rall and Winter Goods selling at incredible low prices, at No. 1, Reed House.

I AVING taken advantage of the pressure is the money market, then the consequent anxiety of city dealers to dispose of merchandise, and has any fought quantities of goods at from one half to leve thirds the manufacturers brice. I say holdly that I will sell many articles at lower prices than were poid in New York four weeks any. Some may be increditions—to such man the rest of mankind, I would say walk in and see for your selves. The proofs are stacked up? on the counters thick and high. There you will find be Laines from 61 cents, upwards: Alpaceas as low as 124 cents per yard; Callicoes that all will pronounce cheapenough. Sinceue, from the principal mills in the United States of almost imming variety of design and quality, the low price of which hems there within the reach of any one's purse; splendid Silk Vetvets for Clogks and Mantillas, of various wiffshs, Bress Goods in Cenerit for both Ladies and tientlement are there in rich profusion.

CARFETS, too, that straw praises even from the lips of old maids—in short a stock & complete and so cheap as to distance in both these respects, any and all oditers in the city. Call round, therefore, you who want goods, and you shall have them at rates that will induce yo to come again.

CHERMAN is happy to invite all who wish DAGUERREOTYPE LIKENIENSES, who are at all particular what kind of
pictures they have, to his new Brooms which have been built expressly for the Art. LIGHT is the great agent of the Artist, and
it has been the constant study of all worthy of the name since
the Art was discovered, to comploy and control it in the manner
best salapted to produce the most favorable results. The result
of this study and of thousands of experiments is that there is not
a respectable permanent Gallery in the U States where the pictures are made by a common window, and he who says he can
produce superior pictures by such as window proves his ignorance
of the Art. The subscriber therefore begs leave to say that by his
superior LIGHT, and with an apparatus worth six times any othecrim this city, he is enabled to produce pictures when cannot be
equelled in this part of the country, and offers to excell any thing
which can be produced in other rooms in Erie, or forfeitous hundred dollars. He has also a splendid Quick Working Camera,
with which he takes children of any age! Let it be distinctly understood his pictures will not fide if properly kept.
