Mr. Epiron:-We are cooling down slightly in the kossuth excitement, though our newspapers are filled with nothing but Kossuth receptions, dinners, speeches, preclamations &c. It seems to be the general impression offering him a passage to this country in a national ship. He evidently looked on it as a diplomatic mode of suggesting the readiness of the United States to take up the despotam. It is a rational error for a Europeau statesare afraid that Kossuth will be terribly grioved when he discovers his misapprehension.

Business, is brisk, and the prospect is flattering for the had been arrested. This will explain the loss of severcoming Spring. There are 1500 new houses going up al valuable letters in that quarter, and addressed to Bosin one ward alone; one man, a 'Quack medicine' deale and other places. er, to erecting 42 elegant houses himself, in aubther ward-This speaks well of our city's thrift, though the medicine part does not picture so well perhaps, our e-reumspection.

The city government feels so plethoric of funds that it is not only paying two or three thousand dollars a week for the support of the Hungarian exiles at the Irving House, but it is about to consummate, they say, a new contract for city gas, at 10 per cont more than it can be strained for of other companies, of the same quality. The public feeling seems to run very strong against it, but as the Board of Aldermen and that of Assistant's go out of office in two weeks, they will probably care dittle about all that can be said on the subject. Both political parties here, are opposed to the new contract. But a importe.

Mr. G. V. Brooke, the famous English trage dian, announced his engagement here last evening. He is said to be vely superior. An American actor, named Me-Dougal, has challenged him, however, to perform three thin parts as well as ho. So there is fun in prospect. 3975, Baxter, dem 1228; Dr. Smith, native, 2673; scat-M.D is said to be somewhat instine, and is treated as tering 700. such by his brother professionals. Mr. Brooke made a very favorable impression lust evening in Othello, and bids fair to be exceedingly popular.

The dinner to Kossuth last night, by the "Press," was a I magnificent one, and a gallery being erected with screeps here is decided, and with one exception unequaled. behind which the Ladies could listen to the speeches although invisible to the guests at the table, the whole scene was a guy and festive one, to a remarkable degree. As rood writers are rarely good speakers, we cannot say to much for the addresses on the occasion, if we except that of Kossuth, which was truly eloquent; and highly descriptive. Mr. Chapin described it very prettily, as so full of oriental images that it resembled the gold tracery on a aDmascus blade! Part of Kosenth's speech, alluof the cabinet of Austria, at Vienna! The story is exci- Constantinople, Kossuth would yet be a prisoner ting no little popular discussion.

Kossuth injungaged in receiving deputations every day. Several thousand dellars have already been subscribed to the Kossuth Hand, and the enthusiasm on the subject is sall very great in some quarters. Two sermons were preached here on Sunday last, to show that Kossuth is the "Man of the Times." though the effort of one minister to liken Kossuth's arrival here to the "Second coming of Christ" was, we think, in very bad tasto. Kosauth speaks on Thursday; in a church at Brooklyn-tickets five dollars each.

A young woman attempted to kill herself, here yesterday, for love. Her beau treated her with coolness one day and she tried to revenge herself on him by making a footish ornice in her throat with a carring, footish ornice in her throat with a carring footish ornice in her footish footish

The Truth Fitly Spoken.

The Carlisle Democrat, in speking of the Kossuth mania just now raging in this Country, says that from the accounts of the receptions givin Kossuth in New York it is constrained to believe that the American people are fast becoming a race of asses. We admire Kossuth, coutines the Democrat, we admire his character as a man, pairot, and statesman, his trancendent talents and independent of Liquors on hand and will sell them at low pridates of Liquors on hand and will sell them at low pridates of Liquors on hand and will sell them at low pridates of Liquors on hand and will sell them at low pridates. domitable energy, and above all his puble and almost superhuman exertions in the cause of freedom for Hungary. No man can feel a deeper sympathy for his misfortunes than surselves, nor can any be found who would more willingly unite in bestowing upon him as a guest of cur country and the friend of oppressed humanity that homage and respect which should ever inspire an American bosom; and which should ever contra-distinguish us as a people from every other nation of the world. But while we would do this, we should never forget our character as a man and American citizen. His selection as speaker would also give character to the greatly reject in which Erie and Erie county is more deeply interested than in all others, the Sunbury and Erie Rail Road, with which he has been intricately identified for yours, by his ardent and efficient exertions in its behalf.
