The Prometheus Fired upon by a British Man-of-War.

On leaving the harbor of San Juan, the Prometheus was fired upon by the English brig-of-war Express, under the following circumstances, as related by the Captain:

STEAMSHIP PROMETHEUS, }
SAN JUAN, Friday, Nov. 21, 1851. }

To the Editors of the N. Y. Tribune:—

GENTLEMEN:—In order to correct any misstatements that may be made of the circumstance of the English brig-of-war Express, firing into the Prometheus, I beg of you to give the following statement an insertion in your paper:

At 2 P. M. I proceeded to get my ship under weigh to proceed to sea, having but just received the last of our passengers from the Pacific steamer, numbering in all about 500. At this moment the city authorities of Greytown, constituted as they stated, by the authority of the Mosquito King, came on board the ship with a police force and served a process of attachment on the ship and myself for the amount of $123, claimed by the authorities for present and arrearage port dues charged the ship, which we supposed to be illegally demanded, and had consequently refused to pay them, as I did in the present instance.

The port dues are made up from the weight of anchorage in the harbor, Captain of the Port's fees and pilotage.

I hove up my anchor and dropped down the Harbor with the current, having along side one of the River steamers, receiving from her the baggage of the passengers. The English brig-of-war laying a short distance from us, immediately got under way, made sail for us, and when within a quarter of a mile from us fired a round shot over our forecastle, not clearing the wheel house over 10 feet. In a few moments another shot was fired, which passed over the stern so near that the force of the ball was distinctly felt by several passengers. I sent a boat on board the brig to enquire the cause of the firing into us.

The Captain stated that it was to protect the authorities of Greytown in their demands; and if we did not immediately anchor he would fire a bombshell into us, and ordered his guns loaded with grape and canister shot; at the same time our small steamer left us, and I proceeded under steam back to our anchorage, and anchored. The brig stood up the harbor, and anchored very near us; sent a boat on board of us, with orders that our fires should be put out, and that an officer would be sent to see that the fires were extinguished. The shore authorities then came on board, and, under the circumstances of the case, the amount demanded was paid under protest, and we were permitted to proceed to sea by the Captain of the brig.

Respectfully, your obedient servant,
HENRY CHURCHILL,
Captain of the Steamship Prometheus.

Affairs of the Mormons

There has been very extensively published an account of a state of affairs in the Territory of Utah, which, for moral turpitude, has not, perhaps, been exceeded by any in this country of which there is a record. This account has attracted the attention of the Hon. J. M. Bernhisel, who is the delegate to Congress from Utah, and he says that the statement (professedly made by a Judicial officer, and bearing date on the 30th of September last,) is essentially incorrect:

"When I left the Utah, nineteen days after the date of the letter to which you gave publication, peace and quiet prevailed everywhere, and unbroken *harmony and good feeling* between the officers of the government and the *people of the territory*. The pacific character of our people, and the fraternal relations which they cultivate towards each other, had indeed, as yet, left the courts without an entry for their dockets; but Governor Young had cheerfully acceded to the request of the judges and secretary to affix his name to a petition to Congress, of which I am the bearer, praying for an augmentation of the salaries of the territorial officers on account of the expense of living under our California prices."

MORE ABOUT THE SHIP "CHALLENGE."—The New York papers publish a letter from Captain Waterman of the ship Challenge, dated San Francisco, Oct. 30, in which he says:

"I am just now under great excitement, as there is a mob looking for me and the mate, on account of stories told by the crew of our having murdered ten men on the passage. The truth is this—when in the neighborhood of Rio, about fifty of the crew fell upon the mate, with the intention of killing him, and afterwards me, by their own confession. I was on the poop taking the sun, near noon, the mate forward by the galley; they had stabbed him, and beat him shockingly, before I could get to him. I found a marlinspike close by him, and with it knocked down three of them, rescued the mate, and quelled the mutiny. I had to flog eight and so it ended.—Off Cape Horn, three men fell from the mizen topsail yard—one was drowned, and two of them killed. After a few weeks, five men died of Dysentery, and one of convulsions, (a boy from Bridgeport.)—They have spread reports here that I threw them overboard and killed them."

