

Footings on the Tables.

We have the official returns of the whole State for Governor, except Green, and that reported, and the majority for Col. Bigler is about 8,300! For Canal Commissioner and Supreme Judge the returns are by no means complete, but Col. Bigler is about 10,000 votes in the State, and the other candidates are by no means far behind.

Virginia Election.

The election in Virginia for members of Congress and for the adoption of rejection of the New Constitution submitted to the people, has resulted, as we supposed it would, in an overwhelming Democratic victory.

Another Proclamation.

Mr. President Fillmore, not having the bloody contents of his Cuba proclamation before his eyes, has issued a similar one in regard to the Revolution now in progress in Northern Mexico.

What Col. Bigler's election does not show.

The Pittsburgh Post, in an article headed "The Late Election," claims, among other things, which the result has shown, "that the Hon. James Buchanan is the choice of a great majority of the people of the State for President in 1852."

As an item of the signs of the times, we notice the Commercial of this city is disposed to follow in the wake of the Harbinger American and other woolly-head whig papers, and lay Johnson's defeat at the door of Mr. Fillmore.

That Foreign Interference.

The Boston Courier has "the best reason for believing that the whole story of a very spirited rebuttal has been given by our Government to certain diplomatic interferences of the British and French Governments, on the subject of Cuba, is entirely groundless."

A Notable Answer.

The Harbinger Daily American has been disappointed. Mr. Conroy, its proprietor, in announcing this event, says: "The whig party of the State has been penetrated by the effects of such a course, and there is nothing in the present condition of the party to justify the risk and expense of publishing a whig daily paper at the seat of government."

The Sierra Madre Republic—Manifest Destiny.

It did not take a very learned or a very astute philosopher, we apprehend, to make the discovery and publish it to the world, that "this is a great country," and has quite a respectable number of "people to the acre."

It is in this correct, then, and we see no reason to doubt it, we may expect to do distant day to have this new Republic, like Texas, knocking at our door for annexation.

It is in this correct, then, and we see no reason to doubt it, we may expect to do distant day to have this new Republic, like Texas, knocking at our door for annexation.

Upon this point we like the philosophy and reasoning of the New York Times.

It says, in speaking of the prosperity of the American people for annexation, "it is thus that civilization advances. Rome civilized Europe by conquering it. She robbed barbarians of territory which they neglected, and planted upon it a new and better culture. England has conquered, colonized and civilized vast regions of Asia, which but for her robbery, would have rested in the depths of barbarism."

If this is the sentiment entertained towards future annexation by a paper like the Times, the Editor of which belongs to that school of politicians that opposed the annexation of Texas to the "bitter end," the road of the revolutionists in Northern Mexico is plain before them.

They have but to "conquer a piece," and demand admission into the Union, and it will be granted. Perhaps the Times thinks "what we can't cure" we had better make the best of, and as determined not to be caught on the unpopular side of the question again, as in the Texas affair. But, as we have before intimated, we opine there are a great many more of those who opposed Texas that have the same way of thinking.

The Tariff and Immigration.

Seeing that Pennsylvania has so emphatically rebuked the Tariff humberg attempted to be revived at the recent election, it may be rather late to note some of the fallacies of its advocates; nevertheless as some of the protectional papers have set up a claim for the tariff of 1842, that, by maintaining a higher standard of wages at home it encouraged a larger foreign immigration into the country than a low tariff, thus promoting the sale and settlement of our unoccupied domain, we cannot forbear relating it, even if it is a little after the election. The New York Journal of Commerce opposes to this claim statistics, showing up the whole thing in a nutshell. It presents the immigration at that port in each year of the high tariff of 1842, and contrasts with each year of the moderate tariff of 1846, as follows:

Table with 4 columns: Year, No. of Immigrants, Year, No. of Immigrants. Rows for 1842, 1843, 1844, 1845, 1846.

Total in 5 years 390,443 Total in 5 years 1,037,493

These (says the Journal of Commerce) in nine months of the present year, the immigration has been more than double that of the highest year under the tariff of 1842.

In five years under the new tariff (making allowance for the deficient three months), the immigration has been nearly triple that of the five years during which the tariff of 1842 carried the law at the expense of the many.

That Good Time Course.

The Pennsylvania says Gov. Johnston's organ, the Harbinger Daily American, is out bitterly against Webster, Fillmore, Cooper, and others, as the direct cause of Johnston's defeat in this State! The article is filled with the same abolition and free soil poison so liberally doled out during the late campaign. The North American, taken nearly the same ground, and adds to its denunciation an attack upon the Harbinger and the New York contemporary in the same party in Philadelphia.

LOCAL AND GENERAL ITEMS.

The weather in this vicinity the past week has been a mixture. Some rain, some snow, some hail, some sleet, a good deal of wind, and, under foot, a small sprinkling of mud.

