TERRIFIC CONFLAGRATION.

Two Thousand People Houseless-700,000 Dol'ars Property Destroyed-Chillicoths in Ashes! CHILLICOTHE, Ohio, April 1, 1852.

At 12 o'clock this day a fire broke out, by the bursting of a stove in a cabinet shop, in the rear of the Clinton House, in this city, and the wind blowing a hurricane towards the E. N. E., the flames and then to the building itself. In ten minutes, the roof of that structure was on fire, and ciuders were

wasted to a great distance.

The buildings opposite the Clinton, on Walnut Street, soon caught, and thence the flames spread rapidly towards Paint Street, sweeping off every warehouse on the canal, north of Second St., and all the stabling, s noke-houses, &c., &c., in their rear. By 2 o'clock, every house in the square, bounded by. Walnut and paint streets, and the Canal and Second street, every store and warehouse, every tenement, with four single and singular exceptions, were irre-

trievably lost.
Still the wind blew, and, as the Canal was empty, (the; water being drawn for repaire,) the entire northern part of the city, north of Second street, and Bast of the Clinton House, was at the mercy of the elements.

Suffice it to say, fully one-fourth of the taxable property in Chillicothe, including all the buildings on the two most valuable squares, stores, hotels,

dwellings, and warehouses, were destroyed! The fire soon communicated across Paint street beginning at the northern end, and spreading Eastward and Southward towards the Madeira House .-That, of course, was destroyed. East of Mulberry street, (two squares from the place where the fire originated,) about one-half of the buildings escaped, ugh some were burned at the distance of four or five furlongs from the Clinton House corner. The only houses left standing on the north side of Paint street are those of O. H. W. Luckett, H. Holcomb,

new Catholic Church, and Dd. Willis'.

The whole population, women as well as men, are worn out with fatigue. By strenuous and heroic exertions, the fire was prevented from communicating to any building on the south side of Second street. While, "Ross' Block" was burning, the heat on the opposite corners (Woodbridge's and Waddeli's) was intense, and the cornices, shutters, &c., were only prevented from catching, by painful and constant exertions.

It is impossible to arrive at a correct estimate of losses. Old Chillicothe has received a blow from which she cannot recover in years. Two Thousand of our population are houseless. From six to eight hundred thousand dollars worth

of Property was consumed. All our principal warehouses, with their stocks

of groceries, pork, bacon, &c., &c., are burned .-Madeira's, in another part of town expected. Marfield's and Adam's warehouses, north of the to the Gas Works and Deer Crock street, are gone. Marfield and Luckett's loss is quite heavy-\$75,-

000 some say.
All of the fine row of stores in Adam's Block with their contents were destroyed, viz: J. & A. Roads' and Marfield & Luckett's dry goods; Alien & Evans, hardware; Waddell, grocer, &c. On the canal, Fullerton's, Holcomb's, Fraser's,

Clarke & Sons, and all the smaller establishments vassed hams into their establishment, all of which, not to put it in the market for a year with much other valuable "proceeds of the hog,"

Between the serving man and the uployer's daughter sprang up a passion, which re sulted in an elopement and marriage. Subsequentity, McCov removed to another county and became its sheriff. He was successful in the land of gold, and remitted considerable money for the sup port of his wife through the hand of a gentleman holding a judicial station in an adjoining county.

Some months since McCov returned with a hand-

some fortune, but to his surprise, when he met his wife, she received him with coldness and aversion. The cause was soon revealed, by her own lips. In his absence, she had become the mistress of the

individual through whom she received the correspondence and remittance of her husband, and an in fant then at her breast was the pledge of her infidel tr. McCoy immediately resolved to take his four children and feturn to California, in the month of April next, meanwhile suffering them to remain with their mother at her father's house.

On the morning of Wednesday the 31. inst., be repaired to the house of Mr. Ney to take away his children; and their grandfather being away, succeeded without much difficulty. Mr. Ney, on his return, was furious on learning the event, and at once started off in a wagon in pursuit, accompanied he wagoo in which rode McCoy and his children Ney at once leaped to the ground, and advancing demanded their immediate release. McCoy told him to stand back, declaring if he touched them he would shot. Ney still insisted however, expressing a determination to have them or die; he was again warned to stand back several times, which he heeded not, but came up to the wagon and took hold of

the wagon at the time, standing over his children. Nev then picked up a club, and was shot a fou th time. Patterson then took hold of McCoy; and Ney again came at him, several times with a club. Having lost his pistol, McCoy, after disengaging himself, drew a bowie knife, sprang towards Ney,

Besides, does not the Gazette see the improbability the "back-out" of the Commercial bears upon its face? We complained that letters have been eight or nine days reaching us from Buffale. The Commercial flice up and charges that the fault does not rest upon the Butfalo office, and intimates that the Erie Port Office is a perfect sink-that when any-thing goes into it it never comes out. Such a charge does not set well, and those connected with the office write to the proprietors and demand a retraction. It is given, but very ungenerougly, very nutruthfully, and very dishonorably ! In the same category must be classed the Commer

It may say it knows the Observer by reputation. It knows, nothing of the kind; and if it does, it is beneath the character of a grave paper like the Commercial to retail "hear say" evidence. But are we constitutionally a grumbler? We ask the question beton of Airdrie, says: "Gum copal, when dissolved in companied by a blast that three the ship on her cause the Gazette has pleased to enderse the charge, by saying it is "honorable and truthful." The New York papers are still harping on "Hard Pan and Quick Sand." Out of the state it would take a Philadelphia lawyer to descipher what they are trying to get at, but cross the State line once, and every child can tell you what " Hard-pan and Quick-sand" means

The Sunbury and Eric Road in Lycoming. The Lycoming Gezette notices a large meeting of the friends of this work, held in that village last week. It says "D. L. Miller, Esq., President of the road, made a

"Den't dodge till you're Hit" Some of our over wise rail-road agitators, not salisfie Some of our ever wise rail-road agrissors, not enimined who having to hang two men on one galleys, weak with the rebukes they have repeatedly received from the introduction of a bill in the Senate to allow the Sanbary out of this world in each other's society, they might de been laid upon the fact that the "material aid" to the enterprise has been furnished by parsons not citizens of Erie, these taking from Penasylvania, as they want of the western trade. Now, Senator Fernon, of Philadelphia country, one of the most talented advocates of the Sunbury road, the Gauge Law, and Erie's intersects, has not been an inattentive observer of these compensations of the Sunbury road, the Gauge Law, and Erie's intersects, has not been an inattentive observer of these compensations and incient wemen, Long island folks, sentimental music and training tune music. For this purpose he from Eric to the Ohio line, subject to all the provisions of by their different mode of languing. The HI, HI, III, Notifies Melancholy Papile: the become a law, which we do not doubt, will be to give to the Sunbury road, and thus to the State, and to Philadelphia, the entire control of the trade and travel of the west. To do this the Sunbury road will be compelled to purchase the work of the Frankin Canal Company. Taking the whole matter into consideration we think this will be the best arrangement, both for the State at large, and the local interests of Philadelphia and Erie, that could be devised. What objections there are to it we certainly cannot see. It will give us a western roadit will give us a Philadelphia road, and that, too, sooner than we could hope to get it under any other circumstances. We say, then, to these agitators, don't dodge till you are bit, for the blunderbuss you are afraid of is not pointed this way, and besides, it is not loaded.

Since the above was written we have obtained the following copy of the bill introduced by Mr. Fernon, and it will be seen at once that it bears us out in all we have said in favor of the scheme:
