Consistency is a Jewel.

The consistency of the Gazette's opposition to the propesed supplement to the Sunbury and Egie road, allowing that company to construct the road between Eric and the Ohio line, is exhibited in a beautiful light when one recollects how much it favored the Busquehanna and Ene railroad charter, which was passed by our legislature about a year ago through the exertions of Mr. Walkor. That was the me plus ultra, according to the, Gazette, of a railroad charter. It was every thing that could be seked for, and anthems were sung in its praise until our consistent colomparary was as hourse as a frozen frog -The thing, however, was an abortion, and it died in the shell for the want of a hundred dollars to pay for the char-Among its dead provisions, however, is one allowing it to be extended from Erie to the O'no line -in fact, the very prevision against which the Gazette so loudly complains! Hardly a word did it say about gauges, but simply provided that when forty miles of the road should be built, the Company should have the privilege of extending to the Ohio Line, and that no other company whatever should have that privilege! This was all right, then according to the Gazettel The same provision is all wrong now, according to the same verscious and coneistent authority! Why is this? Simply because that was a bill concected and passed for the purpose of heading off the Franklin Canal Company's road, while this allews the Sunbury roud to buy out the work of the Frankin Canal Company. Here is the place where the shoe pinches. The Susquehanna bill was for the benefit of Walker, Kelley & Co. That was all right. This proposses to accomplish the same thing, but to do so it may benefit there the Gazette and its backers have attempted rates of passage were exceedingly low in consequence of been discovered on the farm of Mr. Williams, in the so long in vain to ruin. Verily, is not the Gazette and the competition. those who oppose this supplement, very consistent; and how dearly they do love the public!

ank, and charge it upon the Maine Liquor Law, which ang the passage in 11 days and 6 hours.

How it was Done.

Our representatives at Harrisburg, and their backers here, must have an extraordinary high opinion of our city council; at least we should judge so by the exents of the last few days. They profess to think the interest of Erie is in great danger from the passage of the supplement to the Sunbury road. But do our representatives write to the Council in regard to it? By no means. They take another course, and thereby expose their di concealed contempt for the "park of boys" as they have been and 150 paspengers. itylea, whom the people have called to preside over the destines of our city. Instead of writing direct to the Council, and exposing the danger thes felar, they write o that bankrupt firm, the "Market House junto." and forthwith one of its members is seen racing the streets paper in hand, soliciting signatures for a special meeting of the Council. It is obtained, and the Council meet, another series of cour. rts. and then the ball is opened by the presentation of resolutions in the hands writing of one of the vanto." hot member of the Council threatening to repeal the ordinance subscribing \$300,000 to the Sunbury road Now; what does this prope, but the business of the City Council was all cat and dried long before the members of tal this evening in a dying condition. the Council themselves knew they were to meet. Of course our City Fathers had solf-respect enough to treat the shole arrangement as it deserved—with contempt.
