism and Corwinism. The following extract from a letter to the New York Herald shows how well Secretary Corwin understands the principles of at 12, when the physician who had been up with Galphinism. The Cabinet officers of the federal

Administrations are honest men-very? MP. Secretary Corvin, his fees and Margements. -- Mr. Secretary Corvin will leave for Ohio next

Wednesday. He may, or he may not come back. The best interests of the country and of the whig party can well spare him and his style of administering the Treasury Department. His interest in the Mexican claims has yielded him, ina lump, \$78,-000-s fortune for an Ohio freesoil politician, which he, a year since hardly dreamed of. He can now be at his case, if he will, in Ohio, without molestation or hindrance, at least until Congress shall raise a committee of investigation, and authorize it to seud for persons and papers relative to the awards upon the Mexican claims, and the payment of the same to the principals, agents and counsellors.

The prisoner by this time was nearly dead with fectly clear, and the state shone forth with remarkfear and rough handling, when a rush was made to-wards him, a noose thrown over his head, and the rain commeuced falling guite smartly, increasing in rope manned by twenty ready hands, and the heavy volume as it fell, and fasting some four or five minutes."

> SINGULAR DISEASE. - The Angapolie correspondent of the Baltimore Bun gives the following ac count of a fatal disease which has appeared in that vicinity:

"A disease is now raging in the county of Anne Arundel, between South and West rivers, which has proved to be as fatal as the cholera. The early stage of it is marked by an eruption of the skin, a swelling of the muscles of the throat, partaking of the character of the scarlet fever. There is nothing alarming in this stage of it, which continues for three or four days, when all on a sudden it fixed it-self upon the vitals with a violence and fatality which are arrested by nothing that has, as yet, been tried."

For the Cure of COUGES, COLDS, HOARSENESS, BRONCHITIS

WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION The workals of medical science, affording as they do, ample proof the power and value of many medical agents, have furnished o examples to compare with the salutary effects produced by

AVER'S CHERRY PECTORAL." The remarkable cures of discuses of the Lungs which have een realized by its use, attested as they are by many prominent

rofessors and physicians in this and foreign lands, should en courage the afflicted to persevere, with the strong assurance that the use of the CHEPRY PECTORAL will relieve and ultimately cure We present to the public, unsolicited, testimonials from some of

he first men in our country, upon whose judgment and experi nce implicit confidence may be placed.

Dr. PEREIN, President of Persons Medical College, one of the most learned and formidable physicians in the country, considers it.a " composition of rare excellence for the cure of that formidait.a " composition or the line and the line are, Consumption." Nonwics, April 36, 1846. Dr. J. C. Ayer-DeaPSir: Agreeable to the request of you seent, we will cheerfully state what we have known of the effect I your CHERRY PECTORAL, and they have been astonishing indeed. Mrs. Betsey Streeter had been afflicted with a severe and relentless cough, which reduced her very low ; so low that little hope could be entertained of her resovery. Numerous reme, ies had been tried without effect, before the CRERET PECTERIA, and that has cured her. Geo. Watkinson, Esq., had to of edge, been afflicted with Asthma for eleven years, and grd

ly worse, until the CHERRY PECTORAL has now removed the dis case, and he is as from from any of its symptoms as we are. The Rev. Mark Rane had been so severely attacked with the Brog-chilis, as to disable him from his duties, and nothing had afforded him relief, until I, Mr. Thorning, carried him a bottle of your PECTORAL which cured him at once, and he now officiates a wal in his place.

These are three of the cases we have known it successful, has never to fail. We have great pleasure in certifying to these facts; and are, respected sir, your humble servants.

REV. DAVID THORNING, HON, JOSEPH BATTLES. The public have but to know the virtues and astonishing su cess of the CHERRY PECTORAL, in curing diseases of the Lungs,

when they will fact secure from these dangers, whenever this re medy can be obtained. ared by J. C. Ayer, Chemist, Lowell, Mass.

arments as can be found in this market; but to new has no besinition in saving that if they will CALL AND SEE FOR THEMSELVES.

contigent free for only \$2.000, in the Plotida claims. they over took him, when he threw his booty over-board. After a severe struggle one party of boat-partment. The agent for those claims wished to retain him. and di i not want him to go into the cabi-het; but when he found he could not sell out his interest in the Mexican claims, as counsel S.c., for all of seventy thousand dollars, and yet go into the who conducted him promptly to their head quarters, where he was tried in presence of about eighty members of the conclave, sitting with closed doors, by them convicted and sentenced to be hung in the swore he would be released in the matter. And so swore he would be released in the matter. And so he was released. In writing, he released his employers and they released him.

Now, if it should so happen, that the Florida claims are just, and ought to be paid, under our treaty stipulations and obligations, and that the Mexican claims, for which Mr. Corwin was interested more deeply, were, for the most part, spurious and rotten and ought not to have been paid, what will be though of Mr. Corwin's disinterested patriotism in the mat ter?

STRAMING ABOUND THE GLOBE.-The San Francisco Courier, speaking of the proposed line of steamers from that port to China, says:

This link completed, the traveler leaving New York can proceed to Chagres by steam, from thence to San Francisco, to Macao via the Sandwich Istee room and demanded the prisoner, but was refu- land, Guam and Manilla-thence to Suez, via Singapore, Penang, Ceylon and Aden-thence to Cairo and Alexandria, to Southampton via Malta and Gibralter, and from thence by steam again to New York. The only break in steam navigation will be and ascending the bank opposite, announced the re- in crossing the isthmus of Suez. Thus he would be able to circumnavigate the world, visiting many points of interest, making the trip in 140 days. commercial advantages which must flow to the United States from this and kindred sources are too great for enumeration here, and too well known to equire it.

Recently the British government has decided to have a line of steamers to the East Indies by way of the Cape of Good Hope, which, together with the proposed American line across the Pacific, will complete the steam circle around the globe.

Whig Tactics-A Fair Hit.

From the Detroit Free Press. The following are the resolutions adopted by the late Pennsylvania Whig State Convention, in reference to the Administration and the Presidency: : Resolved, That the National Administration, un der the guidance of our Whig President, Millard Filmore, has the unbounded confidence of the Whigs of Pennsylvania; that in our domestic policy, its manly advocacy of protecton to native indus-try, the improvements of harbors and rivers, the reduction of postage, and the strict accountability of public officers; its energetic, republican, truthful and dignified management of foreign affairs; has accured for it the gratitude of this, and the respect of

other nations. . Resolved, That [in fiew of the foregoing facts, and the surpassing merits of Millard Flimore and his "energetic, vepublican, truthful and dignified" Administration] Gen. Winfield Scott [and not Nilfollowed by a large crowd, he was conducted to the public square. His arrival was announced with a Whigs of Pennsylvania, as their candidate for the shout and every description of vociferation-the Presidency of 1852, and that we carneally recommend him to the Whige of the Union as the most deserving and available/man for that high office. The words in brackets were inadvertently, it is supposed, omitted by the secretaries of the Convention in the hurry of preparing the proceedings for the press.

RAIN WITHOUT CLOUDS. - The phylomena of rain without clouds, which the Philadelphia North Amerthey persisted they would have been riddled with resting, from which lightning issued at repeated balls. Several citizens denounced the execution intervals: These clouds did not rise from the horison more than thirty degrees. Overhead it was per-
