Arrival of the Georgia-\$2,300,000 in Gold. The United States Mail steamship Georgia, Lient, Wm. Mitchell, Commander, arrived at New York on Friday evening, with the California mails to Oct. 1, bringing 300 passengers, and \$2,000,000 of geld on freight, and \$300,000 in the hands of passengers. The Georgia left Aspinwall at four o'clock on the morning of the 20th, and arrived at Kingston, Jamaica, at 2 o'clock, A. M., 22d, making the run in 46 hours. She left Kingston at 10 A. M. 231, and arrived here at 10 P. M. 29th. The health on the Isthmus is good; very few ca-

ses of fever, and no cho'era. A military force has been organized under the direction of Gen. Paez, which is of great benefit to passengers crossing the Isthmus. The natives are not allowed to carry arms of any description. Gen. Paez and his officers deserve great credit for their vigilance and promptness in suppressing murders

MINING INTELLIGENCE -In speaking of mining, the Placer Herald says :- We learn that a number of mining companies on the Placer side of the Middie Fork are duing extremdly well, and some of them making big strikes? The submarine Company, numbering thirteen men, were averaging over \$3.000 per day at last accounts, and have reached as high as \$4,000 in one day. The Macatee Company numbers three men, and is averging \$3,000 per week.

We understand that a number of the Franklin Mining Company at French Galch, Shasta county, has written to a !friend in the city, that some lucky miners recently dug a piece of gold weighing fifteen pounds and three ounces there recently, and that on the same day a lump of pure gold weighing sixteen ounces, was dug at the same place.

From the most reliable source we learn that at White Rock, on Feather river, within the past ten days, the White Rock Company, numbering twenty members, have taken out of a coffer dam \$22,000; the Smith Company, numbering nine members, \$14-000 and the Jones Company, numbering fire members, during the past four weeks, \$30,000. All the miners are reported as doing well .- Marysville Herald.

The San Francisc | Union says there is now on nieville, which is one of the largest and handsomest ever found in California. This splendid specimen is nearly pure, and weighs two hundred and four orners and three dollars. The same firm have also another lamp perfectly pure, which weight \$300,dug near the same spot as the above.

The accounts from every portion of the mining region are cheering. In none of the river diggings do we heat complaints of failure as in 1819. The same bars that are now being flumed were then worked by thousands-dimning them, and in most cases without success. The change would seem to be necessarily owing to the present improved mothods

AUSTRALIAN GOLD .- A beautiful lump of Australian gold was exhibited to us vesterday. It was recaived lately by one of our shipping houses. INDIAN DIFFICULTIES.

Unnka, September 7, 1859, To his Excellency, John Bislan, Governor of the State of California: Dear Sir:-A few weeks since a party of about fifteen men under command of Charles McDermit the Sheriff of this county, started out for the purpose of affording aid and succor to the emigration and to protect them against the attacks of the Indians in the north-eastern section of this county.

On their way to the foot of Sierra Nevada, about one hundred and twenty miles from that place, they The Reho of "THAT RICHTIRISH BROGUE fell in with a pack train consisting of nine men, eight of whom were well armed, and who they thought would come through with safety, as there was a large wagon train in charge of two of Mc-Dermit's party a day or two ahead of them. They continued their journey for the purpose of afficieng assistance to a number of families who were said to be in the rear. Not long after leaving these mer they were attacked by the Indians, and eight out o the nine were killed. The man who escaped succeeded in joining the wagon train sheed of him, one night before they reached this place. McDermit left two or three men with each train he passed to serve as guides and to afford such protection as lay

within their power. As suon as we were informed of the murder of the eight men alluded to, the civizens fitted out an expedition consisting of thirty-two men, including eight Shasto Indians, under the command of Capt.

Vermont. Massachusetts, Kentucky and Tennessie,

which cast 42 electoral votes! or just 5 more than we gave him in our estimate

The Result in the City and County.

