The True Mational Basis.

A Glance at the Past.

The history of Pennsylvanis; tells powerfully against whig rule. The editor of the Reading Gazette, in an earnest inquiry as to what claim his Excellency Gov. Johnston has on the gratitude of the people, has, with pencil in hand, gone into figures: here are some of them: When Gov. Wolf retired from office, the Biste debt was a little over 24 milhons of dollars; and when Gov. Porter came into 15th. power, it amounted to more than 34 millions of dolthe State debt was just as he found it; but subseue the domestic creditorsion account of extravagant and useless improvements commenced by virtue of the Act of February 18, 1836. chartering the monster bank of the United States, and for other purposes, amounting in the aggregate to ten millions of dollars. The existence of these claims were purposely concealed, and their adjustments hoved off, in order to blind the people to the true state of affairs, and impose the burden of making provision for them, upon the shoulders of Rither's successor. To this enormous expenditure we must add nearly \$3,000,000 received from the General charter: all of which was squandered by the Ritner "Directory" in improvements which afterward passed into private hands at a ruinous sacrifice to the State, or were totally abandoned. This is a faiththat the same disposition still prevails in the party, we have only to recall the attempt made last winter by a whig Senate, at the instigation, or with the concurrence of Gov. Johnston, to increase the State resentatives, and to that body belongs the credit of having shaped an Appropriation bill whose estimates were confined within the ordinary available means of the treasury .- Pottstown Register. .
