Whereas the Franklin Canal Company has been engaged in the construction of its railroad for more than a year past, and has expended in the same a large sum of money, and the work is advancing rapidly toward completion, and whereas the sail railread is of the utmost importance and advantage to the interest, growth and prosperity of our city and county, and without the connection of which the Sunbury and Erie railroad most, if not altogether fail, be greatly delayed and the value of its stock se riously lessened. THE LOST CHILD-IS HE WHITE OR INDIAN!-VERY SINGULAR .- This case was called before the on motion of the attorney of the claiment. Mr. Crary, the trial was posponed till the 12th instant.

This is one of the most singular instances on rec ord. Two mothers claiming the same child; and what adds to the singularity, one is a white woman and the other an Indian. The great case is exciting a great deal of public interest. Public opinion is divided. The majority, however, believe it is the dian child very nearly. But its features, eyes, bise ingratitude." hands, and feet, and every other form denote the white child; besides it so resembles the daughter of Mr. Patridge, two years older, that almost every beholder pronounces them brother and sister. Mr. and Mrs. Patridge are of quite dark complexion, and the girl is but little lighter than the claimed child.

We visited them while they were together, and but swo other individuals in the room. We said to him, "My lad, come and shake han is with me," and he came and reached out his hand. We listed him on our knee and asked him if he was afrail, and he shook his head. We told him to turn with his face. tpward the window, and he did so. Everything we said to him seemed to be as readily unlestood as by any ordinary child of six years. An elderly gentleman came into the room, and being so intent on the child, the commin courtesy of asking him to a seat was unthinkingly omitted. The child vol-untarily, without a word being said, carried a chair d placed it by him so that he could seat himself. He conversed readily with those who can speak Menomonee, they talking English and the child Meno-

On the other hand, the Indian agent, Mr. Lawe, a gentleman of the first standing, the Catholic Minister-1 missionary to the Menomonee nation-Mr. Powel. Mr. Cowen, and other Indian traders, and the whole indian tribe, in-ist vehemently that it belongs to the falian woman. The character of the testimony, together with the taway apparance of of the child, are of great weight. The child says, when asked why it don't speak English, that his mother threatened to skin him if he spoke English in a white man's house. It is placed in Sheriff oughly, and dressed it, and says she thinks it is her

Altogether, it is a most singular affair. History contains no parallel. It is a question that seems , hard to decide. The sympathy and the opinion formed outside of the legal rule, seemed to favor Mr. Patridge. But the law seems to favor the Indiana. The trial will be deeply interesting .- Oakkoah Dem.

THE SEA SERPRYT CARTURD AT LAST!-Capt. Chas. After being struck with the iron he descended some 6,000 feet, where the "serpent" was of the masculine gender: 103 feet 7 inches in length: 19 feet 1 inch around the neck: 24 feet 6 inches around the shoulders; and the largest part of the bidy, which appeared somewhat distended, 49 feet 11 inches. The head was long and flat, with ridges; the bones of the lower jaw sepathirds of its length; there was also scattered over the body dark spots. On examining the skin he found, to his surprise, that, the baly was covered The baseness of the Pennsylvanian is only equalwith blubber like that of the whale, but it was on'y 4 inches thick. By the following letter from the Commissioners of Eric County, recently on a visit to Philadelphia, to Daniel L. Miller, Esq , President of the Sunbury and Erie Road, it will be seen that Eric county has redeemed her pledge of \$300,000 to this great and important enterprise:

Deriekson, Coulter and Tinny, we nominate Wm. Mc-Arthur; and Wm. McArthur, as will be seen above, is already instructed for Mr. Buchanan. Now, if this does not demonstrate, as plain as a pike-staff, that "Crawford not only claimed the delegate, but also the preposterous right of instructing him over the heads of the Democraey of Erie," then there is no meaning in words or no truth in acts. Hondo it will be seen, that if the Crawford W see that the Buffalo papers call our city the them their powers, in conjunction with their own statement, our assertion was correct.

There are one or two other matters we are called upon to notice, and then we will turn the matter over without further comment. The Domocrat says the "Crawford Conference only claimed the, right to select the Delegate, and expressly declared, that if the Erie Conferees would vote with them for Mr. McArthur, they would not ask for instructions."You don't say so!-why, how liberal! sepecially when Mr. McArthur was already instructed as strong as language could do it. Again, the Democrat says, we, as a delegate "declared we would vote for no man as a delegate whom we did not know to be opposed to Mr. Buchanan for the Presidency; thereby arrogating te himself the right of dictating to the Democracy of Crawford county." Well, now, what an arrogant chap we've got to be, to be sure! Almost as much so as an "Aid to the Governor," or a militia Major. But seriously, we made no such declaration; on the contrary, we repeatedly said we would vote for McArthur cheerfully if they would vote for a resolution withdrawing the instruc-tions he was hampered down with, and Mr. McArthur, we take it, is a Buenanan man!