We learn from the Gazette that Mr. James W. Carr, formerly Sergeant of the Marines, on board the U. S. Steamer Michigan, was one of the fifty Cuban patriots, shot at Havana, on the 16th of August. He leaves a wife and two children in this city.

A little the nicest place to indulge in a dish of oysters, raw, broiled or fried, is Harris' Washington Lunch, just opened in the Reed House. The proprietor has a peculiar facility of getting things up steam, and the table he displays in the arrangement of his rooms, is a sure sign he can hit the taste of his customers. Give him a call, if for nothing else but to see what a person can do with "pine apples and paper."

We learn from the Gazette that the whigs are about getting up a Brass Band. This movement reminds us of that youthful musician who set up a lively whistling in going through a grave yard in the night, to keep his courage up. The recent election has proved a perfect grave yard to whig hopes, and now they are going to have a little music keep their courage up. We suggest the first piece they perform be "the Johnston Quick Step."

The Geneva Farmer, one of the best and cheapest Agricultural papers in the country, is to be greatly improved and enlarged at the commencement of its thirty-eighth volume, January 1st 1852. The proprietor says it will be printed on new type, better paper, illustrated with more costly engravings, and be one-third larger than at present, each number containing thirty-two instead of twenty-four pages, without any increase of price. The price is 50 cents a year, or 5 copies for \$2.50, or 10 copies for \$4, and any larger number at the same rate.

To be Contested.

We learn the election of Samuel Parley, to the office of Prothonotary of this county, is to be contested, and that the necessary papers, to that effect, have been filed in the proper office. The grounds set forth by the 30 petitioners (the apostolic "12" have been enlarged it will be seen), are substantially, that, as the votes cast were for "Prothonotary" only, there is no person elected Clerk of the Courts of Oyer and Terminer, Quarter Sessions, and Orphan's Court; hence the "30 lawful citizens" aforesaid pray the Court to declare the office vacant. Whether this move will succeed or not we do not know, but its object is apparent on the face. The gentlemen who have heretofore ruled this county are not satisfied with the decision of the people at the late election, and are seeking some hole through which they can shove the present incumbent of the Prothonotary's office into that snug little berth for another year. Perhaps they will succeed!

The Editor of the Gazette asserts that Miles tickets "were not printed at all" at that office, with or without the knowledge or consent of the proprietors. How a person can be so positive as to a matter of which he has no knowledge, is not so plain—however, as our contemporary is thus positive, we suppose we must give it.

Arriet's Union.—We again call the attention of our readers to the "Arriet's Union of Cincinnati." The time is rapidly approaching at which the paintings will be distributed, and those who wish to be participants should secure tickets immediately. Benjamin Grant, Honorary Secretary for Erie. Tickets \$5 00, which secures to the subscribers two magnificent engravings, and a chance in the drawing.

Among the members of the next Legislature, we are pleased to notice the name of ELLIS BOWMAN, Esq. of Cumberland. Mr. B. is a Democrat after our own heart, and by his services and talents, last winter, placed himself at the very head of his party in the House. "Old mother Cumberland" has reason to be proud of her representative.

The township of Bensinger, in Elk county, is one of the townships "on road of it," having polled 164 votes for Bigler and Clever, and 163 votes for each of the Democratic candidates for Judges of the Supreme Court; whereas, opposite the names of each of the Whig candidates, from W. F. Johnston, down, there is an ominous little word split—"n-o-n-e."

MAKING AMES OF THEMSELVES.—Senatorial dignitaries are in bad odor just now in this State. While a portion of the whig press are denouncing Mr. Senator Cooper like a pick-pocket, a portion of the Democratic press, headed by the Pennsylvania, are down on Mr. Senator Brodhead like a "thousand of brick." Both parties are undoubtedly making asses of themselves, a fact they will likely discover before they are a year older. By the by, had both these denouncing fag-end butteer unite and form a party of their own. It would possess some quality they are undoubtedly striving to obtain for the party with which they are now connected—it would be "conveniently small."

Some of the Southern Whig papers are "awfully given to lying," just about these days. For instance, the Louisville Courier, in noticing Johnston's defeat, declares that "so far as Mr. Bigler is concerned, he is really more of a Free-soiler than Governor Johnston." Such a falsehood as this may do in Kentucky, but here where the facts are known, it only creates a smile at the ignorance or stupidity it displays. Again, the same venereal Editor, in speaking of the Ohio Election, says:—"The Western Reserve, which, in times past, was so overwhelmingly whig, has now, under the lead of Giddings and in conformity with the bargain made between the Free Soilers and the Locof, gone strongly for the Locofoco-Abolition ticket. Ashtabula county, for instance, gives Wood 700 majority." Certainly, this writer knew that there was no bargain in Ohio between the Democrats and Abolitionists. So far from it, that each party, Whig Democrats and Free Soilers, had separate tickets: that so far from Ashtabula county giving 700 majority for Wood, that number of votes was all received in the county—the balance, some 4000, being divided between Whig, anti, and Lewis, free-soiler.

