We have barbly room this week to call the attention of our readers, and the politicians of the State generally, to them, before going to prase. We cannof, however, let the opportunity pass without endorsing the action of the Convention fully and nureservedly in every particular. In regard to from all parts of the county that, our gallant candidate for Governor. Col. BIGLER, will receive the united and than any candidate before the people for years.

Sunbury and Eric Bailroad.

A meeting of the friends of this road will be held thi evening in the Court House, for the purpose of appointing delegates to the convention on the 25th, at Philadelphia. We hope there will be a general attendance.

Erie and Edenboro Plank Road.

We are pleased to learn that arrangements have been made to immediately commence ten additional miles of this road-five at this end and five this way from Edenboro. Weather, andother contingencies permitting, the whole ten miles is to be completed by January 1, 1852. Thus it will be seen that this arrangement secures the construction of the whole road early next spring.

Erie Teacher's Institute.

We are pleased to learn that the first session of this institution is well attended - about forty teachers from the county being present daily, who evince, by their attention to the exercises, a lively interest in its objects. It was organized by appointing Professor Wright, of Ohio, President; and Mr. O. D. Hendryx, of this city, Secretary. Among those present from abroad, is the able presiding officer; Rev. S. Newbury, of Cleveland, Ohio; Mr. Putnam, late Superintendent of Common Schools in Chantauque Co., N. K .; and Miss Fidelia Drummond. of Manmee City, Ohio, and Professor Lambert, of New York. We have not been able, on account of other engazements, to attend any of the sessions of the institute. but we nevertheless appreciate the efforts of those who have been instrumental in getting it up, and with the Gazette, "we take pleasure in montioning Walten Ches-TER; Esq, as having consecrated, with unfaltering ardor, his energies to the work. He is cutitled to the thanks of the friends of Education-the thanks of the rising generation-the thanks of the whole community,"

friends, as one of the delegates had it, " from representing in the county, and secure a member of their own tatives down to Director of the Poor." The following is stripe in the Legislature. How they succeeded will be the evidence :

For Assembly-Chas. W. Kelso, of Erio, A. W. Blane, of North East; Associate Judges-Jos. M. Sterrett, of Skinner, of Erio : Register and Recorder-David Mc-Dunn, of Erie.

Personally, this ticket is unexceptionable, but as the embediment of the "Regency" who congregate about enough to appreciate good living and good pay, there the Canal office, and " Market House," it cannot but were those who thought there ought to be a change. be a bitter pill to those who do not bow down at the shrine Among these was our cotemporary of the Chronicle. He of "our Senator." And this applies more particularly had labored long and faithfully for the whig party-and to the west, where it is understood the most dissutisfaction with the course of that gentleman has heretofore existed. On account of this fact, we presume it is, that that part of the county, although the Gibralter of Whig ever, the office of Prothonotor he thought would just suit strength, is totally excluded from the "least of fat things," while Erie, and the townships adjacent, have carried off seven out of the ten, offices-Erie alone having five.

Among other curious matters connected with this highly amusing and laughable division of the spoils, is the fact that while our cotemperary of the Gazette was numinsted for the post he now so creditably fills by the grace him credit for. Something must be done, and that quickof Gov. Johnston, his colleague, Judge Miles, who received his appointment about the same time from the same hand, is very uncereinoniously thrown overboard. While this is evidently a stab at Gov. Johnston, and accounts somewhat for the very cool reception that worthy functionary received at the hands of the Whire of Erie. it is also a sore rebuff to the West for the denunciation it has meted out to "our Senator" for his opposition to their railroad interests. And this spylies, more or less, to every candidate nominated; for we understand that it field for the office. This was a settler; and our cotemthat he had dared to think upon railroad matters as his judgment dictate 1, to at once bring him to the stool of the spiratora" what he thought of them-ride, last, Chroniappeased. It was in this way W. S. Lane, Esq., the defeated. It was in this way Judge Miles was defeated, and it was in this way, we are assured, Mr. Chambers, of Harborcreek, was defeated for Register and Recorder. and a contractor, and a heavy one, too, on the littsburgh; read, nominated over him. Thus, for instance, the person having the next highest number for Assembly on the first ballot, it has been ascertained, was defeated by those opposed to him representing that he was opposed to the Sunbury and Erre railroad, which so far from being the fact, the very reverse was the case. Indeed, actions, which speak louder than words, point unertingly to the faction who are now glorying in the success of such jugglery, as the very men who have oppesed the read, and who undoubtedly will do so again after election. Again, the same kind of a "little joker" was made to tell effectually against one or two of the candidates for Register and Recorder by the managers of the party horse. These and similar tricks; known only presented in the ticket selected; and shows at once that, though the country whige are very faithful on election days, they are by no means a match for the political "Faro dealers" in town, on Convention days,

It was evident he could not carry the county against the malcoutents, headed by such men as Judge Miles in Blane, Esq., who was again a candidate, and who was understood to be hostile to the "regency." Another happy thought! By multiplying candidates all over the county, they could secure delegates pledged to such local men, and when they had them once here in town. they hoped to combine them upon one of their own "stripe" in opposition to the candidates of the disaffected. Forthwith the columns of the Gazette teemed with anhave thought about a third of the whige of the county were auxious to go to Harrisburg. This accomplished, and a kind of a bargain patched up with Mr. Bline. wherein it was very generously agreed on their part not to oppose his nomination, an event they could n't help, and on his to remain neutral, and the "regency" rested on their oars. But it was a troubled rest, something like Richard's, or Ludy Macbeth's, for they had frightful dreams of " Loco-foco tickets" and " Observer traps;" county previous to the delegate election, warning the faithful to beware of some an ful dead-fall to catch whig wit: The Whig County Convention, which met in Erie on prigeons, set by the before-mentioned Observer and its Wednesday, resulted as we anticipated. Circulars were issued lauding the present incumbent to the skies, but still the "silver-gray" was not frightened. Col. Bigler visited Meadwille on Friday of last week and received a most enthusiastic welcome. He spoke for nearly two hours, and the Democrat says his address covered the whole ground at issue—the State debt, and the financial subjects connected with it-the tariff, and the slave question, all were discussed in the most able and lucid manner. The number present was variously estimated from 2000 to 3000, and the impression made upon them was decidedly favorable. He confirmed the wavering, stimulated the doubting, and delighted the
