The barque A. B. Sturges, from Santiago de Cuba the 16th inst., arrived this morning, bringing parusi confirmation of the revolt at Puerto Principe. We translate the following from the Diario Redactor, of St. Jago, July 12th :

"Yesterday afternoon the Commander General, Adjutants, and a picquet of lancers, left the city, having been preceded an hour before by the companies of Chasseurs of the regiments of Cuba and Un-

This event, exaggerated as it always is among such a class of people, is of no consequence, and al though almost among us, has produced no effect. Nevertheless it is our duty to present it in its true point of view, that extravagant reports may not be circulated at a distance.

"We believe that the general goes to Bayoma, a point where information can be obtained, and neces-sary observations directed. It is said that the body of robbers have disbanded themselves, and are scattered in the neighborhood of Puerto Principe ; but as our cavalry are fullowing them closely, nothing is easier than to have the whole or a great part of them in the power of our Queen's troops. In this case we shall soon know what they have done, as well as what object they had in v ew.

What the effect of the news was among the citigens of New Orleans, the Delta thus describes : It created an enthusiasm among them which we

such as clearing land, chopping cord-wood, hewing timber and toiling beyond his strength to support a widowed mother, and several young brothers and sisters, left in destitute circumstances by the death of a husband and father. Thus far the history of these two brothers is no

more than that of thousands of young men in our country at the present time; but let our young friends make the sequel, and from the example and present prospects of these brothers, draw hope and inspiration in the hour of gloom and despair. Arrival of the Empire City. NEW-YORE, Aug. 6-2 P. M. The Empire City arrived this morning, confirming the ecounts of another fire. Ten squares were consumed. The Presbyterian Church on Stockton st. was burned. Chas. S. Lyon was burned to death ; also, Mr. Beth, of the firm of Buth, Burnett, & Co. 500 buildings and a great deal of lumber were destroyed. The loss is \$3,000,-000. The fire was undoubtedly the work of incendia-

ries. Several arrests have been made, but no one has hean discovered to be actually guiky.

The excitoment, since the fire, against the deeperadoes living among us, has resulted in a determination on the part of our citizens to prevent the landing of any more pérsons from the penal colonies, unless they can produce testimonials of a good character.

Capt. Snow, a respectable citizen, was murdered in the tity of Sonora, and two days afterward two of the murderers were taken and hung by the populace. A row occurred near Carsons' diggings, in which two Americans and three or four Mexicans were killed.

Accounts from the mines and placers are very en ouraging. The crops are promising. 'Our city is growing up again very fast. 200 buildings have been erected during the past week.

A horrible murder has been committed at Sebera Some persons who took offence at an article in the Sonhead. They also killed two other persons connected with his office, and killed and wounded three or four other persons who went to their amoutance.

Mr. Fisher was a con-tractor on the North Brrnch Canal, and occupied as office a room in Mr. Stalford's house, and a room directly over the office as a sleeping room. In the up-per room the deceased persons and a Mr. Coolbaugh were asleep, when the house took fire. Mr. Coolbaugh alone, of the persons, escaped. He says he was awakened by hearing young Fisher exclaim, "We are burning up!" He attempted to get out by going down stairs, and was repulsed by the flames in the room helowig. He made a second attempt. when he fell and broke his wrist, and, retreating again to the chamber, he found his way out through a window. The others a woke and attempted to get out, as was evident from the location of their releft a wife and children. We know not whether the others had families,

Mr. Stalford and family were asleep in other parts of the house, and all providentially escaped from the flames, saving, however, we understand,

nothing of the household goods, except a singlebed. Mr. Fisher, we understand, had received an esti-mate the day before, and on Saturday had paid off such of his hands as would take their pay, it is supposed he had in the office several hundred dollars. which together with the books and papers connect. ed with the business there, were all burnt.

Attached to the house was a large shantee in which the hands were asleep, all of whom made a providential escape. The shantee was entirely consumed.

The disfigured remains of the deceased persons were brought to this place on Monday, and after being placed in coffine, were conveyed to the residences of their afflicted families or friends, respectively.

THE ONE TERM CANDIDATE .- GOV. Johnston made solemn and oft repeated pledges to be a candidate but for one term.

He has used his official patronage and influence to procure a nomination for re-election, and is now

soliciting votes for a second election. Gow Johnston and his party abuse Gov. Shunk without stint or measure for exercises, the veto power. Yet this same Gov. Johnston has resorted to the use of the veto to defeat the expressed wishes of the people; and in the case of the kidnapping bill, he has resorted to a still more detestable way so he stows it away in his breeches pocket until af ter the election.

Gov. Johnston and his party made loud and frequent complaints against his predecessors for the occasional use of the pardoning power, while he has used it indizeriminately for the basest and most mer-Cinary purposes. He undoubtedly expects a strong support from birds just let loose from the Penitentiary .- Carlisle Volunteer.
