Office in DURLIN & SLOAN'S Book Store, No. 9, Brown's New Hotel.

NEW YORK, Aug. 4.

All the officers of the Clay, against whom warrants were issued, yesterday, have been arrested, except Capt. Tallman, who is confined in his bed, by illness. The bail in each case is $1,000.

The Kane case has been postponed till next Thursday.

HALIFAX, Aug 4.

The Niagra from Liverpool the 24th ult., arrived early this morning. She brings 62 passengers.

The Liverpool Cotton Market in the early part of the week was very quiet, with a slight decline. Sales about 3000 bales per day. In the later part of the week the market assumed a firmer tone, with increasing sales.—The sales of the week were 32,000 bales at steady prices.

Good-brands flour were held firmly.

No political news of importance.

NEW YORK, August 4.

The proceedings of the Coroner's Jury to investigate the cause of the late disaster, after a session of five days was brought to a close at 10 o'clock last night—by rendering a verdict holding the officers and owners of the boat responsible for the deaths which occurred.

DUBUQUE, August 3.

The election in Iowa yesterday, from the present appearances has resulted in the re-election to Congress from the 2d District, of Bernhard Henn, Democrat. Second District doubtful, but supposed to be in favor of Clark also Democrat.

☞ We have noticed but two volunteers in the Mexican war, who have made insinuations against Gen. Pierce's courage. One of these was returned upon the rolls as a "coward," and the other as a *deserter*.—*Concord Patriot.*

Among the newspapers most given to setaring at the terrors of the "coward" and "deserter," are those that sympathized most heartily with Tom Corwin and his traitorous wish that the Mexicans would "welcome" our brave volunteers "with bloody hands to hospitable graves!"

ANOTHER REFUSE.—Major William H Chase, of the United States Engineer Corps, an officer who is extensively known and highly respected, in writing to the editor of the Washington Union, says—

"If the whigs hope to succeed by reckless aspersions on the character of their presidential opponent, I can tell them that in one State at least they will signally fail; for in Louisiana thousands of whigs will unite with such writers as "A Looker on in Venice," in denouncing such base means."

☞ The New York *Tribune* says: "As for the Platform we defy it, we execrate it, we spit upon it."—To which the Indiana State *Sentinel* replies: "What a noble party! They steal their candidate from the embraces of Native Americanism and run with a Spittoon for a Platform."

☞ The *Pennsylvanian* says it has cheering accounts from Maryland. It is assured by friends that that State will never yet cast her 'electoral vote for a Democratic President, but will, in November next, give a majority for Pierce and King.

☞ CONTRIBUTION OF CHEMISTRY TO THE HEALING ART.—The fact that *Ayer's Cherry Pectoral* is a chemical discovery, may explain why the distinguished Professors of the Science, (Silliman, Hitchcock, Webster and Cleveland, have given their certificates in its favor. None are better judge of its merits than these eminent men, and their names would be a sufficient guarantee of its value, if experience had not already proven to the public that it is one of the most effectual remedies for affections of the throat and lungs ever before them.—*Science in Lecture.*

☞ Hundreds of our citizens complain of debility and languor—a sensation, dear reader, of the liver and stomach, want of appetite, &c., they are frequently the result of close application, with many other causes we cannot here name; but we would advise the afflicted, do as we have done—get a bottle or two of Hoofland's German Bitters, prepared by Dr. Jackson, and, we feel for it, you will be cured. We recommend this medicine, known from experience that it is much superior to the generality of quack nostrums. We would say to our readers, purchase none unless prepared by Dr. C. M. Jackson, Philadelphia.

GIRARD ACADEMY.

THE Fall Term of this Institution will commence on Wednesday, the 1st day of September next, under the charge of P. E. PILLSBURY, A. M., as Principal, assisted by Miss M. L. FARWELL, Preceptress in the Female Department, Miss H. L. SYKES, Teacher in the Primary Department, and EDWIN FARNHAM, Teacher of Penmanship and Drawing.

Instruction will also be given in Vocal and Instrumental Music—either upon the Piano Forte, or Melodion, according to the choice of the pupil.

This Institution has just completed its first Academic year, during which time there have been over 250 pupils in attendance with the different Departments. The favorably well established reputation of the Principal and Assistants, and the unqualified approbation of such number of students now scattered over this and the adjoining States, render it unnecessary for the Trustees to say more upon either the qualification of the Teachers, or the thorough, practical course of instruction here pursued. At the same time, they would not conceal the entire confidence which they feel in the permanency of the Institution, nor their high anticipations of its future success and success. PATENT CONICAL BURR STONE MILLS.

TO the above Mills have been awarded, at different times, in the United States and the Canadas,

THIRTY-NINE PREMIUMS!

They are of simple construction, occupying but a small space; are durable, (the grinding surface being composed of the choicest French Burr Stone,) and may be attached to any motive power, either Horse, Wind, Water or Steam, as readily as any ordinary grist-stone,—doing its work with great rapidity and perfection—are easily kept in order, and possess decided advantages over the flat stone mills, in that they can be put up at much less cost, and require 3-4 per cent. less power to operate them—at the same time less attention to tend them—and grind more evenly.