The Editor of the Fredonia Censor says "I can no longer shut my eyes to the past of our whig party," which remarks, by the by, were contained in a little bottle we sent him, filled with amber colored "receipt." Now, we submit to our mutual friend of the Fredonia Advertiser, if he of the Censor has not a mistake—a certainly meant much instead of "I."

A FIT PLACE FOR SUCH A DEED.—It appears that the spot where the late negro outrage was perpetrated, Christiana, Lancaster county, Pa., was very appropriate for such a deed, and had already an established reputation. An exchange says of it:—"The plotter occurred the late outrage in Lancaster county, the worst hole in the county during the revolution! It was from this very point of the 'Gap Hills,' by the Tories conducted the surprise of Gen. Wayne's camp at Paoli, where they, amidst the night and darkness, massacred nearly all his brave troops. From the same point poisoned flour was supplied to the American while good flour was furnished the British troops!"

The Harbinger Editor of the Gazette recommends "public marriage," and "it is the pleasantest position imaginable when 'got into it.'" This may be, and undoubtedly it is, but how a bachelor should be able to speak so positively a query, with several young ladies.

The circulation of the N. Y. Times—the advent of which, into the market, we noticed some time since—had reached 12,500 last week, and steadily increasing at a rate about 300 a day. It contains a great amount of good politics, and is, on the whole, an excellent paper, if he of the Censor has not a mistake—a certainly meant much instead of "I."

A CLEAR BETTERED FOR FEBRUARY.—In the Municipal Court at Boston, on Monday, Rev. Benj. S. Corbett, a man of the Baptist persuasion, was convicted of two deeds for the conveyance of land, in the name of his father-in-law, Robt. Thompson. Sentenced to solitary confinement in State Prison, the first three or four months.

SIGHTS FROM OUR EXCHANGES.

See how full in Warren on Sunday evening last an inch or more in depth.

"Johnston's Quick Step" is the title of a new piece of music just published in Philadelphia. We suppose it is set to the tune of 4,000 majority.

Negro ministry is the most profitable business in New York. Mr. Christy states his receipts, for the past year, to have been \$57,000.

It is an extraordinary fact, stated on authority, that there is at the present time more of an Irish population in the United States of America than there is in Ireland itself.

It is computed that one hundred and fifty poetical "welcome to Kossuth" have already been written, and that by the time he lands the number will have run up to 25,000.

More Harbinger.—F. T. Bartram, the Bridgeport Standard says, will be nominated for next Governor of Connecticut by the Temperance, and also by the Democratic party of that State.

The clipper-yacht America is now manned with a new crew, and is undergoing some alterations, preparatory to her sailing, with her owner on board, for the Mediterranean.

The Indians give each other some very significant names. Lieut. Hooper of the Arctic Expedition, found a woman at Fort Simpson whose name is "Thirty-six tongues," and very appropriately named at that.

YOUTH EMIGRANTS.—A little boy and girl, the former 8 years old, and the latter 5, arrived in Utica a few days ago, having come from Ireland alone. They had been sent for by their mother who resides in Ulster.

The Louisville Sunday Varieties is going to be published daily—that is, the editor is going to turn every day of the week into a Sunday, just for the sake of the Varieties.

The New York Tribune states that one bank in Wall street had 666,000 of notes and acceptances mature on Saturday, every dollar of which was promptly met.—The payments into bank on that day are estimated at upwards of \$3,000,000.

THANKSGIVING.—The Governors of Maine, Pennsylvania, Ohio and New Jersey, has appointed Thursday the 7th of November as a day of public thanksgiving and praise. The same day is being generally fixed upon in all the States.

The young whigs of New York don't much like their party name; so they adorn it by calling themselves "democratic whig young men." The word democratic is to them what a dicky is to a fellow without a shirt; it keeps up appearances.

A late number of the London Times says that "Great Britain has received more ingenious inventions from the United States, through the Exhibition, than from all other sources." The Times is the paper which, early in the season, ridiculed so unparading the American department of the Exhibition.

HARD TO PLEASE.—The Collector at New Orleans was removed for paying no attention whatever to President Fillmore's Cuban Proclamation, and Mr. Coffey Owen has been removed for obeying it to the letter. A most capricious master is President Fillmore.

Our neighbor of the Gazette and the M'Keen Press have been fortunate enough to secure some of a pair of the Fillmore Administration, in the shape of an advertisement for mail letters. Well, as Mr. Clay would say, we have no objections, on the contrary, are glad to see it.