DISTRESSING ACCIDENT.—A most afflicting casualty occurred in this village on Monday evening last. The facts, as we understand them, are substantially these:—A company of young men were amusing themselves with fire-arms at the grocery of L. B. Melvin. During the brief absence of Mr. Melvin in an adjoining room, James Walker went to a desk and took out a revolver, and without being aware that it was loaded, began playing with it. At this time, we believe, George Gale took hold of the barrel, probably to ward it off, when the pistol was discharged, the ball penetrating the head of young Gale just above the eye, and coming out at the top of the skull. He walked a few paces and fell insensible. He was conveyed to the house of his father on Clinton-st., and medical assistance immediately called; but it was quite evident from the first that the wound was mortal. He continued in a state of insensibility until his death, which took place on Tuesday night. It is supposed that a portion of the skull bone was forced into the brain.

It is proper to state that no blame can be attached to any one. But the warning it gives to the survivors, and others, in regard to the use of fire-arms, we hope will have a salutary effect.—*Westfield Transcript.*

DR. MARCHISI'S
UTERINE CATHOLICON.

THE undersigned, having become agents for this invaluable Medicine, would respectfully invite the attention of the afflicted to the gratifying success that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.

This CATHOLICON is in truth one of the greatest medical discoveries of the Age, and is destined to become identified with the health and happiness of FEMALES.

This declaration is based upon the fact that it will cure more than nine tenths of a class of very prevalent diseases, known as

FEMALE COMPLAINTS,

and which have heretofore resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, willing to abide the truth, and having due regard for the welfare of their patients, and to in every way merit the confidence of the afflicted as A SUCCESSFUL, SAFE, and CHEAP REMEDY. Of this, additional proof will be found in the pamphlet, to which the attention of Ladies and Practicians respectfully invited.

This medicine has never been introduced by empty puffs and misrepresentations, nor is it intended that its present popularity shall be sustained by any medium but merits and the approbation of the public. The CATHOLICON is not a "cure all," but is intended expressly for those complaints incidental to the reproductive female whether married or single—PROLAPSUS UTERI, or falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe, or how long standing.

THE GREAT SECRET AT LAST DISCOVERED FOR THE CURE OF CONSUMPTION!!

NEW SYSTEM AND NEW REMEDIES! TRIUMPHANT SUCCESS.

NUTTALL'S SYRIACUM.

THE Cure for Coughs, Colds, Sore Throat, Hoarseness, Tickling in the Throat, Spitting Blood, Difficult Breathing, Bronchitis, Incipient, Confirmed, and Tubercular Consumption. In THREE BOTTLES. Each one peculiarly adapted to each one of the THREE STAGES OF

CONSUMPTION.

FIRST STAGE INCIPIENT CONSUMPTION. In Blue Wrappers.	SYMPTOMS. Cough, pain in the breast, side, head, back, joints, and limbs, inflamation, soreness, and tickling in the throat, fever, difficult and quick breathing, *expectoration difficult, slight, and frothy.*
SECOND STAGE CONFIRMED CONSUMPTION. In Pink Wrappers.	SYMPTOMS. Costiveness, spasmodic cough, violent fever, night, morning, and mid-day sweats, hectic flush in the face, and cheeks, burning heat in the palms of the hands and soles of the feet, *expectoration easy, copious, and streaked with blood.*
THIRD STAGE TUBERCULAR CONSUMPTION. In Yellow Wrappers.	SYMPTOMS. Diarrhœa, diminished fever, cough, and morning sweats, great and increasing debility, frequent fainting fits, slight delirium, and swelling of the extremities.

TO THE AFFLICTED. ☞ The appearance in *Three Bottles of Nuttall's Syriacum* is a new *Era*, in Medicine, from its novelty and direct opposition to the *old*

ABSURD AND INCONSISTENT ONE BOTTLE SYSTEM;

While its success, prepared in this manner, (Each Bottle containing a different preparation,) *in curing the different stages* which characterize *Consumption*, has established the *Welcome truth* of the Curability of every Stage of Pulmonary Consumption.

☞ PHYSICIANS APPROVE OF IT, because it is based upon correct Physiological and Pathological principles. *The Public approve of it*, because it is *common sense*, and because they know from *and experience*, that one preparation will not cure the *three stages of Consumption*. *The suffering, disappointed*, and discouraged *invalid approves of it*, because its principles hold out a reasonable *Hope*, and when he *uses Nuttall's Syriacum*, his hopes are realized.

IF HE IS IN THE FIRST STAGE OF CONSUMPTION

and uses the *First Bottle*, his expectoration, difficult and painful, becomes free and easy *His Cough soon gets well*, the soreness, tickling in his throat, inflamation, pain in his breast, side, head, back, joints, and limbs are removed.

