NO EXOUSH FOR BAD BREAD.

A NEW article is now introduced to the public, which is warranted, when used with good flour, to make light, sweet, and
consequently marritons bread. By the use of Preston & Merrill's
Instablic Yeast Fowder, you can avoid the consumption of a
large quantity of impure vegetal be matter, which is contained in
Bri wer's Yeast; and chalk, aloun, marble dust, and had flour,
which are contained in the articles soldas "Cream of Tartar and
Sola for making flread." Last but hat least, you can avoid the
danger of faiture in making good bread, as when this powder is
used according to the directions, the bread is sure to rise. It requires no time to stand before baking and is equilty adapted to
toves, but breatify or rolls, buckwheat and other guidle cakes,
gingerbread, and sweet cakes of all kinds. A liftle of it added to
the batter for dumptions, boiled rapile puddings, and hot pers,
and will make it cleantly light, and much more digestible.
This is warranted to keep in any climate. For sale by

SEPIRIE THOMAS.

Dr. H. Swayne—Bear Si:—Being for a length of time afflicied
with a very violent cough, with pain in the side and breast,
soccess of lungs, shortness of breath, loss of appetite, night
sweats, &c., I made trial of various remedies which were reccommended highly in the papers, but gradually grew worse. The
violence of my cough was such that the blood rushed profusely
from my nostrils when the paroxysms came upon; indeed, my
whole system seemed prostrated, and the hour of my departure
seemed near at hand. At this time you recommended the use of
your Compound Syrup of Wild Cherry, which immediately began
to soothe, comfort, and allay the violence of my cough, relieved
the pain in my side, strengthened and healed my lungs, &c. I
coatinued the use of it, but now, thanks to God, and to the effect
of your Compound Syrup of Wild Cherry, I am cured, and able to
pursue my daily labor. I think it an invaluable medicine in
coughs, colds, and diseraces of the lungs, and one that should be
known to all afflicted. If persons would purchase the original
and genuine afficie, as prepared by you, and not tamper with
the many spurious and worthless preparations which are attempted to be palmed off on the reputation of yours, it might be
the means of saving many valuable lives. I freely offer this
statement for the bennift of those who are suffering as I was

Practical Examples, Shaming the Advantages to be Derived from Life Insurance. Mr. Solomon Schoyer, a highly respectable commission merchant at Pittsburg, effected an instrance of \$3.000 on his life with the Keystone Mutual Life Insurance Company of Harrisburg, on on the 17th of July 1830. He received his policy, and poid his premium on the 18th of Illus 1830 and 1830

the Keystone Mutual Lafe Insurance Company of Harrisburg, on on the 17th of July 1859. He received his policy, and paid his premium on the 28d day of July, but two days after he received his policy. He had enjoyed uninterrupted gold health all his life up to the very moment of his death. His widow, Penchope Schoper, received from this company within \$0 days after his death, \$3,000 as will be seen by her letter of acknowledgement below.

To the President and Directors of the Keystone Mutual Life Insurance Company, at Harrisburg, Pa.

GENTLEMEN:—The prompt manner in which your efficient acout, Mr. Henry Sproit, attended to the claim of myself and family for insurance upon the life of my law lamented husband, \$8.85 hoyer, and the promptness with which the Company partition that claim of \$2.000, impels me to take this method of returning to the company my thanks, believing as I do that your company possers advantages for hic indutance over most of the company possers advantages for hic indutance over most of the company includes and caretul managers and agents. I would cheerfully recommend your Company to all who may wish to avail themselves of its benerolent operations. PENELOPE SCHOYER, Phitsburg, Nov. 32, 1830.

Still another, showing the wise forethought of a Clergyman. Rev. T. Marshal Boggs, paid of a Presbyterian Charch in Mount Jov. Lancaster County, Pa., took out a policy of Insurance on this consumy in June, 1830, for \$500. He deed of Egysipelas fever on the 16th of Nov. 1839; but by his provident care and forethought left to his bereaved family his Policy of \$00, which had cost him but \$23.

No. 120, Arch Stroot, Philadelphia.

Their poers occe the above diseases in no escellet, if equalled, by any other preparation in the United States, as the cares attest, in many cases after shiffed physicians had failed.

These littlers are worthy the aitention of invalids. Possessing great virtues in the rectification of diseases of the Liver and Lesser glands, exercising the most searching powers in weakness and affections of the digretive organs, they are, withal, safe, certain and niesant. half dead, or injured stomach produces no good Gastre Juice, and hence the disease, distress and debility which cause.

PEPSIN AND RENNET.

PERSTS is the chief element, or great digesting principle of the Gastre Juice. It is found in great abundance in the sold parts of the human stomach ofter death, and sometime-scauses the stomach to digest itself, or ent itself up. It is also found in the somach to digest itself, or ent itself up. It is also found in the somach of animals, as the ox, salf &c. Baron Anchor states that, "One just of Epsish dissolved in sixty thousand parts of water, will digest meat and other food." Disenses founded parts of water, will digest meat and other food." Disenses founded produce no roof Gastre Juice. Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

SCIENTIFIC EVIDENCE.

Baron Liebig, in his celebrated work on Animal Chemistry, says. "An Artificial Digestic of Hood, as inealy and eggs, will be softened, cheiged, and digested, just as the same measure as they would be in the limit of supplied, as the same measure as they would be in the limit and signated. Dr. Grahum, author of the famous works on "Vegetable Diet," says: "it is a remarkable fact in physilogy, that the stomaths of animals, macerated in water, impart to the fluid a property of dissolving various articles of tood, and af effecting a hist of articleal digestion of them in no wire different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila. 1848, pp. 221-2) says: "the discovery of FEP-SIN torms a new era in the chemical history of Digestion. From recent experiment's we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from i ream, as it is in the natural Gastric Julies itself."

Professor Devations, of Philadelphin, in his great woroak fluing Physiology, devotes more than fity pages to the examination of his subject.