The Mercer Whig was "prepared" for Johnston's defeat, but says nevertheless it will "submit to the expressed will of the people." The editor of the Whig being disposed to "submit," it was proposed there will be no further objection to John Bigler's being Governor.

Out of our exchanges (say) a deed that was fought between two women in prison, on Wednesday. Weapons—powder; distance—across the room. During the mass, A of the ladies, we regret to say, got "blowed up" by a husband, who told her to go home, or he would throw her into the pantry at her head.

Some one very capably, in these modern days, defines "Philanthropy," as a gentleman who thinks he stones for a long life of fortune, by leaving a hundred thousand dollars to his "moral handkercher" for the use of the benevolent, viz: of Timbuctoo. He lives by cheating his fellow-men—while he dies in the hope that he can cheat still.

Here is some evidence of "ruin." The Atlantic Company, Lynn, Massachusetts, have just started a new mill, eight fifteen thousand spindles; and the Essex Company in the same city, are now surveying the ground for a new mill, (supposed to be for the manufacture of denim), to be located between the Atlantic and Bay State corporations.

STOCK.—Since the elections in Pennsylvania "his 'no'—the only States in which whig convention we declared for Gen. Scott for the Presidency—the 'no' stock" has experienced an awful decline.

It disappeared nearly altogether from the political arena. Our whig friends in this State, who invested liberally, will, we fear, be compelled to go into liquidation.

Here is one of the many good things got off by some of the newspapers on the result of the recent elections. "I never saw such a party as the whigs," said a fellow who was a little discouraged the other night in a bed-room. "In Pennsylvania they went the free-soil dog, and were beaten; in Ohio they went the other tack, and were beaten; in Massachusetts they are trying both tacks, and sure as I live they will be beaten there! Never did I see such a party!"

GOOD STOT FOR LEGISLATIVE FARMERS.—The Lake Superior Journal says, that every acre of cleared land in the copper region around Sault Ste. Marie will pay, the first year, the entire expense of clearing and cultivating. Miners, as a class, know little or nothing about farming, and their wants have to be supplied by farmers somewhere. At present those supplies come from Cleveland and Detroit at great expense.

A letter has been addressed to Robert Tyler, at Philadelphia, by a Committee of Baltimoreans, requesting him to assist them in efforts to procure the liberation of Smith O'Brien and the other Irish exiles. Mr. Tyler, in reply, indicated his readiness to enter into the work with the proper zeal, and reminds his correspondents that he has already made several indirect efforts to "procure the intervention of our Government in their behalf."

A FINE PROPERTY.—The Boston Transcript says: The general prediction we remember to have seen about this country was that made by one Col. Grant, in the House of Commons, shortly before the news of the battle of Bunker's Hill was received in England. The Col. declared that he had served in America, and he was fully persuaded that "the Americans would not fight." They made great pretensions to religion—sang psalms—and talked politics—but they were arrant cowards, and would prove themselves such, in the event of any collision with the British forces."

TRAILING FRAGMENTS.—The Cleveland Plaindealer relates a story of one Alex. Garret, who was driving into the city the other morning with a little French pony, a buggy, and a dead hog for market. Just as he was approaching the railroad track, the locomotive came along, chuff, chuff, chuff! Away went pony, chuff, chuff, chuff, turning short off the road, and jumping, hog, buggy, and all, over the bank, down through the roof, and through the upper floor of a small wooden building below. There lay the group, in the contemplation of all around, but to some more than "Ezekiel," who at first thought his pony was so dead on his hog. At last advice he was looking up a lawyer to sue the Railroad.

THANKFUL FOR SMALL FAVORS.—The Concord Reporter is thankful for small favors, of which he is thankful the "election returns from the Whigs are most favorable to the Whigs than anticipated." We wonder what it anticipated? It is thankful the Whigs have a majority in the Senate, and that one is a "Native" whereas last year they had something more than that. It is thankful the Whigs "have elected one of the Supreme Judges, Coles," and he is a Democrat, and occupies a seat upon the Bench now by virtue of a commission from Gov. Shank. He also received some 20 votes in our nominating convention last June. It is thankful Col. Bigler's majority is only a little over 8000 in a poll larger than that of 1842, when Taylor carried the State by 15,000! Altogether we think the Reporter is thankful for small favors. Perhaps, however, its party got such a awful thrashing in Ohio that its defeat here looks like a victory.

PRESIDENTIAL CONVENTION.—A Convention of all the citizens of Massachusetts who are favorable to the nomination of Hon. DANIEL WEBSTER to the Presidency, is called at Faneuil Hall on the 25th November next. The call is signed by residents in every county in the State, and published in the Boston Papers.

On Tuesday next New York elects eight State officers, a Legislature, and the several county officers. Both parties appear to be pretty well united, though we think the Democracy have the inside track. Of this, however, we are not certain, as politics are everywhere somewhat uncertain, and in New York particularly so. We hope for the best, however!
