tee on organization, submitted a report in, favor of the appointment of John G. Chapman, of Md., as President. Also, for the appointment of one V. President from each State, and thirteen Secretaries.

Mr. Sherman, of O., moved to lay the report on table, and proceeded to give his reasons therefor. He was repeatedly called to order, from different parts of the Hall, but he replied that he would go on. Much confusien and excitement followed, so that it was difficult to ecomprehend what he said He was, however, understood to say, he did not desire a complete organization, till the committee on credentials had reported.

Mr. Ashmun of Mass. tried to allay the excitement. He came to the Convention for the good of the National Whig Party, and hoped the report would not be laid on the table.

The motion to lay upon the table was withdrawn, and the Committee's report accepted.

The report of the enmmittee having been accepted-Mr. Chapman was conducted to the chair, and delivered an elegant speech, expressing his profound acknowledgements for the honor conferred on him, and invoking the members to lay saide all other objects but the success of their nominee, be he whom he may. It was received with much applause.

Aftern fervent prayer by the Rev. Mr. Stockton, the Convention adjourned till 12 to-morrow.

BALTIMORE, June 17-10 A. M. The excitement like the weather is at fever heat. The outside influence in favor of Mr. Webster is immenso there being more eastern people here than was ever before known. On the other hand the friends of Gen. Scott are coming up holdly to the rescue and his partizans freely assert that the document which he has of a friend will give every antiafaction.

The only serious difficulty apprehended is the cohtested seats and the southern platform which the memhers from these states insist and voting thereon previous to helloring.

The Scott men do not like the latter arrangement and so an mer can to defect it should they attempt to do anvithing of the kind it may lead to a row as some of the southern delegates distinctly assert, that unless the proposition of theirs is carried they will leave the conven-

"There is nothing like it for Burns."

I GOT three dozen of Mr. Kier's Petrolbum of Mr. Howell, and I am disposed to think there is nothing equal to it for Burns; having burni my hand and especting nothing less than a long, tedious sore, but found no soreness at all from it souly leaving a red scale, without any soreness when pressed upon, which quite surprised me. I therefore have great-faith in its efficacy, so far at least, and will introduce it in this section.