IF HE IS IN THE SECOND STAGE

and uses the second bottle, his fever leaves him, his disturbed slumbers become sweet and refreshing, his night sweats vanish his expectoration, copious and bloody, assumes a healthy appearance, and at length disappears, his bowels become regular, his appetite returns, the flush in his cheek disappears, the burning heat in the palms of his hands, and soles of his feet, are felt no longer, his cough now ceases, *He recovers and is well.*

IF HE IS IN THE THIRD STAGE,

and uses the third bottle, his Diarrhœa gradually ceases, his weak bowels become strong, his cough and other bad symptoms disappear, feeble digestion becomes strong and vigorous, his stomach recovers its proper tone, and creates new, rich, and nourishing blood his strength returns, his wasted body is cloathed with flesh. *HIS LIFE IS SAVED!* and he is

RESTORED TO HEALTH.

Each bottle of *Nuttall's Syriacum* has the symptoms of the stage for which it is intended printed in front of the wrapper, whereby every invalid knowing his own symptoms, can judge for himself WHICH BOTTLE HE REQUIRES, consequently no mistake can occur in selecting THE PROPER MEDICINE.

☞ See Pamphlet in possession of the Editor of this Paper, containing Dr. Nuttall's Pathology of Consumption, Lectures on the Structure and uses of the Human Lungs, and certificates of CURES. ☞ Prepared only by Dr. Nuttall, Inventor and Proprietor. ☞ Price, $1 per Bottle.

ARRIVAL OF KOSSUTH.

THE arrival of this patriot in this country is likely to be attended with great enthusiasm and joyful greetings on the part of the American people, and why not? He has been all his life devoted to his country, to the cause of liberty—to the elevation of his countrymen—therefore he cannot but be dear to the American people, alive to all that tends to elevate, to improve and to better. But the arrival of Kossuth cannot be hailed with greater joy than can the arrival in this City of Singer's Patent, straight needle, perpendicular action Sewing Machine. This machine is destined to work miracles and cause a great revolution in the clothing business. This machine is the most important and useful invention of the age. It has been used a sufficient length of time to be thoroughly tested upon a great variety of work, and in all cases is fully approved. It executes in the most perfect and satisfactory manner, the work of the following occupations, viz:—Tailors, boot, shoe and gaiter manufacturers, harness and saddle makers, shirt makers, Corset makers, Carriage trimmers, cap makers and hat binders, dress makers, stocking (manufacturers) glove makers, costumers, carpet bag manufacturers, trusk makers whip makers and upholsters. And may also be most profitably used in making sails and awnings, beds and mattresses, horse collars, quilting, sacking bottoms, and in tailoring, vesting, and indeed for any other purpose where stitching by hand has been required. This machine, which is about twelve inches square, and weighs 65 pounds, is compact, ornamental in form, durable in all its parts, not liable to get out of order, and is easily adjusted and operated. It will perform the labor of from five to ten persons, according to the kind of work and ability of the operator. The best kind of Tailor's custom work can be executed with it in the best manner: and in making caps, and most other articles to, which it is adapted, its work is far superior to that done by hand. The Machine will be constantly on Exhibition and for sale at No. 2, Commercial Exchange, French street, where all persons interested are invited to call, and may be assured of receiving abundant evidence and perfect peculiar demonstration of the great utility and value of this invention. Those wishing to purchase clothing, are hereby notified that I can sell them cheaper clothing, made in the most durable manner, and with five times as much stitching on as that manufactured all by hand. A garment, which, in the ordinary way it would take a workman all day to stitch, can, by the help of the machine, be stitched in half an hour, and done in a manner far superior to that done by hand. Therefore, by the aid of this machine I am enabled to make better work, and at the same time cheaper work than those who manufacture clothing in the ordinary way. To be convinced, give us a call, when the most skeptical can be cured of his skepticism, and the unbeliever's doubts cast to the four winds, and all seen on their way rejoicing that clothing can be manufactured so cheap, so durable and so beautiful, as can be done by Singer's Patent Sewing Machine. TAILORING.

GRAHAM & FERRIER would respectfully inform their friends and the public generally that they have rented the shop lately occupied by John Goulding on Reed's Block, opposite the Bonnell Block, State Street, where they will be found at all times ready to execute all orders entrusted to them with neatness and dispatch. The merits of Graham as a Cutter is too well known to require any puffing at this time, and they would only say that he will superintend the branch of the business. Ferrier although comparatively a stranger is well known by all who have employed him, to be a first-rate workman. With these qualifications they hope to give entire satisfaction to those who may favor them with their work; they will pay particular attention to the cutting and making of all styles of Boys garments, (a branch heretofore too much neglected by the trade in this city,) as they will be in the receipt of the monthly fashions from the East, they will be enabled to keep pace with every new mode of improvement as they come out. Naval and Military garments made to order.

