gent men of the navy, no matter what their rank.

This day, in the British navy, where there are ten grades of admirals, the first lord of the admiralty is a captain, and always a majority of the board is of inferior rank to the admirals; yet, in our democratic country, the management of this important branch of the service must be confined entirely to that *intelligent order of men* called captains, the highest grade in the navy. It is from them that the idea comes that flogging is necessary, yes, positively essential to the existence of the navy. Congress passes resolutions to make inquiries on the subject of flogging. The secretary sends circular letters to the captains, these same captains we are writing about, men who have been flogging sailors from their earliest naval recollections, some of whom have been tried for cruelty, for unmerciful use of the lash, to obtain their opinions on the subject, and congress and the world are edified with the opinion that flogging is essential. Did any one expect them to say any thing else? To tell the world that all this use of the lash has been unnecessary: to give the lie to a whole lifetime of action.—No matter if it be wrong, they have been doing it for the last forty years, and would be the last to acknowledge it. This is a sample of the ideas entertained by the captains, and they are just about as progressive on other subjects. To get rid of these ideas, it is necessary to get rid of them. There are plenty of men on that navy list, who the young men, the men who will have to do the fighting in the navy, could follow to the death, men who could impart an enthusiasm and create an *esprit du corps* that again would make the navy a terror to our foes, who lead them to battle with the confident hurrah of victory. But few of their names are found among that list of decrepid old men called captains, whose tottering footsteps are more emblematic of funeral processions than the firm tramp of a man to battle.

And lastly, as a measure of reform, increase the pay of the petty officers and seamen. The present rates of pay were established in 1800. Since then money has diminished in value at least a half, in this country. The pay of the officers, small as it is, is now double what it was then; yet the *poor seaman remains the same. Seamen* obtain in New York, eighteen dollars per month, in merchant ships, and yet the navy remains twelve dollars.—The consequence is, our vessels of war have on board a few good men, who have passed their lives in the navy, and the rest are mere refuse, whom no merchant ship would have.

Reform, thorough reform, in the navy, is absolutely essential to the national honor. Retire from that list of captains those worthless men who have been idle pensioners for no services rendered so long. Give to those few distinguished old officers remaining the rank of commodores or admirals, which their long services and high bearing entitle them to. Drive old fogies from the Bureaux in Washington. Give just rates of pay to petty officers and seamen, and to the ship young and energetic captains, and the navy again will ride in triumph over the seas, and the ensign will be safe.

ERIE DAGUERREAN GALLERY.

Park Row, a few doors West of the REED HOUSE.

SHERMAN is ready to give all who wish DAGUERREOTYPE LIKENESSES, in the style at all particular who kind of pictures they have, to his rooms which have been built expressly for the purpose, and fitted up at a large expense. Mr. S. has been the constant study of all worthy of the name since the Art was discovered, to combine and control it in the manner best adapted to produce the most favorable results. The result of this study an experience of many years is that there is not a more complete permanent Gallery in the U. States where the pictures are made by a common window, and he who says he can produce superior pictures by such a window proves his ignorance of the Art. Those who have visited large Galleries know that by the superior LIGHT, and with an apparatus worth six times any other in this city, he is enabled to produce pictures which cannot be excelled in this part of the country, and others to excell any thing which can be produced in other rooms in Erie, or for hundreds of dollars. He has also a splendid Quick Working Camera, with which he takes children of any age. Let it be distinctly understood he has pretty rooms with no fuss or humbug connected. N. GREAT ENGLISH REMEDY,

The most valuable spring and Summer Medicine in the World!

HALSEY'S FOREST WINE,

PATRONIZED BY THE NOBILITY AND MEDICAL FACULTY OF ENGLAND, AND ESTEEMED THE MOST EXTRAORDINARY IN THE WORLD.

MEDICINES containing molasses or liquorice, like the boasted Sarsaparillas, require many large bottles to produce the slightest change in health. The Forest Wine is altogether a different article. It contains no syrups to give it consistency, but acquires its excellent flavor and powerful medicinal qualities from the vegitable plants of which it is composed. The Forest Wine combines the virtues of the *Wild Cherry, Dandelion, Yellow Dock, and Sarsaparilla*, with other valuable plants, whose properties are still more powerful. Its high concentration renders it one of the most eloquent medicines now in use. Less than a single bottle restores the lingering patient from weakness, debility, and sickness, to strong and vigorous health. The Forest Wine is recommended, in the strongest terms, for all complaints of the *Stomach, Liver, Kidneys, Nervous Disorders, Bad tone Affections, Dropsy, Dyspepsia, Loss of Appetite, Jaundice, Female Complaints, Scrofula*, and all Disorders arising from BAD BLOODS, and impure habits of the system.

SAVED FROM DEATH!!!

Testimony of Mr. Nathan Matthews, a highly respectable and wealthy citizen of Newark, N. J.

Dr. G. W. Halsey.—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Asthma. My physicians had given me over as past recovery. While in this dreadful situation your Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine and box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. drops of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age. I ascribe my recovery entirely to your excellent medicine. Several of my neighbors have *also used them with similar* success in obstinate complaints, and I can cheerfully recommend them to the public.

Newark N. J. Dec. 19 1-17 Yours, &c, N. MATHEWS.