The result of Tuesday's work in the city and county is truly gratifying, and shows what the Democracy can do when thoroughly aroused! In the city we had to seetend against a host of active, working whige, sided by their own wealth, and the money of the rich manufact. urors of the East, and the office helders of the govern ment. In addition to this they have always, till this year. been in an overwhelming majority. Confident of their power, they boastingly claimed from one hundred to wo-handred, and they got tocaty four, in a poll of over 90 votes! Under these circumstances, we say the Demorracy of Erie have done well-nebly! In the County every rag of the tiusel dressed puppet, military availabilour friends have fought through the canvocs with a determination and a zeal that deserved success, and although the county is still whig, they have the proud satisfaction of knowing that they have contributed to the achievement of one of the grandest, one of the most stupendous political victories ever won! If any of our ming blush of shame it must now call to the check of evefriends has the Observer announcing the defeat of the ry gentleman who has sanctioned the slander. struck down the gallant Case, they will find that amid the darkness that then enveloped the Democratic party. we announced that we could see "above and beyond the herizon of whig success-high above the 'noise and confacion, of whig rejoicing,-the sun of Democratic accondency shining out-the shouts of Democratic victory reverberating even among the hills and valleys of pretection-humbugged Pennsylvania." That prediction is now verified! The shouts of Democratic victory is reverberating, not alone in Pennsylvania, but in almost every state in this broad Union ! Democrate of Erie county, in this victory you have participated; and whatever of glories to our country will result from it, a nortion will shine upon you! Rejoice, then, and stand firm: whiggery in Erie County even is earing -Look at the city, at Millerook, at Wayne, at Elk Crook at Concord, at Amity, and the other towns! In all, the contest has been animated, and the Democracy have maintained more than an even fight. In some they have gained, and in all they have done well-very well! #### The Late Contest:

Our country has just been the theater of the most endlime political event which the world can display. Throughout its broad extent its millions have been called upon to deaide in one day the rule and policy of the nation; an awent which embraces as in my powerful feelings and inmete would in times not long gone, does still in untions not far dietaat, eill out armies and crimson battle fields; with as the whole machinery has been a proce of paper, afew type and a sme I box; and yet apasthous have been accounts the interest, not only of this nation, but the attention of the rulers and people of Enrope. Decpote and their particans, with fear and trembling, the friends of freedom, civil, religious, and commercial, with cheerful hope, have listened for the voice of that Demotreer which all feel is to influence the destines of the world. It has spoken in tenes of crashing thunder shores of the Atlantic, ever the farest and prairies of the west, and coming from beyond the Rocky Mountains, the voice of the people in asserting the triumph of Democratic principles has again spoken the decrees of the Deity. They have been spoken in majorities reling up and up to astounding numbers, as if they would say not only for ever and andisputed be our principles, but down to the dest with the insult which preffered the glitter of a seldier's uniform as a sedaution from those principles.

But the words of the distinguished citizen who has been se triumphantly called to preside over the destines of this nation admonish us to be moderate. "He trusted his friends would not forget that, with high toued and honorable men, the hour of triningh was always the hour of magnanimity. It was not to be overlooked, that there were around as, many with whom we were in daily intercourse at this moment, moved by feelings exectly opsecite of those which called out the assemblage before him; and his friends could well afford to allow that dircametance to detract somewhat from their generous joy. He haped they would also remember that no prospects of success, nor indeed political elevation itself, could rouder their neighbor more or less worthy of the confidence and affection for which he was profoundly grateful." But still it is our duty to draw matruction from the glorious event which has just transpired.

The principles of Democracy are so clearly defined, so roadly asserted, and so well understood, that it is useless le say more upon the support given them in this triumph, and we will therefore now limit our comments to the ineidental circumstances of this contest,

Supposing that the distinguished soldier who had already resped all the legitimate rewards of military achievements in their accompanying military glory;-Supposing that this gentleman whose

Our youth would have had the most deagerous incentives to look bereafter to the ca appas the road for that ambition which naturally moves mankind, and which in these times, ands a more beneficent and fitting field of eperation in the Another proof that the Democratic tariff is running the great pacific interests of the world, than amid the blood country. and ca nage of the battle ground. The camp thus filled, wars become necessary to give opportunity for the energiescrowding the recetion of arms, and amid wars, aspiring generals would have every inducement to use the powers committed to them to cast aside all subordination to the civil government, its orders and its pokey, if from brilliant achievements in arms, they could hope in political success;a popular justification of the crime: and thus we should have made rapid strides to military citisonship and the government of the bayonet. From all this, Gud be thanked, the intelligence of the Democracy has saved our country and has scattered to the winds

Again - Franklin Pierce has been called the "British candidate for the Presidency" and the Democracy the British party." If it were not for the lesson it teaches delicacy would forbid us to alliede to this from the ber-

There are certain kinds of prosperity which must be participated in by many parties, and all must be prosperous or the reverse together -suc's is perticularly the case with comcan that of our country from the advantage it gives those nations with which it has free commercial relations! Appropriate to this, the New York Times says, speaking of

In people and statesmen among whem they have some, instead of these of a party passing by diminishing minorities into annihilation, our adopted citizens have shown at once their intelligent discrimination and their value to the Republic.

In conclusion we would ask, what good has ever arisen to the whig party from the use of its terms of quatempt and represent? Has it brought one adherent to its ranks? On the contrary mes have felt the effort to insult their dectrines by terms of contempt, have charished their principles the more and have sent the spithets Leco-feed and Lace-focules broad spread ever the land chackled by the principles they carried with them.