The Conical Mill is a perfect Grist Mill in miniature; it is well adapted to the wants of the community, and is undoubtedly the *Cheapest and best Mill ever offered to the Public.*

N. B.—All communications (post-paid) will receive prompt attention, addressed to CHARLES RUSH, Manufacturer, Rochester, N. Y., Aqueduct Street, opposite the Arcade, or JOSEPH SEDERBEER, General Agent, Erie, Pa.

VALPOSTA, Laurens Co. April 26, 1847.

I have tried the Conical Patent Mill for grinding corn, and have found it to answer admirably. No planter that is not in the vicinity of a public mill ought to be without one, if he can afford to purchase, and his family is sufficiently large to require the use of it: otherwise I would suggest that several farmers of a neighborhood should unite to purchase one in common, which be ng established in a central position, would be accessible to all.

Very respectfully yours, G. M. TROUP.

MIDDLETOWN, Delaware Co., N. Y.

"This is to certify, that I have now in use, one of Ross' Patent Portable Burr Stone Mills, and am satisfied that it will more than answer its recommendations; it is the best Portable Mill that has been invented—there is one in use about nine miles from me, that does quite a Custom Business. I can cheerfully recommend it to the public. E. A. CLARK, Miller.

BRANT'S PURIFYING EXTRACT

The Greatest

BLOOD PURIFIER

IN THE WHOLE WORLD!

☞ *Price $1 per Bottle, or six Bottles for $5.*

It is now put up in QUART BOTTLES, of the same power and *school theory* as then in small bottles. Each *large* bottle contains SIXTY-FOUR DOSES, and the proprietors are so Strongly Concentrated that only One Tablespoonful is required at a Dose—three times a day—thus one bottle lasts Twenty-One Days, which is much longer than a bottle of any other medicine lasts, because there is required of this a less quantity at a dose.

The great *Superiority* of this Blood Purifier over all other medicines, consists in a great measure in its possessing as a part of its compound, the *powerful* Medical Virtues of some Scarce and Rare

Indian Roots and Barks,

which no other medicine possesses. These are the most certain Purifiers of the Blood that were ever known to either Indian or white man, and these being compounded with the *strongly concentrated Extracts* of

Sarsaparilla, Yellow Dock,

CHERRY AND SASSAFRAS BARKS,

make this Vegetable Extract, not only the *greatest* Blood Purifier, but also, a cheaper medicine by the gallon than any other. It is *cheaper*, because the *quantity* of it that may be bought for One Dollar will last much longer, and will cure Ten Times more Blood disease, than One Dollar's worth of any other medicine.

FISK'S PATENT METALIC BURIAL CASES.

THE Undersigned having secured the exclusive Agency for the sale of the above named Burial Cases, for Erie County, and deeming the article one which depends solely upon its own merits would respectfully solicit an inspection of the same at his

Ready-Made Coffin Ware-Room.

East side of State between 7 and 8 sts., over the Sharon Iron Company's Store where satisfactory references and testimonials as to their practical utility can be given, which together with a personal inspection cannot but recommend them to the favorable consideration of all those who in the dispensation of Divine Providence have occasion for the use of a Coffin. The undersigned would here add that these cases are of a classic form, and correspond in shape, to the outlines of a human body, are highly ornamental, and regarded as less repulsive more beautiful and unique in appearance, than any other article used as receptacles for the dead; they are made of the most imperishable plate rails, are enamelled inside and out, so as not to rust or corrode and when cemented together are perfectly air-tight, preventing the exhalation of offensive gases, so that when desired the remains can be kept for weeks before burial, awaiting the arrival of absent friends; they are light and portable, at the same time being more or less curvilinear, eyery possess one that sufficient strength to resist all the pressure of gasses from the body, which they are subject to while in use; and bodies may be disinterred even after a lapse of many years, and removed to any part of the country, without the slightest disagreeable odor arising from them.

In the use of these Burial Cases, the grateful ing reflection is afforded to surviving friends and relatives, that the mortal remains of those once dearly beloved are excluded and deposited where they will remain in peace, free from the irruptions of worms, the depredations of vermin, and comparatively beyond the unhallowed desecration of dissectors, and will be permitted to undergo a transformation, or return to their native elements, from natural causes alone.

If The undersigned has constantly on hand and for sale at his ware rooms as above Rose-wood, Mahogony, Black-walnut, cloth covered, and all kinds of cheaper Coffins of all sizes all ready for immediate use, also shrouds of all sizes for both sexes.

N. B. He is prepared to take the general superintendance of funerals, and furnish Hearse and Carriages if desired.

IN pursuance with the following Resolution, Proposals will be received at the office of the Mayor until the first of July next for furnishing three hundred thousand feet of Plank, for grading state street and laying the Plank:
