The Steamer Empire city, Capt. Wm. H. Brown strived Aug. 6th from Chagres, from whence she sailed July 25, via Kingston, July 30, with specie,

and passengers to M. O. Roberts, Esq.

The Empire City, brings the California mails of July 1st, 360 passengers, and \$1,700,000 in gold dust. The mails were brought down by the steamer Panama in 18 days form San Fraucisco. Bhe left at Chagres the steamship Georgia and Prometheus, waiting the arrival of the steamers Isthmus and Union, neither of which had reached Panama on the morning of the 23d ult., but were hourly ex-

ANOTHER GREAT FIRE IN SAN FRANCISCO. The occurred within the last two years. The Fire broke out on the 22d of June, in a two story wooden hunding on Pacific street, and was not arrested till five hundred houses, comprising about a third of the city were consumed. The Atlas Says: .

A few moments before the fire, the air seemed the North Fork. calm and stirless, but with the progress of the fiames, a wind seemed to rise, and in a lew minutes a strong gale blew from the northwest.

The scene upon the Ruza was terrific and singular. Goods were moved to it from all parts of the city, and after the buildings on the north side and the abode buildings had caught and were burning, many of the goods on the Washington side of the removed, and many of them deposited on the lot vaand the block between them were prinicially occupied by a French and Mexican population.

It is understood that a Committee of Vigilance

have made a large number of arrests on charges of incendiarism and theit committed during the nie .-Three have been tried and honorably acquitted .-Others are still ironed and held in customy for fu-

ture examination.

There is no doubt that the terrific fire was the work of an incendiary. The time beleeted was a good one, just as the people were going to church on Sunday morning, and the place was upon a hiri, accurate account of property destroyed, or of the losers. Probably about three militims of dollars' worth of property has been destroyed.

vincial Government is to be established without delay. This fire, though small in comparison with the last, has fallen heavily upon the class of citizens who were the least able to bear it. Most of them. are poor men, men whose all was invested in the houses and goods which have been destroyed. He was airested, and as it is understood, was handed over to the Vigilance Committee. The portion of Marvin & Micheock's building, occupied by Louis Kimer as a cigar store, was fired to the rear by some miscreant who broke one of the panes of glass in the sast of the door leading to the yard, and set fire to the curtian of the window; the mark of the match, ignited for the purpose, is visible on the door. More than evconnected with this fire has circular shown it. The San Francisco Herald suys:

During the conflagration, eight persons certainly lost their lives, either from the airect effects of the bre or from circumstances growing out of it. Three were shot by an other in the act of roboting. Two were beaten to death, one a Frenchman, named Jean Babtiste Durand, who was falsely accused of incendurism, and the other a Mexican who was stead lig some bales of goods, and one died from terror and excitement. There are rumors that besides these a Mexican woman and two chinaren were burned to death in a house on Dupont-st., and one or two others beside Mr. Lyons in Mawson Brothers' store. In addition to these, Pollock was shot at

By discreasing over the land, it harrows the ground, sows the seed with the most exact regality and precision, and covers all the seed a good and proper depth, thereby saving much inne, labor and seed in planting. The subject of drilling wheat is deservedly attract ing much attention at this time, and is fast taking the place of the old unperfect way of sowing broad-east. It is fast gaining ground, and with soon be universally adopted.

One of the many experiments in drilling, made by Charles No-ble. Laq, of the State of Delaware, will be given. See the contrast: Wr. Noble says. Previous to harvest I had five acres carefully measured with the claim and compass, by W. Jenning. The streyor was present when the wheat was cradied, and saw that each acre had its due share. It was put away in separate mows, and threshed separately, and all the grain measured. This experiment showed the following results: The broad-east sowing had two busbels of seed to the acces, and produced threy-seeven shocks—twenty-seven busbels of wheat.

Another gentleman, Mr. Frances R. Dittoe, of Perry Co., Olino, says: "I have, this fall, put into my farm 35 acres of wheat, with Gailing's Premium Grain Drill, and Uhave no he-station in pronouncing at the cive trill that have ever seen. The annals of medical science affording as they doprupte proof of the power, and value of many medical agents, have furnished no examples to compare with the salutary effects produced by

ble diease, Conshimption." Dr. J. C. Ager-Dear Sir: Agrecable to the request of your

agent, we will cheesially state what we have known of the effects of your Cherry Precorat, and they have been astonishing indeed. Mrs. Betsey Streeter had been afflicted with a severe and mientless cough, which reduced her very low; so low that little hope could be entertuned of her recovery. Numerous sense, ichad been tried without effect, before the Energy Pactonal, and that has cured her. Geo Watkinson, Esq., had to our knowle edge, la en afflicted with Asthma for eliven years, an I grown jenrly worse, until the CHERRY PLETORAL has now removed the discase, and he is as free from any of its symptoms as we are. The Rev. Mark Dane had been so severely attacked with the Bron-ciates, as to disable him from his duties, and nothing had afforded him retief, until I, Mr. Thorning, carried him a bottle of your Protograf, which cured him at once, and he now officiates as u-ual in his place.

These are three of the cases we have known it successful, but neverto tail. We have great pleasure in certifying to these facts;

and are, respected sar, your humble servants.

REV. DAVID THORNING,
HON. JOSEPH BATTLES. The public have but to know the virtues and astonishing suc ers of the CHERRY Pactonan, in curing discount of the Lungs, when they will feel secure from these dangers, whenever this remedy can be obtained. Prepared by J. C. Ayer, Chemist Lowell, Wase.