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

NEW YORK, Jan. 9 1852.

Mr. Halsey, Dear Sir:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely, or upwards of ten years; and having adhered closely to the directions which accompany the medicines, I have received my health, both the family all of which we thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking any excellent medicines, in consequence of the deception and inefficiency of many self-styled remedies of the day, or, perhaps, from the trifling advertisements. But, what a pity it is, that the deception used by others, should be the means of dissuading many from using under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have saved my life. When I commenced making use of them, I was in a wretched condition, but began to experience their good effects in less than three days; and, in six weeks from the time I purchased the medicines, to the great surprise of all my friends, I was entirely cured, and had increased 14 pounds in weight, having taken one box of the Pills, and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies. Yours, &c. JAMES WILSON.

Dr. David Marvin, a celebrated practitioner of New York, declared publicly, that one bottle of Halsey's Forest Wine contained more virtues than 20 of the large bottles of Sarsaparilla. Messrs. C. S. Sampson & Co., the largest and most respectable druggists in Syracuse, in a letter says: "From what they have heard and seen of Halsey's Forest Wine, it is an excellent and good medicine, and will undoubtedly become the leading medicine of the day." Dr. Mott, of New York, also subscribes to the virtues of Halsey's Forest Wine by recommending it to many of his patients. Seven hundred certificates from physicians, clergymen and individuals, of known respectability, have been given, testifying to the great cures made by "Dr. Halsey's Forest Wine and Pills." Among them is the cure of Mr. John Sims, of 925 Pearl st. New York,—case of affection of the Liver, and bad cough, after having been given over by his physicians, who pronounced his case incurable. Consumption. A child of Mr. William Bowers, Broadway, New York, who had been dreadfully afflicted with Scrofula, of four years standing, cured by two bottles of the Wine. Mary J. Brown, daughter of Rev. James K. Brown, of Decease of the heart, and incipient Consumption. Others of Jaundice, others of Piles, others of General Debility, others of Gravel Female Complaints, &c. Dr. Halsey's Office, No. 386 Broadway New York. The Forest Wine in large square bottles, $1 per bottle—six bottles for $5. Gum-coated Forest Pills, 25 cents per box. For sale by the Appointed agent in Erie. CARTER & BROTHER.

PATENT CONICAL BURR STONE MILLS.

TO the above Mills have been awarded, at different times, in the United States and the Canadas,

THIRTY-NINE PREMIUMS!

They are of simple construction, occupying but a small space are durable, (the grinding surface being composed of the choicest French Burr Stone,) and may be attached to any motive power, either Horse, Wind, Water or Steam, as readily as any ordinary grind-stone,—doing its work in great rapidity and perfection—are easily kept in order, and possess decided advantages over the flat stone mills, in that they can be put up at much less cost, and require 30 per cent. less power to operate them—at the same time less attention to tend them—and grind more even.

The Conical Mill is a perfect Grist Mill in miniature, it is well adapted to the wants of the community, and is undoubtedly the *Cheapest and best Mill ever offered to the Public.*

Any mechanic or capitalist, (post-paid) will receive prompt attention, addressed to CHARLES ROSS, Manufacturer, Rochester, N. Y., Aqueduct Street, opposite the Arcade, or JOSEPH SEDLERGER, General Agent, Erie, Pa.

VALDOSTA, Laurens Co. April 26, 1847.

I have tried the Conical Patent Mill for grinding corn, and have found it to answer admirably. No planter that is not in the vicinity of a public mill ought to be without one, if he can afford to purchase, and his family is sufficiently large to require the use of it, otherwise I would suggest that several farmers of a neighborhood should unite to purchase one in common, which being established in a central position, would be accessible to all.

Very respectfully yours, G. M. TROUP.

MIDDLETOWN, Delaware Co., N. Y.

"This is to certify, that I have now in use, one of Ross' Patent Portable Burr Stone Mills, and am satisfied that it will more than answer its recommendations; it is the best Portable Mill that has been invented—there is one in use about nine miles from me, that does quite a Custom Business. I can cheerfully recommend it to the public. E. A. CLARK, Miller.

DR. MARCHISI'S UTERINE CATHOLICON.

THE discovery of the above preparation has established a new era in the history of the healing art; it is, in truth one of the greatest Medical discoveries of the age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of late, and which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of almost every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term of

Female Complaints,

and comprises all the derangements to which females are liable in their passage through life, from infancy to womanhood, and from womanhood to the final change of organization. Among these are Prolapsus Uteri, or Falling of the Womb; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or "bleeding;" Fluor Albus, or Whites; Chlorosis; Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (cancer excepted,) of whatever duration and severity. All these complaints can be pleasantly, safely, and certainly removed by this preparation.

The claims of the Medicine to the confidence of the public are strengthened by the fact of its having received the approbation and liberal patronage of many prominent members of the Medical faculty in the United States, some of whom have voluntarily given letters of commendation, (see pamphlet,) sustaining all that is claimed for the Catholicon as a curative agent.

Pamphlets containing much useful information touching the nature and symptoms of the above diseases, together with testimonials from Ladies of the highest respectability, as certified by the most satisfactory authority in the pamphlet, to all which the attention of Ladies and Practitioners is respectfully invited, can be had gratis at the store of CARTER & BROTHER.