☞ Cutting done with care for others to make up, and done when promised, at the usual prices.

That Ball is still Rolling.

WE are receiving daily, (by Kossuth's dispatch line,) from H. Cadwell, who is now absent, and who will remain in the Cities of Boston, New York, and Philadelphia until the winding up of the fall trade, the greatest variety of the richest styles, and all kinds of *Dress and Domestic Goods* that were ever exhibited at one store in any city; and the prices, for cash, are too low to mention. Many of them will be sold at one half what it cost to make them. So much for the "great regulator," the Metropolitan Bank. However it's an ill wind that blows nobody good—what is the manufacturer's loss is the Farmer's gain. Now is the time to lay up much goods.

Bargains! Wholesale and Retail.

Full and Winter Goods selling at incredible low prices, at No. 1, Reed House.

HAVING taken advantage of the pressure in the money market, together with the consequent anxiety of city dealers to dispose of merchandize, and having bought quantities of goods at from *one half to two thirds* the manufacturers price I am boldly that I will sell many articles at lower prices than were paid in New York four weeks ago. Some may be incredulous—to such I say, call the *first* of January, I would say walk in and see for yourselves. The proof are now stacked up on the counters thick and high. There you will find De Laines from 6¼ cents, upwards; Alpaccas as low as 12½ cents per yard; Calicoes that all will pronounce cheap enough; Flannels, from the principal mills in the United States of almost infinite variety of design and quality, the low price of which brings them within the reach of any one's purse; splendid Silk Velvets for Cloaks and Mantillas, of various widths, Dress Goods in General for both Ladies and Gentlemen are there in rich profusion.

CARPETS, too, that draw praises even from the lips of old maids—in short a stock so complete and so cheap as to distance in both these respects, any and all others in the city. Call round, therefore, you who want goods, and you shall have them at rates that will induce you to come again.
Erie, November 15, 1-51. J. D. CLARK.

PETROLEUM.

A most remarkable case of Total Blindness cured by Petroleum.

WE invite the attention of the afflicted and the public generally, to the certificate of Wm. Hall, of this city. The case may be seen by any person who may be skeptical in relation to the facts here set forth. S. M. KIER.

"I had been afflicted for several years with a soreness of both eyes, which continued to increase until September, 1850, the inflammation at that time having involved the whole lining membrane of both eyes, and ended in the deposite of thick film which wholly destroyed my sight. I had an operation performed, and the thickness removed, which soon returned and left me in as bad a condition as before. At this stage of the complaint I made application to several of the most eminent medical men, who informed me that my eyes would never get well. At this time I could tell when the sun was shining only by the advice of some friends I commenced the use of the Petroleum, both internally and locally, under which my eyes have improved daily until the present time, and I have recovered my sight entirely. My general health was very much improved by the Petroleum, and I attribute the restoration of my sight to its use. I reside at No. 102, Second st., in this city, and will be happy to give any information in relation to my case.

AYER'S CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this combination of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands, every year. Indeed there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further inquiry to the circular which the Agents below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proo of these facts

From the Professor of Amherst College, &c.

C. Miraculous! PROFESSOR HITCHCOCK.

"James C. Ayer—Sir I have used your CHERRY PECTORAL in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngial and bronchial difficulties. It is my opinion as to its superior character, can be of any service, you are at liberty to use it as you think proper

EDWARD HITCHCOCK, L. L. D.

From the widely celebrated

PROFESSOR SILLIMAN, M. D., L. L. D. PROFESSOR OF CHEMISTRY, MINERALOGY, &c., YALE COLLEGE, MEMBER OF THE LIT. HIST. MED. PHIL. AND SCIENTIFIC SOCIETIES OF AMERICA AND EUROPE.

"I deem the CHERRY PECTORAL an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for a class of diseases it is intended to cure."
New Haven, Ct., Nov. 1, 1849.

MAJOR PATTISON, President of the S. C. Senate, states he has used the CHERRY PECTORAL with wonderful success, to cure an Inflamation of the lungs.

From one of the first Physicians in Maine.

Saco, Me., April 28, 1849.

Dr. J. C. Ayer, Lowell.—Dear Sir: I am now constantly using your CHERRY PECTORAL in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies.

I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease.
Respectfully yours, I. S. CUSHMAN, M. D.
